assembly established the public safety communications trust fund (trust fund) for the acquisition and maintenance of public safety communications systems, including the digital trunked radio system.

In each fiscal year beginning with the 2013-14 fiscal year through the 2024-25 fiscal year, the bill directs the general assembly to appropriate a total of \$3.5 million from the general fund and from the highway users tax fund (HUTF) to the trust fund. The moneys appropriated to the trust fund shall be used for the replacement of legacy radio equipment and hardware at radio tower sites.

In addition, in each fiscal year beginning with the 2017-18 fiscal year through the 2024-25 fiscal year, the bill directs the general assembly to transfer a total of \$3.7 million from the general fund and from the HUTF to the trust fund. The moneys appropriated to the trust fund shall be used for software upgrade assurance.

The bill requires the general assembly to determine the amount that will be appropriated from the general fund and from the HUTF for each purpose in each fiscal year. The bill also authorizes the general assembly to appropriate moneys from the HUTF to the trust fund for use by the state patrol to maintain infrastructure on the digital trunked radio system, including the replacement of legacy radio equipment and hardware at radio tower sites and software upgrade assurance.
