8 SYNOPSIS: Existing law requires certain sensitive  
9 personally identifying information to be affixed to  
10 commercial freshwater fishing equipment used in  
11 waters of this state, as well as equipment used to  
12 trap fur-bearing animals.

13 This bill would remove the requirement that  
14 sensitive personally identifying information be  
15 affixed to fishing equipment and trapping  
16 equipment. This bill would also authorize the  
17 Department of Conservation and Natural Resources to  
18 adopt rules to require identification of commercial  
19 fishing equipment and trapping equipment by other  
20 means.
