Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/billsummaries>.)

Existing law regulates the practice of certain health care professions, including the practice of medicine. These laws prohibit unlicensed persons from engaging in certain activities constituting, among other practice areas, the practice of medicine. Current law does not specifically address, prohibit, or permit the practices of persons who provide traditional, cultural, complementary, or alternative healing arts therapies and services.

The bill provides that a person engaging in traditional, cultural, complementary, or alternative healing arts and health care treatments who makes specified written disclosures to a client and who does not engage in specifically prohibited acts is not violating the practice acts regulating licensed, certified, or registered health care professionals. Failure to make the required disclosures to clients, or performing a prohibited act, constitutes a deceptive trade practice under the "Colorado Consumer Protection Act". Additionally, if a complementary and alternative health care practitioner engages in a prohibited act, he or she is subject to penalties for the unauthorized practice of a regulated profession.

The bill exempts from the definition of "practice of medicine" the rendering of complementary and alternative health care services if performed consistent with the requirements of the bill.

1 *Be it enacted by the General Assembly of the State of Colorado:*
