more than 10% over CDOT's estimate on the project, but allows the executive director of CDOT (executive director) to award a contract that is more than 10% but less than 25% over the estimate if the estimate is less than \$1,000,000. The bill authorizes a designee of the executive director to award such a contract.

Another provision of current law, which is scheduled to repeal on July 1, 2018, authorizes the executive director to award a contract for a design bid build highway project to the low responsible bidder regardless of CDOT's estimate on the project if the executive director determines that it is in the best financial, economic, or other interest of the state to do so and requires CDOT, in its annual report to its legislative oversight committees, to explain the reasons for making the award and estimate the amount of cost savings achieved by making any such award. The bill prevents the authorization and reporting requirements from being repealed.
