HOUSE
Amended 2nd Reading
April 14, 2022

The bill creates 2 state grant programs:

- The local investments in transformational affordable housing grant program (affordable housing grant program), administered by the division of housing (DOH) in the department of local affairs (department); and
- The infrastructure and strong communities grant program (strong communities grant program), administered by the division of local government (DLG) in the department.

The affordable housing grant program provides grants to local governments and nonprofit organizations to enable such entities to make investments in their communities or regions of the state in transformational affordable housing and housing related matters. The strong communities grant program provides grants to eligible local governments to enable local governments to invest in infill infrastructure projects that support affordable housing.

The strong communities grant program portion of the bill requires a multi-agency group, comprised of DLG, the state energy office, and the department of transportation, with the assistance of stakeholders, to develop a list of sustainable land use best practices that will accomplish the goals of the grant program and improve a local government's viability in being considered for a grant award.

The bill requires both DOH and DLG to develop policies, procedures, and guidelines governing the administration of the respective grant programs. The bill specifies how grant funding is to be prioritized and eligible uses of grant money awarded under the grant programs.

The bill creates 2 funds in the state treasury: The local investments in transformational affordable housing fund and the infrastructure and strong communities grant program fund. The bill specifies requirements pertaining to the administration of these funds.

Both funds are initially supported with a transfer of a specified amount of money from different funds.

Both grant programs are subject to reporting requirements specified in the bill, and both grant programs are repealed by a date specified in the bill.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration - intent - definitions.**

3 (1) The general assembly hereby finds, determines, and declares that:

4 (a) Though it has been exacerbated by the COVID-19 pandemic,

1 the housing crisis that Colorado faces is not new. For decades, the lack of
2 affordable housing has upended the lives of thousands who face
3 homelessness in the Denver metropolitan area and across the state,
4 shuttered Colorado businesses, hindered working-class employment
5 because of a lack of workforce housing, and exacerbated inequities for
6 communities of color.

7 (b) Currently, Colorado has a shortage of nearly 121,000
8 affordable rental units, and the Colorado housing and finance authority
9 reports that nearly half of all Colorado renters are considered cost
10 burdened, with an additional 24% being severely cost burdened. The
11 average home price in the state increased 130% from 2011 to 2021.
12 Statewide, the median price increased an additional 7% from January to
13 February 2022 and the median price is now \$555,540, a 90% increase
14 over March 2021. The town home and condominium market also reached
15 a new pricing level in February 2022 and now stands at \$402,390, which
16 is an increase of 17% from February 2021. Six out of ten Colorado
17 households are unable to afford the average priced home. As used in this
18 section, "cost-burdened" means that more than 30% percent of a
19 household's monthly income is expended on housing and "severely
20 cost-burdened means" that more than 50% of a household's monthly
21 income is expended on housing.

22 (c) On March 11, 2021, the federal government enacted the
23 "American Rescue Plan Act of 2021", Pub.L. 117-2, referred to in this
24 section as "ARPA", pursuant to which Colorado has received
25 \$3,828,761,790 from the federal coronavirus state fiscal recovery fund,
26 referred to in this section as the "SFRF", to be used for certain specified
27 purposes;

1 (d) These specified purposes include providing programs,
2 services, or other assistance for populations disproportionately impacted
3 by the COVID-19 pandemic;

4 (e) More specifically, federal regulations and guidance construing
5 dictating allocation of the SFRF promulgated by the United States
6 treasury identify a nonexclusive list of uses that address the
7 disproportionate negative economic effects of the COVID-19 pandemic,
8 including building stronger communities through investments in housing
9 and neighborhoods. Services in this category alleviate the immediate
10 economic impact of the COVID-19 pandemic on housing insecurity while
11 addressing conditions that contributed to poor public health and economic
12 outcomes during the pandemic, namely concentrated areas with limited
13 economic opportunity and inadequate or poor quality housing.

14 (f) Under these regulations, SFRF money may be used for
15 programs or services that address housing insecurity, lack of affordable
16 and workforce housing, or homelessness, including:

17 (I) Supportive housing or other programs or services to improve
18 access to stable, affordable housing among unhoused individuals;

19 (II) The development of affordable housing to increase the supply
20 of affordable housing units that are livable, vibrant, and driven by
21 community benefits; and

22 (III) Housing vouchers and assistance to allow individuals to
23 relocate in neighborhoods with high levels of economic opportunity and
24 to reduce concentrated areas of low economic opportunity;

25 (g) In addition to enumerated uses, the SFRF regulations allow for
26 funds categorized as revenue replacement to be used for government
27 services;

1 (h) In House Bill 21-1329, enacted in 2021, the general assembly
2 created the affordable housing task force, referred to in this section as the
3 "task force", to develop recommendations to take advantage of this
4 once-in-a-lifetime spending opportunity presented by ARPA to bring
5 transformative policies to Colorado's housing sector that will provide
6 immediate, sweeping, and long-lasting change. ARPA provided the
7 impetus to bring together the legislative and executive branches of state
8 government, as well as a diverse group of stakeholders made up of
9 affordable housing practitioners and experts, to tackle the affordable
10 housing crisis and determine which investments would make the biggest
11 impact. The 16-member task force was made up of a bipartisan group of
12 ten members of the general assembly and six agency directors. A
13 15-member subpanel of diverse affordable housing experts was also
14 appointed to advise the task force. The task force and subpanel undertook
15 a deliberative, iterative, and transparent process. Ultimately, the task force
16 came to near unanimous consensus on its funding recommendations and
17 allocations, as well as broad agreement on several policy concepts.

18 (i) The recommendations of the task force are intended to take
19 advantage of this once-in-a-lifetime funding opportunity, specifically, a
20 one-time investment of \$400 million, to institute transformational housing
21 policies and programs that will allow the state to better meet the challenge
22 of providing affordable housing, from addressing homelessness to
23 supporting housing for Colorado's workforce; and

24 (j) The recommendations made by the task force will not solve
25 Colorado's affordable housing crisis completely but will be a
26 transformational step forward in achieving that objective. Once
27 implemented at the local level across the state, these policies will make

1 significant strides in increasing access to flexible capital sources,
2 fostering innovation, strengthening the social safety net, enhancing
3 market stability, and ultimately promoting more broad and equitable
4 ownership and rental housing for Coloradans in every corner of the state.
5 These investments will result in more affordable housing being built
6 across the state and will help to maintain existing housing stock that is at
7 risk of becoming unsafe or unaffordable. The recommendations will help
8 reduce disparities and address homelessness and will assist many
9 Coloradans in purchasing homes that were previously out of financial
10 reach, which will help build intergenerational wealth across the state.

11 (2) The general assembly further finds, determines, and declares
12 that the programs and services funded by the transfers in this act are
13 appropriate uses of the money transferred to Colorado under the SFRF
14 and subsequently transferred into the affordable housing and home
15 ownership cash fund created in section 24-75-229 (3)(a), C.R.S. This
16 money will be put to expeditious and efficient use in building stronger
17 communities across the state by making grants to community partners and
18 local governments across the state to assist these entities in making
19 investments in housing for populations, households, or geographic areas
20 disproportionately affected by the COVID-19 pandemic.

21 (3) By this act, the general assembly is focusing a portion of the
22 SFRF money that it has received from the federal government to begin to
23 ameliorate the affordable housing crisis in Colorado by creating and
24 administering a program to provide direct, flexible, and timely grant
25 funding to community-based nonprofit organizations and local
26 governments that have or are pursuing measures to facilitate affordable
27 housing development or the purchase of land or buildings for and the

1 development of supportive, rental, transitional, and for-sale housing
2 targeted at populations and communities disproportionately impacted by
3 the COVID-19 pandemic.

4 (4) The general assembly intends that the grants made under this
5 act will be made to community-based and nonprofit organizations for
6 housing navigation and rehousing support, timely deployment of
7 assistance, and technical and legal assistance. The general assembly
8 intends that funds should be made available to local and regional groups
9 and governments to be used for a variety of needs as specified in this act.

10 (5) The general assembly additionally intends that the grant
11 program ensure flexibility of funding that will allow for operating grants
12 to be made to community-based nonprofit organizations and qualified
13 local governments, particularly in small, rural, and mountain resort
14 communities that can best meet their own development needs.

15 (6) The potential uses of SFRF money directed by this act are in
16 alignment with the priority articulated by the governor and legislators
17 representing both major political parties of investing in strong
18 communities. Such potential uses include funding for local infill
19 infrastructure needs to help support and catalyze affordable housing
20 development and further Colorado's sustainable development patterns,
21 provide community benefits, ensure multimodal connectivity, reduce
22 greenhouse gas emissions, strengthen social and environmental equity,
23 and improve quality of life and community resilience.

24 (7) The general assembly further intends that the structure of
25 funding criteria for the grant program created by this act encourage the
26 use of public policies that allow for the development of affordable
27 housing on a local basis congruent with local needs and conditions. To

1 achieve the greatest transformation possible, funding criteria should also
2 aim to support and promote the leveraging of local funding resources.
3 When appropriate, such funds should be aligned with loan funds from
4 other public and private sources and priority should be given to projects
5 that significantly leverage other funding sources. As part of the assistance
6 provided by this act, the general assembly intends that additional funds be
7 directed to eviction legal defense, given the ongoing challenges of
8 evictions caused by the COVID-19 pandemic.

9 (8) The general assembly further declares that the programs and
10 services described in this act are important government services.
