1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares:

4 (a) Historically, there are over one hundred thousand suspected
5 child abuse and neglect referrals to child welfare in Colorado each year,
6 and, of those referrals, approximately one-third are screened in for an
7 assessment;

8 (b) It is estimated that forty percent of the screened-in referrals
9 involve suspected child abuse and neglect of children under the age of
10 five, and twenty percent involve sexual abuse;

11 (c) However, expertise to conduct medical exams to evaluate
12 suspected child abuse and neglect and to conduct behavioral health
13 assessments is extremely limited. There are only **seven** board-certified
14 specialists in the field of child abuse pediatrics in Colorado, five of whom
15 are located in **Denver**, one of whom is located in **Colorado Springs**, and
16 **one of whom is located in Fort Morgan.**

17 (d) Distances limit access to expert evaluations in most of the
18 state's sixty-four counties, resulting in a serious problem with a lack of
19 providers willing and able to conduct medical exams for suspected
20 physical or sexual abuse or neglect and to conduct behavioral health
21 assessments;

22 (e) All children at risk of child abuse and neglect deserve access
23 to appropriate medical and behavioral health assessments;

24 (f) Engaging health care professionals and behavioral health

1 providers in the protection of children experiencing maltreatment will
2 expand the safety net for children with the goal of reducing severe child
3 maltreatment and fatalities; and

4 (g) Educating and training health care and behavioral health
5 providers about signs that children may be at risk of maltreatment and
6 about resources available to families will position the providers to
7 recognize community-specific needs and help prevent child maltreatment.
