promulgation of the rule; and

- ! The state provides the funding necessary for the direct costs incurred by the local government in complying with the state mandate.

For each proposed rule that includes a state mandate, prior to filing a notice of proposed rule-making with the secretary of state, an agency is required to provide information to the director of the office of state planning and budgeting relating to the rule and contact with local governments. The agency is prohibited from conducting a public hearing on the proposed rule unless it receives a written notice that the information complies with the law. The agency must include the information and the director's notice in the agency rule-making record and provide copies of them to the executive committee of the legislative council.

An agency is also required to develop a process to actively solicit the input of elected officials and other representatives of local governments into the development of proposed rules affecting a local government.

The bill permits an agency to adopt a temporary or emergency rule without complying with these new requirements, but such compliance is required in order for the rule to become permanent.

Be it enacted by the General Assembly of the State of Colorado:
