Fifty-sixth Legislature
Second Regular Session

Senate: ELEC DP 5-3-0-0 | 3rd Read: 17-12-1-0
House: MOE DP 5-4-0-0 | 3rd Read: 31-28-0-0-1

SB1330: on-site ballot tabulation; containers

Sponsor: Senator Mesnard, LD 13

Transmitted to the Governor

Overview

Replaces the term *drop box* with *ballot box* or *container* in specified circumstances.

History

[Laws 2022, Ch. 271, § 4](#) establishes procedures and requirements for the on-site tabulation of voted early ballots. Specifically, an official *drop box* is established for voters who don't provide identification to deposit their voted early ballots in the affidavit envelope. Another clearly labeled *drop box* is established for completed empty affidavit envelopes for electors providing who provide proper identification and opt to have their voted early ballot tabulated on-site at an on-site tabulation location.

The 2023 EPM specifies a ballot drop-off location or *drop-box* must be clearly and visibly marked and in a secure location, such as inside or in front of a federal, state, local, or tribal government building. The County Recorder or officer in charge of elections must publicly post a list of drop-off locations and *drop boxes*. Ballots retrieved from a ballot drop-off location or *drop-box* must be processed in the same manner as ballots-by-mail ([2023 EPM P. 71](#)).

Provisions

1. Replaces the term *drop box* with *ballot box* for voting locations that allow for the on-site tabulation of ballots. (Sec. 1)
2. Changes the term *drop box* to *container* for boxes where empty ballot affidavit envelopes are deposited during the on-site tabulation process. (Sec. 1)
3. Makes a technical change. (Sec. 1)
