34 independent expertise as is necessary to establish the amount of the bond.

35 (4) The Arkansas Pollution Control and Ecology Commission shall  
36 promulgate regulations concerning bonds and substituted security which will

2 mineral resources as a result of high bond amounts, but which will provide  
3 reasonable security.

4 (b)(1) The ~~department~~ division may accept cash, securities, or other  
5 collateral, including, but not limited to, letters of credit and mortgages on  
6 real property provided by the operator in an amount equal to that of the

13 after the time a permit is granted by the ~~department~~ division until the  
14 affected area has been reclaimed, approved, and released.

15 (c)(1) Any bond or substituted security shall not be cancelled by the

36 division may terminate the permit of the operator and forfeit the bond or

1 substituted security.

2 (3) If a permit has not been issued but a bond has been posted  
3 during the application process and this process will not be completed and

5 bond or substituted security as provided in § 15-57-317.

6 (f) The ~~department~~ division may reclaim any affected land for which a  
7 bond has been forfeited.

8 (g)(1) Whenever an operator shall have completed all requirements  
9 under the provisions of this subchapter as to any affected land, it shall so  
10 notify the ~~department~~ division.

11 (2) If the ~~department~~ division determines that the operator has  
12 completed reclamation requirements and achieved results appropriate to the  
13 use for which the affected land was reclaimed, the ~~department~~ division shall  
14 release the operator from further obligations regarding the affected land and  
15 the penalty of the bond or substituted security shall be reduced accordingly.

16 (h)(1) Upon partial completion of reclamation, the operator may submit  
17 a written request to the ~~department~~ division for the purpose of  
18 proportionately reducing the amount of the bond or substituted security upon  
19 affected lands.

20 (2) If the ~~department~~ division determines that proper  
21 reclamation has been accomplished under the provisions of this subchapter on  
22 an area less than the total area of the affected area, the ~~department~~  
23 division shall proportionately reduce the amount of the bond or substituted  
24 security.

25 (i) No operator shall be eligible to receive a new or renewed permit  
26 who has had a permit revoked, bond forfeited, or who has outstanding  
27 substantial unmitigated violations of this subchapter, including failure to  
28 reclaim, unless the ~~department~~ division finds upon review a demonstrable  
29 change of circumstances justifying an exception to these prohibitions.

30 (j) Liability under the bond or substituted security shall be for the  
31 duration of the open-cut mining operation and for that period required to  
32 establish successful reclamation of the affected area.

33 (k) Nothing contained herein shall be deemed to preclude the right of  
34 the ~~department~~ division to recover the actual cost of reclamation over and  
35 above the amount of bond.

28 on a temporary basis. If so, the operator will file a notification of  
29 temporarily closed quarry with the ~~Arkansas Department~~ Division of  
30 Environmental Quality, within thirty (30) days after an operation is closed.  
31 Full reclamation will not be required until no further additional quarrying

10 notification and commence with plans to reclaim quarry site as per the  
11 requirements of this subchapter.

12 (c) If the operator fails to file notification within the required

9 SECTION 6346. EMERGENCY CLAUSE.

10 (a) It is found and determined by the General Assembly of the State of  
11 Arkansas that the Transformation and Efficiencies Act of 2019 revises the  
12 duties of state entities, creates new departments of the state, and creates  
13 new positions in the state; that these revisions are extensive and will  
14 require new policies and procedures to be developed to implement the  
15 transition; that a team of existing state employees will be needed to assist  
16 in the implementation of the Transformation and Efficiencies Act of 2019;  
17 that this transition shall occur on July 1, 2019, and policies and procedures  
18 will be required to be developed before that date; that a new class code,  
19 grade, and line item maximum for each cabinet-level department secretary must  
20 be submitted prior to July 1, 2019 for legislative approval before the  
21 implementation of this act; and that the two uncodified sections of this act  
22 preceding the emergency clause titled "Funding and classification of cabinet-  
23 level department secretaries" and "Transformation and Efficiencies Act  
24 transition team" are immediately necessary because the transition to the new  
25 government structure will require the dedicated efforts of state employees  
26 currently performing other duties prior to the effective date of the  
27 remaining sections of the act on July 1, 2019. Therefore, an emergency is  
28 declared to exist, and the two uncodified sections of this act preceding the  
29 emergency clause titled "Funding and classification of cabinet-level  
30 department secretaries" and "Transformation and Efficiencies Act transition  
31 team" being immediately necessary for the preservation of the public peace,  
32 health, and safety shall become effective on:

33 (1) The date of its approval by the Governor;

34 (2) If the bill is neither approved nor vetoed by the Governor,  
35 the expiration of the period of time during which the Governor may veto the  
36 bill; or
