to contain an appraisal clause that allows the state to secure an appraisal of the subject real property or interest therein by an appraiser licensed in the state to substantiate the purchase price and that makes the purchase contingent on the approval of the contract by the state controller.

The bill then specifies that when the state department, institution, or agency entering into the contract receives the appraisal and the contract is finalized, the state department, institution, or agency is required to provide a copy of the final purchase contract to the controller for approval.

If a state department, institution, or agency enters into an option to purchase real property, the same appraisal contingency must occur when the state department, institution, or agency chooses to exercise its option to purchase and enters into a contract to purchase such real property or interest therein.

The bill also requires a state department, institution, or agency to obtain a written broker opinion of value on the subject property in order to complete a thorough analysis of the property or interests therein being considered. The bill requires the broker opinion of value to be completed by a broker licensed in the state of Colorado and be forwarded to the controller prior to the controller approving the option to purchase contract.
