8 RECOGNIZING THE IMPORTANCE OF ALZHEIMER'S AWARENESS
9 TRAINING.

10
11 WHEREAS, of the estimated 5.5 million Americans
12 living with Alzheimers dementia in 2017, an estimated 5.3
13 million are age 65 and older and approximately 200,000
14 individuals are under the age of 65 and have younger-onset
15 Alzheimer's; and

16 WHEREAS, Alzheimer's dementia is the sixth-leading
17 cause of death in the United States and is the only cause of
18 death of the top 10 that cannot be prevented, cured or, even
19 slowed; and

20 WHEREAS, as Alzheimer's dementia progresses,
21 individuals may experience changes in personality and
22 behavior, anxiety, suspiciousness, or agitation, as well as
23 delusions or hallucinations, and may lose their ability to
24 recognize familiar places and faces, remember their names or
25 addresses, and may unknowingly place themselves and others in
26 dangerous situations; and

1 WHEREAS, emergency medical service providers, law
2 enforcement officers, and firefighters are called upon to
3 respond to or interact with persons displaying behaviors
4 associated with dementia under a variety of everyday
5 circumstances and must be prepared to handle the challenges
6 facing their citizens with dementia; and

7 WHEREAS, effective ways to mitigate an encounter
8 between emergency medical service providers, law enforcement
9 officers, or firefighters and a person living with Alzheimer's
10 dementia includes recognizing the signs of dementia disease,
11 learning best practices in approaching and communicating with
12 persons who have dementia, and being aware of situations where
13 an emergency medical provider, law enforcement officer, or
14 firefighter might encounter individuals with dementia along
15 with effective ways to respond during those interactions; and

16 WHEREAS, Alzheimer's disease and related dementia
17 awareness training provides emergency medical service
18 providers, law enforcement officers, and firefighters with
19 effective response options; and

20 WHEREAS, the Alabama Peace Officers' Standards and
21 Training Commission (APOSTC), the Alabama Department of Public
22 Health Office of Emergency Medical Services (ADPH-OEMS), and
23 the Alabama Fire College and Personnel Standards Commission
24 (AFCPSC) recognizes that their members could increase their
25 awareness and response options through training on Alzheimer's
26 disease or related dementia; and

1 WHEREAS, APOSTC, ADPH-OEMS, and AFCPSC develop and
2 implement the training curriculum for emergency medical
3 service providers, law enforcement officers, and firefighters
4 in their prospective training academies and has expressed a
5 willingness to add Alzheimer's disease and related dementia
6 awareness as an element of the basic training curriculum for
7 all newly certified emergency medical service providers, law
8 enforcement officers, and firefighters; and

9 WHEREAS, APOSTC, ADHP-OEMS, and AFCPSC consider
10 Alzheimer's disease and related dementia awareness important
11 to the training of emergency medical service providers, law
12 enforcement officers, firefighters and desire to promote
13 additional training of those in the field to ensure safety of
14 all persons; now therefore,

15 BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF
16 THE LEGISLATURE OF ALABAMA, BOTH HOUSES THEREOF CONCURRING,
17 That the Alabama Peace Officers' Standards and Training
18 Commission, the Alabama Department of Public Health Office of
19 Emergency Medical Services and the Alabama Fire College
20 Personnel Standards Commission are congratulated on their
21 willingness to recognize the importance and value of
22 Alzheimer's disease and related dementia awareness training;
23 and

24 BE IT FURTHER RESOLVED, That Alzheimer's disease and
25 related dementia awareness training that will help emergency
26 medical providers, law enforcement, and firefighters gain a
27 better understanding of common behaviors, learn strategies and

1 tactics for successful interactions, and more effectively and
2 efficiently respond to common calls involving a person with
3 Alzheimer's disease or another dementia may be included as an
4 element of the basic academy certification training and made
5 available for in-service training or as a part of annual
6 continuing education requirements.
