29 instrument, medicine, drug, or any other substance, device, or means with the
30 intent to terminate the clinically diagnosable pregnancy of a woman, with
31 knowledge that the termination by any of those means will with reasonable
32 likelihood cause the death of the unborn child.

33 (B) An act under subdivision (b)(1)(A) of this section is
34 not an abortion if the act is performed with the intent to:

35 (i) Save the life or preserve the health of the

8 in this state in violation of this section;

9 (3)(A) "Medical emergency" means a condition that, in reasonable
10 medical judgment, so complicates the medical condition of the pregnant woman
11 that it necessitates the abortion of her pregnancy to avert:

13 (ii) Serious risk of substantial and irreversible
14 physical impairment of a major bodily function, not including psychological
15 or emotional conditions.

16 (B) "Medical emergency" does not include a condition based

18 intends to result in her death or in substantial and irreversible physical
19 impairment of a major bodily function;

20 (4) "Qualified technician" means:

21 (A) A registered diagnostic medical sonographer who is
22 certified in obstetrics and gynecology by the American Registry for

8 the ultrasound is depicting that includes the presence and location of the

11 unborn child has died, the physician or qualified technician shall inform the
12 pregnant woman of that fact;

13 (C) Display the ultrasound images so that the pregnant
14 woman may view them and document in the pregnant woman's medical record that
15 the ultrasound images were displayed to the pregnant woman;
