The employee or contractor may also assist agricultural producers and businesses in applying for grants from the USDA and other entities. Expenditures include mileage for 2,000 miles per year, as well as standard operating expenses and capital outlay. Personal services costs are adjusted for the General Fund paydate shift.

**Centrally appropriated costs.** Pursuant to a Joint Budget Committee policy, certain costs associated with this bill are addressed through the annual budget process and centrally appropriated in the Long Bill or supplemental appropriations bills, rather than in this bill. These costs, which include employee insurance and supplemental employee retirement payments, are shown in Table 2.

## **Other Budget Impacts**

**General Fund reserve.** Under current law, an amount equal to 15 percent of General Fund appropriations must be set aside in the General Fund statutory reserve beginning in FY 2022-23. Based on this fiscal note, the bill is expected to increase the amount of General Fund held in reserve by the amounts show in Table 1, which will decrease the amount of General Fund available for other purposes.
