12 (3) (a) Except as provided in paragraph (b) of this subsection (3),
13 it is the intent of the general assembly that the operational ~~account~~ FUND
14 maintain a reserve equal to the current state fiscal year's operating
15 appropriations for the programs specified in subsection (1) of this section
16 plus fifteen percent of the current fiscal year's transfers specified in
17 subsection (2) of this section. Moneys may be transferred from the
18 reserve to offset temporary revenue reductions in the programs specified
19 in subsection (1) of this section and to offset reductions for programs
20 specified in subsection (2) of this section, up to fifteen percent of the
21 current fiscal year's transfers specified in subsection (2) of this section;
22 except that, if the general assembly determines that transfers of moneys
23 from the reserve are needed during a state revenue crisis, the transfers
24 shall be a loan from the reserve to be repaid as soon as moneys are
25 available. This provision is intended to mitigate the impact of fluctuations
26 in the amount of revenue credited to the fund from year to year so as to
27 maintain current levels of service for the programs specified in subsection

1 (1) of this section.

2 (4) (b) (I) If the revenue estimate prepared by the staff of the
3 legislative council in June of any fiscal year indicates that the amount of
4 severance tax revenues to be credited to the operational ~~account~~ FUND in
5 the next fiscal year as specified in section 39-29-109 (2) (b) is insufficient
6 for the state treasurer to make the transfers set forth in subsection (2) of
7 this section and to meet the reserve requirement specified in subsection
8 (3) of this section, all transfers scheduled to be made on July 1 shall be
9 proportionally reduced. The July 1 proportional reduction shall be
10 calculated based on the size of the annual transfers as specified in
11 subsection (2) of this section and shall be made to the extent necessary to
12 cover forty percent of the projected shortfall between total moneys
13 available in the operational ~~account~~ FUND and the sum of the total
14 operating appropriations for the programs specified in subsection (1) of
15 this section, the total fiscal year's transfers specified in subsection (2) of
16 this section, and the reserve requirement specified in subsection (3) of
17 this section; except that up to one-third of the fifteen percent of the
18 current fiscal year's transfers specified as part of the reserve set forth in
19 subsection (3) of this section shall be used to offset any proportional
20 reduction required by this subparagraph (I) in any fiscal year.

21 (II) If the revenue estimate prepared by the staff of the legislative
22 council in December of any fiscal year indicates that the amount of
23 severance tax revenues credited to the operational ~~account~~ FUND as
24 specified in section 39-29-109 (2) (b) is insufficient for the state treasurer
25 to make the transfers set forth in subsection (2) of this section and to meet
26 the reserve requirement specified in subsection (3) of this section, all
27 transfers scheduled to be made on January 4 of the fiscal year shall be

1 proportionally reduced. The January 4 proportional reduction shall be
2 calculated based on the size of the annual transfers as specified in
3 subsection (2) of this section and shall be made to the extent necessary to
4 cover seventy percent of the projected shortfall between total moneys
5 available in the operational ~~account~~ FUND and the sum of the total
6 operating appropriations for the programs specified in subsection (1) of
7 this section, the total fiscal year's transfers specified in subsection (2) of
8 this section, and the reserve requirement specified in subsection (3) of
9 this section; except that up to one-third of the fifteen percent of the
10 current fiscal year's transfers specified as part of the reserve set forth in
11 subsection (3) of this section shall be used to offset any proportional
12 reduction required by this subparagraph (II) in any fiscal year.

13 (III) If the revenue estimate prepared by the staff of the legislative
14 council in March of any fiscal year indicates that the amount of severance
15 tax revenues credited to the operational ~~account~~ FUND as specified in
16 section 39-29-109 (2) (b) is insufficient for the state treasurer to make the
17 transfers set forth in subsection (2) of this section and to meet the reserve
18 requirement specified in subsection (3) of this section, all transfers
19 scheduled to be made on April 1 of the fiscal year shall be proportionally
20 reduced. The April 1 proportional reduction shall be calculated based on
21 the size of the annual transfers as specified in subsection (2) of this
22 section and shall be made to the extent necessary to cover the projected
23 shortfall between total moneys available in the operational ~~account~~ FUND
24 and the sum of the total operating appropriations for the programs
25 specified in subsection (1) of this section, the total fiscal year's transfers
26 specified in subsection (2) of this section, and the reserve requirement
27 specified in subsection (3) of this section; except that any moneys

1 remaining of the fifteen percent of the current fiscal year's transfers
2 specified as part of the reserve set forth in subsection (3) of this section
3 shall be used to offset any proportional reduction required by this
4 subparagraph (III) in any fiscal year.

5 (IV) If proportional reductions are made to either the July 1 or
6 January 4 installments, the April 1 installment may be increased to offset
7 proportional reductions made earlier in the current fiscal year to the
8 maximum extent allowable under the revenue estimate prepared by the
9 staff of the legislative council in March of any fiscal year. The April 1
10 installment shall only be increased if the revenue estimate indicates that
11 the amount of severance tax revenues credited to the operational ~~account~~
12 FUND as specified in section 39-29-109 (2) (b) is sufficient to fund ~~such~~
13 THE increased installments and still meet the reserve requirement
14 specified in subsection (3) of this section.

15 (5) In addition to the distributions specified in paragraph (a) of
16 subsection (4) of this section, if there were any proportional reductions
17 required in a fiscal year as specified in paragraph (b) of said subsection
18 (4), after the reserve specified in subsection (3) of this section is made
19 whole if any portion of the reserve was used as specified in paragraph (b)
20 of subsection (4) of this section to offset any proportional reduction
21 required by said paragraph (b) of subsection (4), the state treasurer shall
22 make proportional distributions on August 20 of the following fiscal year
23 to the programs specified in subsection (2) of this section if the revenues
24 actually received in the operational ~~account of the severance tax trust~~
25 fund for the previous fiscal year were sufficient for the state treasurer to
26 more fully make the transfers set forth in subsection (2) of this section
27 and to fully meet the reserve requirement specified in subsection (3) of

1 this section.

2 (6) (a) ~~Notwithstanding any provision of this section to the~~
3 ~~contrary, on April 15, 2010, the state treasurer shall deduct eleven million~~
4 ~~dollars from the operational account and transfer such sum to the general~~
5 ~~fund.~~

6 (b) ~~Notwithstanding any provision of this section to the contrary,~~
7 ~~on June 30, 2012, the state treasurer shall deduct three million nine~~
8 ~~hundred fifty thousand dollars from the operational account and transfer~~
9 ~~such sum to the general fund.~~

10 **SECTION 27. Safety clause.** The general assembly hereby finds,
11 determines, and declares that this act is necessary for the immediate
12 preservation of the public peace, health, and safety.
