- may claim in a tax year;
- ! Expands the income tax credit for the purchase or conversion of a truck equipped to operate on compressed natural gas and liquefied petroleum gas to include liquefied natural gas and hydrogen and also allows the credit for heavy duty trucks;
- ! Allows an income tax credit for the purchase of devices on the United States environmental protection agency's smartway verified technology list that minimizes drag and improves air flow over a truck and trailer;
- ! Allows an income tax credit for the purchase of clean fuel refrigerated trailers; and
- ! Makes the availability of certain of the tax credits dependent on a determination by the Colorado energy office of whether any category 4, 4 A, 4 B, 4 C, 7, or 7 A medium or heavy duty trucks are actually reducing emissions over a life-cycle period as compared to the emissions of similar trucks using traditional fuel.

The applicability of the current sales and use tax exemption for motor vehicles, power source for any motor vehicle, or parts used for converting the power source for any motor vehicle is limited, as of July 1, 2014, to those motor vehicles with gross vehicle weight ratings greater than:

- ! 26,000 pounds if the motor vehicle, power source for the motor vehicle, or parts used for converting the power source for the motor vehicle are certified by the United States environmental protection agency and the national highway traffic safety administration as provided in the federal heavy-duty program that includes new greenhouse gas emissions standards and new fuel efficiency standards; or
- ! 10,000 pounds if the motor vehicle, power source for the motor vehicle, or parts used for converting the power source for the motor vehicle meets the definitions of category 4, 4 A, 4 B, 4 C, 7, and 7 B trucks.

The taxable value of category 4, 4 A, 4 B, 4 C, 7, and 7 B trucks is reduced to 75% of the actual purchase price of those trucks for purposes of calculating the specific ownership tax.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
 3 hereby finds and declares that:

1 (a) A diverse range of stakeholders within the state, both public
2 and private, recognize the important health, environmental, and market
3 benefits of motor vehicles powered by alternative fuels, as recognized in
4 the state's multi-state Natural Gas Vehicles Memorandum of
5 Understanding of 2011, the Colorado Electric Vehicle and Infrastructure
6 Readiness Plan of 2012, and the state's Natural Gas Fueled Fleet Vehicles
7 Memorandum of Understanding of 2013;

8 (b) Income tax credits are an important incentive for taxpayers
9 looking to purchase alternative fuel vehicles and accelerate the entry of
10 such vehicles into the Colorado market;

11 (c) The current income tax credit for alternative fuel vehicles does
12 not adequately address heavy duty alternative fuel vehicles even though
13 the benefits of their emission reductions and energy security are reported
14 to be significant, and as such, these vehicles and their associated clean
15 fuel refrigerated trailers should be included in the tax credit; and

16 (d) Given the higher up-front cost of medium and heavy duty
17 alternative fuel vehicles compared with their traditional fuel counterparts,
18 the specific ownership tax is greater and creates a disincentive for the
19 purchase of such vehicles. It is therefore necessary to establish a method
20 to tax alternative fuel vehicles at a comparable rate to traditional fuel
21 vehicles.

22 **SECTION 2.** In Colorado Revised Statutes, **add** 39-22-516.8 as
23 follows:

24 **39-22-516.8. Tax credit for innovative trucks - definitions -**
