1 **TITLE I—COMMERCIAL PRIVACY**

2 **SEC. 101. SHORT TITLE.**

3 This title may be cited as the “Commercial Privacy
4 Bill of Rights Act of 2014”.

5 **SEC. 102. FINDINGS.**

6 The Congress finds the following:

7 (1) Personal privacy is worthy of protection
8 through appropriate legislation.

9 (2) Trust in the treatment of personally identi-
10 fiable information collected on and off the Internet
11 is essential for businesses to succeed.

12 (3) Persons interacting with others engaged in
13 interstate commerce have a significant interest in
14 their personal information, as well as a right to con-
15 trol how that information is collected, used, stored,
16 or transferred.

17 (4) Persons engaged in interstate commerce
18 and collecting personally identifiable information on
19 individuals have a responsibility to treat that infor-

1 mation with respect and in accordance with common
2 standards.

3 (5) On the day before the date of the enactment
4 of this Act, the laws of the Federal Government and
5 State and local governments provided inadequate
6 privacy protection for individuals engaging in and
7 interacting with persons engaged in interstate com-
8 merce.

9 (6) As of the day before the date of the enact-
10 ment of this Act, with the exception of Federal
11 Trade Commission enforcement of laws against un-
12 fair and deceptive practices, the Federal Government
13 has eschewed general commercial privacy laws in
14 favor of industry self-regulation, which has led to
15 several self-policing schemes, some of which are en-
16 forceable, and some of which provide insufficient pri-
17 vacy protection to individuals.

18 (7) As of the day before the date of the enact-
19 ment of this Act, many collectors of personally iden-
20 tifiable information have yet to provide baseline fair
21 information practice protections for individuals.

22 (8) The ease of gathering and compiling per-
23 sonal information on the Internet and off, both
24 overtly and surreptitiously, is becoming increasingly
25 efficient and effortless due to advances in technology

1 which have provided information gatherers the abil-
2 ity to compile seamlessly highly detailed personal
3 histories of individuals.

4 (9) Personal information requires greater pri-
5 vacy protection than is available on the day before
6 the date of the enactment of this Act. Vast amounts
7 of personal information, including sensitive informa-
8 tion, about individuals are collected on and off the
9 Internet, often combined and sold or otherwise
10 transferred to third parties, for purposes unknown
11 to an individual to whom the personally identifiable
12 information pertains.

13 (10) Toward the close of the 20th century, as
14 individuals' personal information was increasingly
15 collected, profiled, and shared for commercial pur-
16 poses, and as technology advanced to facilitate these
17 practices, Congress enacted numerous statutes to
18 protect privacy.

19 (11) Those statutes apply to the government,
20 telephones, cable television, e-mail, video tape rent-
21 als, and the Internet (but only with respect to chil-
22 dren and law enforcement requests).

23 (12) As in those instances, the Federal Govern-
24 ment has a substantial interest in creating a level
25 playing field of protection across all collectors of per-

1 personally identifiable information, both in the United
2 States and abroad.

3 (13) Enhancing individual privacy protection in
4 a balanced way that establishes clear, consistent
5 rules, both domestically and internationally, will
6 stimulate commerce by instilling greater consumer
7 confidence at home and greater confidence abroad as
8 more and more entities digitize personally identifi-
9 able information, whether collected, stored, or used
10 online or offline.

8 (B) EXTENSION.—

9 (i) IN GENERAL.—Except as provided
10 in subsection (d), delay of notification shall
11 not exceed 60 days following the discovery

21 STITUTE NOTIFICATION.—A covered entity re-
22 quired to provide notification to individuals
23 under subsection (a)(1) may provide notifica-
24 tion under this paragraph instead of paragraph

2 to the resources of such covered entity.

3 (ii) OTHER CIRCUMSTANCES.—The
4 regulations required by clause (i) may also
5 identify other circumstances in which noti-

12 **TITLE II—ONLINE PRIVACY OF** 13 **CHILDREN**

14 **SEC. 201. SHORT TITLE.**

15 This title may be cited as the “Do Not Track Kids
16 Act of 2014”.

17 **SEC. 202. FINDINGS.**

18 Congress finds the following:

19 (1) Since the enactment of the Children’s On-
20 line Privacy Protection Act of 1998, the World Wide
21 Web has changed dramatically, with the creation of
22 tens of millions of websites, the proliferation of en-
23 tirely new media platforms, and the emergence of a
24 diverse ecosystem of services, devices, and applica-
25 tions that enable users to connect wirelessly within

1 an online environment without being tethered to a
2 desktop computer.

3 (2) The explosive growth of the Internet eco-
4 system has unleashed a wide array of opportunities
5 to learn, communicate, participate in civic life, ac-
6 cess entertainment, and engage in commerce.

7 (3) In addition to these significant benefits, the
8 Internet also presents challenges, particularly with
9 respect to the efforts of entities to track the online
10 activities of children and minors and to collect, use,
11 and disclose personal information about them, in-
12 cluding their geolocation, for commercial purposes.

13 (4) Children and teens are visiting numerous
14 companies' websites, and marketers are using multi-
15 media games, online quizzes, and mobile phone and
16 tablet applications to create ties to children and
17 teens.

18 (5) According to a study by the Wall Street
19 Journal in 2010, websites directed to children and
20 teens were more likely to use cookies and other
21 tracking tools than sites directed to a general audi-
22 ence.

23 (6) This study examined 50 popular websites
24 for children and teens in the United States and
25 found that these 50 sites placed 4,123 cookies, bea-

1 cons, and other tracking tools on the test computer
2 used for the study.

3 (7) This is 30 percent greater than the number
4 of such tracking tools that were placed on the test
5 computer in a similar study of the 50 overall most
6 popular websites in the United States, which are
7 generally directed to adults.

8 (8) Children and teens lack the cognitive ability
9 to distinguish advertising from program content and
10 to understand that the purpose of advertising is to
11 persuade them, making them unable to activate the
12 defenses on which adults rely.

13 (9) Children and teens are less able than adults
14 to understand the potential long-term consequences
15 of having their information available to third parties,
16 including advertisers, and other individuals.

17 (10) According to Common Sense Media and
18 the Center for Digital Democracy, 90 percent of
19 teens have used some form of social media, 75 per-
20 cent have a social networking site, and 51 percent
21 check their social networking site at least once a
22 day.

23 (11) Ninety-one percent of parents and 91 per-
24 cent of adults believe it is not okay for advertisers

1 to collect information about a child’s location from
2 that child’s mobile phone.

3 (12) Ninety-four percent of parents and 91 per-
4 cent of adults agree that advertisers should receive
5 the parent’s permission before putting tracking soft-
6 ware on a child’s computer.

7 (13) Ninety-six percent of parents and 94 per-
8 cent of adults expressed disapproval when asked if
9 it is “okay for a website to ask children for personal
10 information about their friends”.

11 (14) Eighty-eight percent of parents would sup-
12 port a law that requires search engines and social
13 networking sites to get users’ permission before
14 using their personal information.

15 (15) A Commonsense Media/Zogby poll found
16 that 94 percent of parents and 94 percent of adults
17 believe individuals should have the ability to request
18 the deletion, after a specific period of time, of all of
19 their personal information held by an online search
20 engine, social networking site, or marketing com-
21 pany.

22 (16) According to a Pew/Berkman Center poll,
23 69 percent of parents of teens who engage in online
24 activity are concerned about how that activity might

1 affect their children’s future academic or employ-
2 ment opportunities.

3 (17) Eighty-one percent of parents of teens who
4 engage in online activity say they are concerned
5 about how much information advertisers can learn
6 about their children’s online activity.

9 The Fair Information Practices Principles described in

11 (1) COLLECTION LIMITATION PRINCIPLE.—Ex-
12 cept as provided in paragraph (3), personal informa-
13 tion should be collected from a minor only when col-

20 (B) required or specifically authorized by
21 law.

10 graph shall be construed to permit an operator
11 to erase or otherwise modify personal informa-
12 tion requested by a law enforcement agency
13 pursuant to legal authority.
