H. RES. 1037

Providing the sense of the House of Representatives that in vitro fertilization (IVF) is necessary for women who cannot conceive naturally, and for other purposes.

IN THE HOUSE OF REPRESENTATIVES

FEBRUARY 29, 2024

Mrs. CHAVEZ-DEREMER (for herself, Mrs. STEEL, and Mr. CISCOMANI) submitted the following resolution; which was referred to the Committee on Energy and Commerce

RESOLUTION

Providing the sense of the House of Representatives that in vitro fertilization (IVF) is necessary for women who cannot conceive naturally, and for other purposes.

Whereas, infertility presents a significant challenge for women across the nation, affecting their ability to conceive and realize their aspirations of parenthood;

Whereas, CDC reports that roughly 19 percent of women deal with infertility;

Whereas, advancements in medical science have led to the emergence of in vitro fertilization (IVF), providing hope and options for those grappling with infertility;

Whereas, IVF has proven to be a widely embraced and effective solution for couples contending with infertility, af-

fording them the opportunity to establish families and experience the blessings of parenthood; and

Whereas, the Columbia University Fertility Center reports over 8 million babies have been born through IVF: Now, therefore, be it

1 *Resolved*, That the House of Representatives—

2 (1) strongly supports the access to and use of
3 IVF treatments across the United States;

4 (2) remains committed to commonsense policies
5 that enable 4 families to grow and thrive; and

6 (3) recognizes the fundamental truth that life is
7 precious.
