annually review the performance of each school district, the state charter school institute (institute), and each public school and assign an accreditation rating to the school district or the institute and recommend a type of performance plan for each public school based on statutory criteria and rules adopted by the state board of education (state board). For the 2015-16 school year, the bill authorizes the department to assign the accreditation ratings and recommend types of performance plans based on the school district's, institute's, or public school's:

- ! Accreditation rating or type of performance plan for the preceding school year;
- ! Compliance with the accreditation contract, for a school district or the institute;
- ! Participation in statewide testing; and
- ! Performance in meeting the Colorado academic standards and postsecondary and workforce readiness and statewide and local performance targets.

Under existing law, if a public school is required to implement a priority improvement plan or turnaround plan for 5 consecutive school years, the state board must recommend that the public school's school district or the institute take one of several actions specified in statute with regard to the public school. For the 2015-16 school year and based on ratings given during the 2015-16 school year, the bill authorizes the state board to recommend an action that is not specified in statute but that has comparable significance and effect.

1 *Be it enacted by the General Assembly of the State of Colorado:*
