is licensed, registered, or certified to practice in another state; there is no other reason to deny the license; and the person consents to be governed by Colorado law. If applying for authority to continue to practice in Colorado, the applicant must notify the agency that the person is practicing in Colorado and include the contact information for the applicant's employer. If the agency denies the application, the agency notifies the employer. The director of the division of registrations may promulgate rules to implement the bill.

The bill also directs agencies to exempt regulated persons who are on active duty for more than 120 days from the requirement to pay certification fees and complete continuing education that became due during the period of active duty, with the exemption continuing for 6 months after the period of active duty. An agency may accept continuing medical education, training, or service from the armed services in satisfaction of Colorado continuing education requirements.

A service member or spouse who is an emergency medical service provider certified or licensed in another state is exempt from certification in Colorado. The term "emergency medical technician" is changed to "emergency medical service provider" to align with the trend in other states.
