Subtitle

TO ESTABLISH COVERAGE FOR THE DIAGNOSIS AND TREATMENT OF MORBID OBESITY UNDER THE STATE AND PUBLIC SCHOOL LIFE AND HEALTH INSURANCE PROGRAM; AND TO DECLARE AN EMERGENCY.

27
28

BE IT ENACTED BY THE GENERAL ASSEMBLY OF THE STATE OF ARKANSAS:

29
30
31
32

SECTION 1. Arkansas Code Title 21, Chapter 5, Subchapter 4, is amended to add an additional section to read as follows:

21-5-419. Coverage for diagnosis and treatment of morbid obesity – Legislative findings and intent – Definitions – Rules.

33
34
35
36

(a) The General Assembly finds that:

(1) Morbid obesity causes many medical problems and costly health complications, such as diabetes, hypertension, heart disease, and stroke;

1 (2) The cost of managing the complications of morbid obesity,
2 largely due to inadequate treatment, far outweighs the cost of expeditious
3 and effective medical treatment;

4 (3) The recommended guidelines developed by the National
5 Institutes of Health, the American Society for Metabolic and Bariatric
6 Surgery, the American Obesity Association, and Shape Up America and embraced
7 by the American Medical Association and the American College of Surgeons are
8 that patients who are morbidly obese receive responsible and affordable
9 medical treatment for their obesity;

10 (4) The rate of bariatric surgery use has increased in the past
11 decade to more than one hundred seventy thousand (170,000) surgical
12 procedures per year in the United States;

13 (5) Payers can rely on bariatric surgery paying for itself
14 through decreased comorbidities within two (2) to four (4) years;

15 (6) In 2019, the majority of members who had bariatric surgery
16 under the State and Public School Life and Health Insurance Program had a
17 total per-member per-month cost reduction of thirty-seven percent (37%),
18 primarily due to a reduction of forty-five percent (45%) in medical per-
19 member per-month costs;

20 (7) There is a clinical and financial benefit to reducing the
21 burden of chronic disease through coverage; and

22 (8) The diagnosis and treatment of morbid obesity should be a
23 clinical decision made by a physician based on evidence-based guidelines.

24 (b) It is the intent of the General Assembly to provide coverage for
25 the diagnosis and treatment of morbid obesity.

26 (c) As used in this section:

27 (1) "Body mass index" means body weight in kilograms divided by
28 height in meters squared; and

29 (2) "Morbid obesity":

30 (A) Means a weight that is at least two (2) times the
31 ideal weight for frame, age, height, and sex of an individual as determined
32 by an examining physician; and

33 (B) May be measured as a body mass index:

34 (i) Equal to or greater than thirty-five kilograms
35 per meter squared (35 kg/m²) with comorbidity or coexisting medical
36 conditions such as hypertension, cardiopulmonary conditions, sleep apnea, or

1 diabetes; or

2 (ii) Greater than forty kilograms per meter squared
 3 (40 kg/m²).

4 (d)(1) Each state and public school employee's health benefit plan
 5 under the program that is offered, issued, or renewed on or after January 1,
 6 2023, shall offer coverage for the diagnosis and treatment of morbid obesity.

7 (2) The coverage for the diagnosis and treatment of morbid
 8 obesity offered under subdivision (d)(1) of this section shall include
 9 without limitation coverage for bariatric surgery, including:

10 (A) Gastric bypass surgery;

11 (B) Adjustable gastric banding surgery;

12 (C) Sleeve gastrectomy surgery; and

13 (D) Duodenal switch biliopancreatic diversion.

14 (3)(A) Priority on coverage for the diagnosis and treatment of
 15 morbid obesity offered under subdivision (d)(1) of this section shall be for
 16 participants who have at least one (1) diagnosis that bariatric surgery has
 17 been recognized by medical science to reduce healthcare costs.

18 (B) The diagnosis described in subdivision (d)(3)(A) of
 19 this section shall include without limitation:

20 (i) Cardiovascular disease;

21 (ii) Coronary artery disease;

22 (iii) Diabetes mellitus;

23 (iv) Evidence of fatty liver disease, including
 24 without limitation nonalcoholic fatty liver disease or nonalcoholic
 25 steatohepatitis;

26 (v) Gastroesophageal reflux disease refractory to
 27 medical therapy;

28 (vi) Hyperlipidemia;

29 (vii) Lower extremity lymphatic or venous
 30 obstruction;

31 (viii) Mechanical arthropathy in a weight-bearing
 32 joint or symptomatic degenerative joint disease in a weight-bearing joint;

33 (ix) Obstructive sleep apnea;

34 (x)(a) Poorly controlled hypertension.

35 (b) As used in subdivision (d)(3)(B)(x)(a) of
 36 this section, "poorly controlled hypertension" means a systolic blood

1 pressure of at least one hundred forty millimeters of mercury (140 mmHg) or a
2 diastolic blood pressure of ninety millimeters of mercury (90 mmHg) or
3 greater, despite medical management; or

4 (xi) Pulmonary hypertension.

5 (C)(i) Any additional clinical recommendations for adding
6 or removing diagnoses under subdivision (d)(3)(B) of this section as being
7 recognized by medical science to reduce healthcare costs and that are
8 determined by the Director of the Employee Benefits Division in consultation
9 with the University of Arkansas for Medical Sciences and consistent with
10 guidelines or recommendations issued by the American Society for Metabolic
11 and Bariatric Surgery shall result in the diagnoses' being added or removed.

12 (ii) Additional guidelines or recommendations that
13 may be considered under subdivision (d)(3)(C)(i) of this section include
14 without limitation those issued by:

15 (a) The American Diabetes Association;

16 (b) The American Association of Clinical
17 Endocrinology; and

18 (c) The American Gastroenterological
19 Association.

20 (e) The coverage for morbid obesity diagnosis and treatment offered
21 under this section does not diminish or limit benefits otherwise allowable
22 under the Arkansas State Employees Health Benefit Plan and the Arkansas
23 Public School Employees Health Benefit Plan.

24 (f) To ensure the financial soundness and overall well-being of the
25 program, the State Board of Finance, subject to approval of the Legislative
26 Council, may:

27 (1) Discontinue or suspend a plan option offered under
28 subsection (d) of this section;

29 (2) Promulgate a rule to establish an annual expenditure limit
30 on a plan option offered under subsection (d) of this section; or

31 (3) Promulgate rules to implement this section.

32
33 SECTION 2. EMERGENCY CLAUSE. It is found and determined by the
34 General Assembly of the State of Arkansas that the State and Public School
35 Life and Health Insurance Program is inadequate to provide sustainable
36 affordable health benefits for public school employees and state employees;

1 that an urgent need exists to address the state's funding and administration
2 of benefits for public school employees and state employees in order for the
3 program to remain viable and to avoid severe financial hardship to plan
4 participants; and that this act is immediately necessary to provide
5 affordable health benefit options in a timely manner to the state's public
6 school employees participating in the program and state employees
7 participating in the program. Therefore, an emergency is declared to exist,
8 and this act being immediately necessary for the preservation of the public
9 peace, health, and safety shall become effective on:

10 (1) The date of its approval by the Governor;

11 (2) If the bill is neither approved nor vetoed by the Governor,
12 the expiration of the period of time during which the Governor may veto the
13 bill; or

14 (3) If the bill is vetoed by the Governor and the veto is
15 overridden, the date the last house overrides the veto.
