JULY 10, 2014

Mr. LATHAM (for himself, Mr. CUELLAR, Mr. COLLINS of New York, Mr. HALL, Mr. WILSON of South Carolina, Mr. BURGESS, and Mr. RICE of South Carolina) introduced the following bill; which was referred to the Committee on Oversight and Government Reform

A BILL

To require government-wide application of continuous process improvement methods to reduce waste and improve the effectiveness of the Federal Government, and for other purposes.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “Lean and Responsive
5 Government Act”.

6 **SEC. 2. FINDINGS; POLICY.**

7 (a) FINDINGS.—The Congress finds the following:

1 (1) Nearly 100 major United States corpora-
2 tions, countless small businesses, and many govern-
3 ment entities around the world have reduced waste
4 in their operations and improved the quality of the
5 goods and services they provide by implementing
6 continuous process improvement methodologies,
7 most commonly lean six sigma.

8 (2) Use of this methodology has resulted in av-
9 erage cost reductions greater than 25 percent while
10 also improving the quality of goods and services.

11 (3) The use of continuous process improvement
12 lean six sigma within the Department of Defense
13 and several other departments and agencies has
14 demonstrated that it can successfully be applied
15 across the Federal Government.

16 (4) Continuous process improvement is essential
17 for Federal agencies to be successful in setting and
18 meeting performance goals and is a key component
19 that is missing from current statutory requirements
20 for performance improvement efforts.

21 (5) Clear direction and authority from Congress
22 is needed to ensure this innovative management
23 process from the private sector is applied across the
24 Federal Government to achieve waste reduction and
25 optimal efficiency.

1 (b) CONGRESSIONAL STATEMENT OF POLICY.—It
2 shall be the policy of the United States—

3 (1) to reduce waste and improve the effective-
4 ness of the Federal Government through the use of
5 continuous process improvement methods;

6 (2) to require each Federal agency to imple-
7 ment the necessary capabilities to fully institu-
8 tionalize such methods within such agency to reduce
9 waste while maintaining or improving the level of
10 services provided by the Federal Government; and

11 (3) that the savings from such methods may be
12 used to justify agency funding requests.
