[HB 2439: school library books; parental review](#)

Sponsor: Representative Pingerelli, LD 21
Committee on Education

Overview

Instructs a school district governing board (governing board) to approve all books in the school's library. Establishes posting and review procedures for books being considered for school libraries.

History

Governing boards must have policies to promote the involvement of parents of children enrolled within the school district. Statute dictates that these policies include procedures by which parents may: 1) learn about the course of study for their children and review learning materials; 2) withdraw their children from an activity or class if they object to any learning material or activity; and 3) learn about parental rights and responsibilities ([A.R.S. § 15-102](#)).

For common schools and high schools, a governing board must approve the basic textbook for each course before implementing the course. If a course does not include a basic textbook, the governing board must approve all supplemental books used in the course. All meetings of committees authorized for the purposes of textbook review and selection or approval must be open to the public. A copy of each textbook must also be made available at the school district office for public review for at least 60 days before the selection or approval of the textbook (A.R.S. §§ [15-721](#), [15-722](#)).
