9 FORCE; AND FOR OTHER PURPOSES.

Subtitle

12 TO CREATE THE WATER PROVIDER LEGISLATIVE
13 TASK FORCE.
14

15
16
17 BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:
18

19 SECTION 1. DO NOT CODIFY.

20 Arkansas Water Provider Legislative Task Force.

21 (a) The General Assembly finds that:

22 (1) Utilities by their inherent nature are often monopolies;

23 (2) The people grant these monopolies as a way of enhancing
24 service and economic development and not the opposite;

25 (3) If service is being well provided, the most people possible
26 are enjoying the use of the service, and economic development is aided, then
27 it may be said the monopoly is being used well;

28 (4) If service is not well provided, many people are denied
29 service, and economic development is diminished or thwarted, then it may be
30 said the monopoly is not being used well;

31 (5) A monopoly should not be granted or allowed to continue in
32 the same hands if the people served or people who should be served are being
33 harmed;

34 (6) No utility provides a more basic need for human life and
35 economic development than a water provider;

36 (7) To this date in the state, no monopoly has been given more

1 power to decide whether to serve or not to serve than a water provider;

2 (8) It has been brought into question if water providers in some
3 locales are doing the best job to provide the best service to the most people
4 and to enhance economic development;

5 (9) To determine whether a water provider is providing
6 adequately or not in exchange for the monopoly granted, there need to be
7 standards by which to judge the water providers; and

8 (10) The people of this state deserve to have a fair set of
9 standards when seeking to obtain a service so basic to human life.

10 (b) The General Assembly intends that a water provider:

11 (1) Should not have to provide water outside the areas that the
12 water provider has agreed to serve;

13 (2) Does not have to bear any cost to provide new service within
14 the service area unless the water provider bears that cost for the same type
15 of new service to all customers within the service area;

16 (3) May set rates that vary by location and political
17 subdivision, unless the water provider has required an agreement to do
18 otherwise when service is established; and

19 (4)(A) Shall not be required to extend water lines or provide
20 water for any area that the water provider has not agreed to serve.

21 (B) As used in this subdivision (b)(4), "agreed to serve"
22 means any area that the water provider has agreed to serve by original
23 charter and any area the water provider has agreed to serve in subsequent
24 actions, including without limitation accepting water lines and providing
25 service.

26 (C) All areas within the platted area of a municipality or
27 water district shall be included whether or not there is a water main
28 directly adjacent to a water customer.

29 (c) The General Assembly intends that a water customer:

30 (1) Within a service area of a water provider, shall not be
31 discriminated against based on race, gender, marital status, religion, or the
32 political subdivision within which the water customer resides, except that:

33 (A) Different types of water customers may have different
34 sets of rules as may be practical for those type of divisions; and

35 (B) This subdivision (c)(1) does not affect a water
36 provider's right to set different rates for water itself, based on geographic

1 location or political subdivision;

2 (2) Within a water provider service area, cannot be made to meet
3 new requirements to obtain water unless all similar water customers,
4 regardless of location, also meet those requirements; and

5 (3) Within a service area already serviced by a water provider,
6 shall not be required to annex into a municipality or other political
7 subdivision if that requirement was not in place when the area became part of
8 the water provider's service area.

9 (d)(1) To provide a better water provider system, to aid in obtaining
10 basic water service for as many Arkansans as possible, and to enhance
11 economic development in the state, there is established the Water Provider
12 Legislative Task Force.

13 (2)(A) The task force shall study and provide a blueprint for
14 water security and development for the state.

15 (B) The blueprint shall include the best practices for

17 possible and providing for the water needs and practices to bring economic
