Capital Development Committee. Section 1 makes a legislative declaration.

Section 2 makes changes to the definitions used in the department of personnel's state buildings statutes. These definitions are then used throughout the statutes, including in the capital development committee's statutes, the office of state planning and budgeting's statutes, and the Colorado commission on higher education's statutes. The definitions are updated to include items considered capital construction, capital renewal, and controlled maintenance in current practice. Current capital construction definitions rely on the term "facility" to describe activities that fall under the terms "capital construction", "capital renewal", and "controlled maintenance". The bill changes "facility" to the more accurate term "real property" and makes applicable conforming amendments. Current law combines state institutions of higher education and state agencies together as a "state agency", but some tasks specified for state agencies are not applicable to state institutions of higher education, and vice versa. The bill separates state institutions of higher education from state agencies.

Section 3 makes conforming amendments to the department of personnel's responsibilities related to the definition changes and updates those responsibilities to more clearly reflect current practice.

Section 4 makes conforming amendments to the requirement that the department of personnel prepare and maintain inventories of state property. Most particularly, section 4 removes the responsibility from the department of personnel to establish a separate inventory of computer equipment and all other capital assets valued in excess of \$100,000 as this responsibility was never fulfilled by the department.

Section 5 makes conforming amendments and changes to reflect current practice to provisions related to the eligibility for state-controlled maintenance funding. Items in the definition of "controlled maintenance" and in other provisions of law are relocated for ease of access and clarity.

Section 6 makes conforming amendments to the legislative declaration for the life-cycle cost analysis prepared by the department of personnel.

Sections 7 and 8 make conforming amendments to the life-cycle cost analysis requirements for the department of personnel. Other changes in section 7 reorganize current law, including relocation of some provisions to reflect that life-cycle analysis is a different concept from high performance standards certification.

Section 9 makes conforming amendments to the legislative declaration in the state buildings statute.

Sections 10 and 11 repeal provisions that are relocated within the bill.

Sections 12 through 18 make conforming amendments to the capital development committee's enacting statutes. Most specifically,

these sections:

- ! Add cross references to the new definitions;
- ! Make conforming amendments necessary to reflect the new definitions;
- ! Clarify the capital development committee's duty to forecast the states's need for capital construction, capital renewal, and controlled maintenance, as well as to forecast the projected available revenue to meet such needs for the state. The bill changes the time to be analyzed in the forecast for projected available revenue.
- ! Clarify that it is the capital development committee's responsibility to review all acquisitions of real property by a state agency or state institution of higher education;
- ! Repeal obsolete provisions; and
- ! Eliminate the automatic repeal of the capital development committee.

Sections 19 through 28 make the necessary changes to statute to allow qualified state institutions of higher education with a building department that meets or exceeds minimum standards adopted by the state electrical board and the state plumbing board to continue performing their own permitting and inspections for electrical and plumbing work related to their own construction or remodeling projects.

Section 29 makes conforming amendments to the capital construction definition used in the "Building Excellent Schools Today Act".

Section 30 amends the "Building Excellent Schools Today Act" to allow an applicant school district that is approved for an award of financial assistance as an alternate award recipient and that successfully raises required matching moneys through voter-approval of a ballot question for contracting bonded indebtedness but that does not actually receive financial assistance because all primary award recipients or higher priority alternate award recipients also successfully raised required matching moneys to resubmit its application for financial assistance as previously approved during the next application cycle.

Section 31 makes conforming changes to the section that describes the duties and powers of the Colorado commission on higher education with respect to capital construction and long-range planning.

Section 32 clarifies that the governor's approval of the expenditure of money from funds derived from the sale of lands donated by an 1862 act of congress is not reliant on requirements specified in the capital construction fund statutes.

Section 33 makes conforming amendments to provisions describing the need for long-range planning for capital construction, controlled maintenance, and capital renewal by the heads of principal departments.

Section 34 makes conforming amendments to definitions related to the negotiation of professional services' contracts.

Section 35 makes conforming amendments and specifies that the requirement to conduct discussions with no less than 3 persons regarding the professional services such persons would provide applies only where the fee for such professional services is estimated to equal or exceed \$25,000.

Section 36 makes conforming amendments to provisions addressing the requirements for contracts for professional services.

Section 37 changes requirements that notice be given in a newspaper of general circulation when a state agency is seeking to contract for the professional services to allow the notice to be given either electronically or by newspaper.

Sections 38 and 39 make conforming amendments to the criminal liability provisions addressing contracts for professional services.

Section 40 changes the definitions applicable to provisions delineating the office of state planning and budgeting's responsibilities.

Section 41 changes the deadlines for the capital budget submissions by the office of state planning and budgeting to the capital development committee.

Section 42 requires the office of information technology to establish, maintain, and keep a separate inventory of information technology equipment valued in excess of \$100,000 owned by or held in trust for every state agency.

Section 43 makes conforming amendments and changes to the provisions governing art in public places to clarify that the 1% requirement is calculated based on total construction costs, rather than the total project costs, appropriated in each year. Section 32 also explicitly allows an appropriation for professional services to include planning for the acquisition of public art.

Section 44 makes a conforming amendment to the definition of "capital outlay" related to the new capital construction, capital renewal, and controlled maintenance definitions in section 2 of the bill.

Section 45 makes a conforming amendment to provisions restricting state appropriations related to the new capital construction definition in section 2 of the bill.

Sections 46 through 51 make conforming amendments, make technical changes, and remove obsolete provisions related to the capital construction fund.

Section 52 modifies provisions related to the capitol complex master plan to clarify that statutory references to any other buildings, facilities, and surface parking lots acquired after May 28, 2013, refers to such buildings, facilities, and surface parking lots belonging to the capitol complex.

Section 53 makes conforming amendments and technical changes

to provisions authorizing the executive director of the department of personnel, with the approval of the governor, to rent or lease real property not presently needed for state use.

Sections 54 through 59 make conforming amendments to requirements related to construction contracts with public entities, construction bidding for public projects, and construction contracts related to the new capital construction, capital renewal, and controlled maintenance definitions in section 2 of the bill.

Section 60 makes conforming amendments to the source selection and contract formations portion of the "Procurement Code" related to the new state agency and state institution of higher education definitions in section 2 of the bill.

Section 61 changes the threshold for when bonds and security must be delivered to the state when a construction contract is awarded from \$100,000 to \$150,000.

Section 62 changes the threshold for when a contractor bond is necessary for public works projects from \$100,000 to \$150,000.

Section 63 changes the threshold for when notice of final settlement must be published for public works contracts from contracts exceeding \$50,000 to contracts exceeding \$150,000.

Section 64 makes conforming and technical amendments to the department of transportation's requirements to request funding for state highway reconstruction, repair, or maintenance projects to the capital development committee.

Section 65 repeals statutory sections that were relocated and repeals the code appeals board statute, which board was never established due to lack of funding. Code compliance for state buildings is coordinated by the office of the state architect in the department of personnel.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds and declares that:

4 (a) The capital-related statutes have not been amended as a whole
5 since they were established in 1979;

6 (b) Piecemeal amendments of the capital-related statutes have
7 created inconsistencies in practice;

8 (c) There are overlapping responsibilities in the capital statutes
9 among the department of personnel, the capital development committee,

1 the joint budget committee, the office of state planning and budgeting,
2 and the Colorado commission on higher education so that the statutes
3 need to be harmonized to make them more accessible, organized, and
4 clear;

5 (d) The capital development committee's review of capital-related
6 projects need to be updated to conform to current practice;

7 (e) The department of personnel's capital-related statutes,
8 including statutes related to overseeing approved projects, need to be
9 updated to conform to current practice;

10 (f) The definitions of critical words in the capital-related statutes
11 need to be modernized to reflect the current practice;

12 (g) Specific laws need to be rearranged in order for the capital
13 process to be more accessible, organized, and clear;

14 (h) The deadlines for the submission of capital budget requests
15 from the office of state planning and budgeting to the capital development
16 committee need to be modified; and

17 (i) Current practice shows that the thresholds governing the
18 procurement of various services associated with capital projects are too
19 low and need to be modified.

20 (2) The general assembly further finds and declares that the
21 capital development committee approved, by letter dated March 6, 2014,
22 that the department of public safety purchase an existing lab facility in
23 lieu of renovating capitol complex leased space for use as additional
24 testing labs to comply with House Bill 13-1020 for the Colorado bureau
25 of investigation in Denver. The capital development committee found that
26 this option would ensure there is sufficient space to meet the need for
27 additional DNA lab setups to comply with House Bill 13-1020 and to

1 accommodate the future forensic needs of the department. The capital
2 development committee also found that this will allow the department of
3 public safety to relocate other work units within the department from
4 commercial leased space in Denver to the capitol complex buildings,
5 resulting in lease savings. The joint budget committee and the general
6 assembly supported the capital development committee's findings by
7 appropriating \$7.2 million to the department of public safety for the
8 purchase of the building, some minor renovations, and the purchase of
9 needed equipment in House Bill 14-1336. It is thus appropriate to grant
10 the department of public safety the authority to purchase the building as
11 approved by the general assembly.

12 **SECTION 2. Department of public safety authority to acquire**
13 **real property.** (1) The state of Colorado, acting by and through the
14 department of public safety, is authorized to purchase real property
15 located in Jefferson county in the Marshall Office Park 2 in the city of
16 Arvada, the legal description of which is Lot 1 B Sigman Industrial Park
17 Minor Subdivision 2nd amendment, Jefferson county, for the Colorado
18 bureau of investigation's regional Denver forensic laboratory.

19 (2) The department of public safety must seek approval prior to
20 closing from the office of state planning and budgeting and the capital
21 development committee for any material changes to the plan that may
22 become necessary during the negotiation.

23 (3) Any renovation of the real property must be completed by
24 following the requirements set forth in articles 91 to 93 of title 24,
25 Colorado Revised Statutes.

26 (4) The real property may not be subject to any restrictive
27 covenants, contracts, or zoning requirements that restrict public access to

1 the property or restrict any alternative state use of the property.

2 (5) The state controller may not enter into any agreement for a
3 payment in lieu of property taxes from which the state is statutorily
4 exempt under section 39-3-124 (1), Colorado Revised Statutes.

5 (6) The state controller must approve all agreements relating to
6 the purchase of the real property prior to closing.

7 (7) Any title to real property received by the department of public
8 safety will be held by the state for the benefit and use of the Colorado
9 bureau of investigation.

10 **SECTION 3.** In Colorado Revised Statutes, **amend** 24-30-1301
