and the department of public safety. The working group shall consult with stakeholders either identified by the working group or who request to participate.

The bill requires the working group to study metrics and methods, other than measuring recidivism, to:

- Supplement the current measure of recidivism;
- Measure risk-reduction outcomes;
- Comprehensively measure successful outcomes that consider various aspects of life, including employment, housing, education, mental health, personal well-being, social supports, and civic and community engagement; and
- More effectively measure criminal justice system performance.

The working group is required to submit a report to the house of representatives health and insurance committee and judiciary committee and the senate health and human services committee and judiciary committee on or before July 1, 2025, that includes a summary of the group's work and any recommendations of the group.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 finds and declares that:

4 (a) Emerging research indicates that reliance on recidivism rates
5 as the only measure of desistance from criminal behavior does not capture
6 other important markers of successful reintegration into society; and

7 (b) A 2022 consensus study report of the National Academies of
8 Sciences, Engineering, and Medicine, "The Limits of Recidivism",
9 recommends that efforts to evaluate success within the criminal legal
10 system should: Shift away from exclusive reliance on measuring
11 recidivism, which it describes as an imprecise proxy at best for measuring
12 return to criminal behavior; clarify the limitations of certain measures of
13 recidivism; draw more heavily on desistance as a measure of post-release
14 outcomes in the criminal legal system; and expand the measurement of
15 success to include well-being in a broad range of life domains.

1 (2) Therefore, expanding the scope of metrics used by the criminal
2 legal system is necessary to more comprehensively assess supervision
3 outcomes, criminal desistance, system performance, and client experience
4 while under criminal justice supervision.

5 **SECTION 2.** In Colorado Revised Statutes, **add** 24-33.5-535 as
6 follows:
