**Bill Summary**

*(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/billsummaries>.)*

The bill directs the office of transportation safety to set standards for the motorcycle operator safety training program (program), both for students and instructors. Meeting the standards qualifies a student to get a motorcycle endorsement on the student's driver's license. The office will also establish a system to record program data, including accidents,

injuries, and fatalities.

A person who is eligible for a driver's license with a motorcycle endorsement from another state and is now a Colorado resident will be eligible for the program. The bill repeals a requirement that a program course charge be the same for all students.

The bill prohibits expending program moneys on program vendor operating expenses or motorcycles, helmets, textbooks, and other capital expenses, except for mobile training expenses.

The motorcycle operator safety advisory board (board) is recreated, consisting of 12 members who represent:

- ! The office of transportation safety's director;
- ! The department of revenue's executive director;
- ! The chief of the Colorado state patrol;
- ! For-profit program vendors;
- ! Nonprofit program vendors;
- ! Retail motorcycle dealers;
- ! Third-party testers;
- ! Program instructor training specialists;
- ! The motorcycle riding community;
- ! Motorcycle training providers not affiliated with the program;
- ! Law enforcement agencies; and
- ! Motorcycle insurance providers.

The board's duties are to recommend training methods to increase safety and program effectiveness, recommend improvements to the program and training, and make recommendations on expenditures of motorcycle operator safety training fund moneys. The board meets quarterly.

By September 1 of each year, the department of transportation makes an annual report to the legislative audit committee, house transportation committee, and senate transportation committee. The report must comment on the effectiveness of the program, annual motorcycle deaths, availability of training throughout the state, historic and current training costs, and other performance measures.
