determined that there was ambiguity regarding the timing of the required calculations for capital construction appropriations made from the general fund, the capital construction fund, or the controlled maintenance trust fund. The bill clarifies that the depreciation calculations are to be made from the date of acquisition or the date of completion of the repair, improvement, replacement, renovation, or construction to June 30 of the fiscal year of acquisition or completion. The bill then specifies that the amount continues to be annually calculated on a fiscal year basis until the depreciation for the capital asset is no longer recorded. The bill also clarifies responsibilities of the state institutions of higher education and the department of higher education.
