

1 State of Arkansas
2 93rd General Assembly
3 Regular Session, 2021
4
5 By: Representative Ray

HR 1036

6
7 **HOUSE RESOLUTION**

8 TO ENCOURAGE THE UNITED STATES CONGRESS AND THE
9 ARKANSAS CONGRESSIONAL DELEGATION TO PURSUE POLICIES
10 TO APPROVE THE KEYSTONE XL PIPELINE, ALLOW NEW LEASES
11 ON FEDERAL LANDS AND FEDERAL WATERS, AND REMOVE
12 BARRIERS TO FUTURE ENERGY INFRASTRUCTURE ENSURING
13 AFFORDABLE AND RELIABLE ENERGY PRODUCED DOMESTICALLY.
14

15
16
17 **Subtitle**

18 TO ENCOURAGE THE UNITED STATES CONGRESS
19 AND THE ARKANSAS CONGRESSIONAL DELEGATION
20 TO APPROVE THE KEYSTONE XL PIPELINE,
21 ALLOW NEW LEASES, AND REMOVE BARRIERS TO
22 FUTURE ENERGY INFRASTRUCTURE.
23

24 WHEREAS, with a stroke of a pen on January 20, 2021, President Biden
25 cancelled the Keystone XL Pipeline, immediately impacting eleven thousand
26 (11,000) families through current and future job losses, including the
27 largest employer at Port of Little Rock, Welspun Tubular, LLC, which held
28 contracts to supply one hundred ninety (190) miles of pipe and was hiring
29 additional employees in anticipation of the construction of the Keystone XL
30 Pipeline despite the economic downturn due to the pandemic; and
31

32 WHEREAS, with a second stroke of a pen on January 27, 2021, President
33 Biden shifted America's bright energy future into reverse and set the United
34 States on a path toward greater reliance on foreign energy produced with
35 lower environmental standards by putting a moratorium on all new oil and
36 natural gas leases on federal lands and federal waters; and

1
2 WHEREAS, a federal leasing and development ban would cost nearly one
3 million (1,000,000) American jobs by 2022 and put nine billion dollars
4 (\$9,000,000,000) in government revenue at risk, while states will lose
5 hundreds of millions of dollars from mineral royalties shared by the United
6 States Government that fund schools, infrastructure, and environmental
7 projects; and

8
9 WHEREAS, the cumulative effects of these policies will result in
10 residential consumers spending nineteen billion dollars (\$19,000,000,000)
11 more on energy by 2030; and

12
13 WHEREAS, this decision appears to be a first step toward a policy of
14 banning natural gas and oil development on federal lands and waters. Coal
15 use will have to increase by fifteen percent (15%) to account for the
16 deficit, and carbon dioxide emissions in the power sector will increase by an
17 average of fifty-eight million (58,000,000) metric tons by 2030; and

18
19 WHEREAS, presidents over the past thirty (30) years have advocated for
20 the United States to be energy independent, which is finally close to being
21 fully realized; and

22
23 WHEREAS, current policies by the President of the United States could
24 lead to increases in oil imports by two million (2,000,000) barrels per day
25 and reduce natural gas exports by eight hundred billion cubic feet
26 (800,000,000,000 cu. ft.) by 2030; and

27
28 WHEREAS, today oil and natural gas comprise about sixty percent (60%)
29 of the global energy supply and are projected by the International Energy
30 Agency to remain over fifty percent (50%) by 2040; and

31
32 WHEREAS, according to a scenario developed by the International Energy
33 Agency, every country that meets its Paris Agreement commitments will still
34 have natural gas and oil comprising approximately forty-six percent (46%) of
35 their energy portfolio in 2040; and

36

1 WHEREAS, the United States is the leader in the world for reducing
2 greenhouse gases through the conversion of coal utility plants to natural
3 gas; and
4

5 WHEREAS, ninety-three percent (93%) of voters find that it is important
6 for the United States to produce enough energy to avoid being dependent on
7 other countries, and seventy-three percent (73%) believe that natural gas and
8 oil will remain a significant part of America's energy needs in 2040; and
9

10 WHEREAS, affordable and reliable energy, essentially drawn from an all-
11 of-the-above approach in a competitive market, is essential to a thriving
12 economy,
13

14 NOW THEREFORE,

15 BE IT RESOLVED BY THE HOUSE OF REPRESENTATIVES OF THE NINETY-THIRD GENERAL
16 ASSEMBLY OF THE STATE OF ARKANSAS:
17

18 THAT the United States Congress and the Arkansas congressional
19 delegation:

20 (1) Pursue policies of energy independence over foreign
21 dependence while creating American jobs and leading to economic revival
22 rather than small-town decline;

23 (2) Promote domestic energy infrastructure through approval of
24 the Keystone XL Pipeline and removing barriers that prevent or slow new oil
25 and natural gas pipelines;

26 (3) Allow future exploration and production on federal lands
27 and federal waters to ensure reliable and affordable energy for the citizens
28 of the United States;

29 (4) Pursue policies that promote innovation through competitive
30 markets to reduce greenhouse gases rather than the selection of winners and
31 losers through incentives or over-regulation; and

32 (5) Continue to pursue policies that encourage domestic oil and
33 natural gas production, which results in lower greenhouse gas emissions and a
34 cleaner, healthier environment than oil and natural gas produced elsewhere in
35 the world.
36

1 BE IT FURTHER RESOLVED THAT upon adoption of this resolution, the Chief Clerk
2 of the House of Representatives provide copies of this resolution to the
3 Speaker of the United States House of Representatives, the majority leader of
4 the United States Senate, and all members of the Arkansas congressional
5 delegation with the request that this resolution be officially entered into
6 the Congressional Record.
