- ! Makes terminology used in the Colorado law consistent with that used by the national association of insurance commissioners by changing the term "excess loss" to "stop-loss"; and
- ! Sets requirements for the issuance of stop-loss health insurance, including a minimum dollar amount for the attachment point and a prohibition against attachment points that vary by individual within a group for claims incurred per individual.

For calendar years 2013 through 2018, requires insurers issuing excess or stop-loss health insurance policies to file specified information with the commissioner on those policies.
