workers' compensation benefits to be made available to an inmate working in a PIECP-certified training, rehabilitation, or work release program. In order to comply with that requirement, the bill clarifies that, for the purposes of state laws concerning workers' compensation, the term "employee" includes an inmate of a city, county, or city and county jail who is working, performing services, or participating in a program that has been certified under the PIECP. Further, for workers' compensation purposes, PIECP-certified programs shall carry workers' compensation insurance, and an inmate working in a PIECP-certified program is an employee of that program.

In order to provide cities, counties, and cities and counties with more insurance options for PIECP-certified programs, current law is amended to allow public entities to select more than one method of workers' compensation insurance.

The bill also clarifies that workers' compensation benefits to which an inmate is entitled as a result of working in such a program shall not be suspended for the period of time during which the inmate is incarcerated.
