Explanation

The bill retains the fiscal impact identified in the bill as filed, except as noted in the following amendments.

Senate "A" delays, by one year, the implementation of a provision withholding Pequot funding from towns in school districts that use Native American mascots. This delays any associated revenue loss such municipalities may experience if they do not comply with the bill's provisions. It makes a conforming change with regards to payments to regional Councils of Government that has no fiscal impact.

Senate "A" also eliminates a variety of sections and their associated fiscal impact.

House "A" makes a variety of clarifying changes that are anticipated to have no or limited fiscal impact.

House "G" strikes section 98 and eliminates its associated fiscal impact.

House "H" reduces bond authorizations for the University of Connecticut Health Center within the UConn 2000 program, which was increased in HB 6690 sections 96-98. It reduces bond authorizations for the University of Connecticut Health Center by \$32.1 million in FY 22 and \$23 million in FY 23. To the extent those bonds would otherwise have been spent and issued, the amendment results in a potential cost reduction to the General Fund debt service.
