

General Assembly

Raised Bill No. 6486

January Session, 2021

LCO No. 3438

Referred to Committee on TRANSPORTATION

Introduced by: (TRA)

## AN ACT CONCERNING AUTOMATED DRIVING SYSTEM EQUIPPED VEHICLES.

Be it enacted by the Senate and House of Representatives in General Assembly convened:

- 1 Section 1. Section 13a-260 of the general statutes is repealed and the
- 2 following is substituted in lieu thereof (*Effective July 1, 2021*):
- 3 (a) For the purposes of this section:
- 4 (1) ["Fully autonomous vehicle"] <u>"ADS-equipped vehicle"</u> means a
- 5 motor vehicle that is equipped with an automated driving system; [,
- 6 designed to function without an operator and classified as level four or
- 7 level five by SAE J3016;]
- 8 (2) "Automated driving system" or "ADS" means the hardware and
- 9 software that are collectively capable of performing the entire dynamic
- driving task on a sustained basis, regardless of whether the automated
- driving system is limited to a specific operational design domain;
- 12 (3) "Driver" means a user who performs in real-time part or all of the
- dynamic driving tasks or dynamic driving tasks fallback for a vehicle;

LCO No. 3438 1 of 9

- (4) "Driving automation" means the performance by hardware and
   software of part or all of the dynamic driving tasks on a sustained basis;
   (5) "Driving automation system" means the hardware and software
- that are collectively capable of performing part or all of the dynamic driving tasks on a sustained basis;

- [(3)] (6) "Dynamic driving task" means the real-time operational and tactical functions required to operate a motor vehicle on highways, excluding the strategic functions such as trip scheduling and selection of destinations and waypoints;
- (7) "Dynamic driving task fallback" means the response by the user to either perform the dynamic driving task or achieve a minimal risk condition after occurrence of a dynamic driving task performance-relevant system failure or upon operational design domain exit, or the response by an automated driving system to achieve minimal risk condition;
  - (8) "Fallback-ready user" means the user of a vehicle equipped with an engaged level three or conditional driving automation system who is able to (A) operate the vehicle and is receptive to automated driving system-issued requests to intervene, and (B) evident dynamic driving task performance-relevant system failures in the vehicle compelling the user to perform the dynamic driving task fallback;
- (9) "Level three or conditional driving automation" means the sustained and operational design domain-specific performance by an automated driving system of the entire dynamic driving task with the expectation that the dynamic driving task fallback-ready user is receptive to automated driving system-issued requests to intervene and to dynamic driving task performance-relevant system failures in other vehicle systems and will respond appropriately;
  - (10) "Minimal risk condition" means a condition to which a user or an automated driving system may bring a vehicle after performing the dynamic driving task fallback to reduce the risk of a crash when a given

LCO No. 3438 **2** of 9

- 45 <u>trip cannot or should not be completed;</u>
- 46 (11) "Operate" means the activities performed by an operator or by an
- 47 <u>automated driving system to perform the entire dynamic driving task</u>
- 48 for a vehicle during a trip;
- 49 [(4)] (12) "Operational design domain" means [a description of the
- 50 operating domains in which an automated driving system is] the
- 51 operating conditions under which a driving automation system, or
- 52 <u>feature of such system, is specifically</u> designed to function, including,
- but not limited to, [geographic, roadway,] environmental, [and speed
- 54 limitations] geographical and time-of-day restrictions and the requisite
- 55 presence or absence of certain traffic or roadway conditions;
- [(5) "SAE J3016" means the "Taxonomy and Definitions for Terms
- 57 Related to Driving Automation Systems for On-Road Motor Vehicles"
- 58 published by SAE International in September 2016;]
- [(6)] (13) "Operator" means [the person who causes the automated
- driving system to engage while physically inside the fully autonomous
- of vehicle] a driver or automated driving system that operates a motor
- 62 vehicle;
- [(7) "Autonomous vehicle tester" means an autonomous vehicle
- 64 manufacturer, institution of higher education, fleet service provider or
- automotive equipment or technology provider;
- 66 (8) "Fleet service provider" means a person or entity that owns or
- 67 leases a fully autonomous vehicle and operates such fully autonomous
- 68 vehicle for commercial or public use;
- 69 (9) "Autonomous vehicle manufacturer" means: (A) A person or
- 70 entity that builds or sells fully autonomous vehicles; (B) a person or
- 71 entity that installs automated driving systems in motor vehicles that are
- 72 not originally built as fully autonomous vehicles; or (C) a person or
- 73 entity that develops automated driving systems in fully autonomous
- 74 vehicles or motor vehicles that are not originally built as fully

LCO No. 3438 3 of 9

- 75 autonomous vehicles;
- 76 (10) "Secretary" means the Secretary of the Office of Policy and 77 Management; and]
- 78 (14) "Request to intervene" means notification by an automated
- 79 driving system to a fallback-ready user indicating that the fallback-
- 80 ready user should promptly perform the dynamic driving task fallback,
- 81 which may entail resuming manual operation of the vehicle or achieving
- 82 <u>a minimal risk condition;</u>
- 83 (15) "System failure" means a malfunction in a driving automation
- 84 system or other vehicle system that prevents the driving automatic
- 85 system from reliably performing the portion of the dynamic driving task
- on a sustained basis, including the complete dynamic driving task, that
- 87 <u>it would otherwise perform;</u>
- 88 (16) "Testing" means operating a motor vehicle equipped with an
- 89 automated driving system for the purpose of demonstrating or
- 90 evaluating the automated driving system on highways;
- 91 (17) "Trip" means the traversal of an entire travel pathway by a
- 92 <u>vehicle from the point of origin to a destination;</u>
- 93 (18) "User" means a person who performs the human role in driving
- 94 <u>automation; and</u>
- 95 [(11)] (19) "Highway", ["limited access highway", and] "motor
- 96 <u>vehicle",</u> "operator's license" <u>and "owner"</u> have the same meanings as
- 97 defined in section 14-1.
- 98 [(b) The Office of Policy and Management, in consultation with the
- 99 Departments of Motor Vehicles, Transportation and Emergency
- 100 Services and Public Protection, shall establish a pilot program for not
- more than four municipalities to allow autonomous vehicle testers to
- test fully autonomous vehicles on the highways of such municipalities.
- 103 Municipalities shall apply to the Secretary of the Office of Policy
- 104 Management in the manner and form directed by the secretary for

LCO No. 3438 **4** of 9

inclusion in the pilot program. The secretary shall select at least one municipality with a population of at least one hundred twenty thousand, but not more than one hundred twenty-four thousand, and one municipality with a population of at least one hundred thousand, as enumerated in the 2010 federal decennial census.

- (c) The chief elected official or chief executive officer of a municipality selected by the secretary shall select and enter into a written agreement with an autonomous vehicle tester or autonomous vehicle testers to test fully autonomous vehicles on the highways of the municipality. Such agreement shall, at a minimum: (1) Specify the locations and routes where such fully autonomous vehicles may operate; (2) prohibit the operation of such fully autonomous vehicles outside such locations and routes except in the case of an emergency; (3) identify each fully autonomous vehicle to be tested by vehicle identification number, make, year and model; and (4) specify the hours of operation of such fully autonomous vehicles.
- (d) An autonomous vehicle tester shall not test a fully autonomousvehicle in a municipality unless:
  - (1) The operator is: (A) Physically inside the fully autonomous vehicle; (B) monitoring the operation of such fully autonomous vehicle; (C) capable of taking immediate manual control of such fully autonomous vehicle; (D) an employee, independent contractor or other person designated and trained by the autonomous vehicle tester concerning the capabilities and limitations of such fully autonomous vehicle; and (E) a holder of an operator's license;
  - (2) The autonomous vehicle tester: (A) Registers each fully autonomous vehicle to be tested with the Commissioner of Motor Vehicles pursuant to section 14-12; and (B) submits to the commissioner, in a manner and form directed by the commissioner, proof of liability insurance, self-insurance or a surety bond of at least five million dollars for damages by reason of bodily injury, death or property damage caused by a fully autonomous vehicle; and

LCO No. 3438 5 of 9

- (3) The operator and autonomous vehicle tester: (A) Comply with any provision of the general statutes or any ordinance of a municipality concerning the operation of motor vehicles; (B) comply with standards established by the National Highway Traffic Safety Administration regarding fully autonomous vehicles; and (C) satisfy any other requirement as determined by the secretary, in consultation with the Commissioners of Motor Vehicles, Transportation and Emergency Services and Public Protection, as necessary to ensure the safe operation of such fully autonomous vehicle.
  - (e) No autonomous vehicle tester shall test a fully autonomous vehicle on any limited access highway.

- (f) The secretary may immediately prohibit an operator or autonomous vehicle tester from testing a fully autonomous vehicle if the secretary, in consultation with the Commissioners of Motor Vehicles, Transportation and Emergency Services and Public Protection, determines that such testing poses a risk to public safety or that such operator or autonomous vehicle tester fails to comply with the provisions of this section or with the requirements of the pilot program.
- (g) An autonomous vehicle tester that participates in the pilot program shall provide information to the secretary and the task force established pursuant to section 2 of public act 17-69\* that the secretary and task force deem to be appropriate for measuring the performance of the pilot program. The autonomous vehicle tester may withhold any commercially valuable, confidential or proprietary information.
- (h) Not later than July 1, 2020, and annually thereafter, the secretary shall submit a report to the joint standing committee of the General Assembly having cognizance of matters relating to transportation, in accordance with section 11-4a, concerning the implementation and progress of the pilot program.]
- (b) Not later than January 1, 2023, the Commissioner of
   Transportation, in consultation with the Secretary of the Office of Policy
   and Management and the Commissioners of Motor Vehicles, Insurance

LCO No. 3438 **6** of 9

- 169 and Emergency Services and Public Protection shall establish state-wide 170 guidelines and requirements for testing and operating ADS-equipped vehicles on highways in the state. Such guidelines and requirements 171 172 shall (1) incorporate any provision of any statute or regulation of this 173 state or the federal government and national best practices regarding 174 testing and operating ADS-equipped vehicles on highways, (2) consider 175 recommendations from the task force established pursuant to section 2 of public act 17-69, municipalities and other interested stakeholders, and 176 177 (3) be reviewed and revised as necessary.
- (c) Before an ADS-equipped vehicle is tested or operated on a highway, the owner or the driver of the ADS-equipped vehicle shall:
- (1) When required by federal law or regulation, (A) receive certification that the ADS-equipped vehicle is in compliance with all applicable federal motor vehicle safety standards and regulations, and (B) place any required certification label, including any reference to an exception granted under federal law or regulation, on the ADS-equipped vehicle;
- 186 (2) Register the ADS-equipped vehicle with the Commissioner of
  187 Motor Vehicles pursuant to section 14-12 or validly register the ADS188 equipped vehicle in another state; and
- (3) Maintain an automobile liability insurance coverage or a surety
   bond of at least five million dollars for damages by reason of bodily
   injury, death or property damage caused by an ADS-equipped vehicle.
- (d) An ADS-equipped vehicle shall comply with any provision of the
   general statutes or any ordinance of a municipality concerning the
   operation of a motor vehicle.
- (e) When an ADS-equipped vehicle is testing or operating on the
   highways of the state and the automated driving system is engaged:
- 197 (1) The automated driving system is the operator and shall perform 198 the entire dynamic driving task of the vehicle;

LCO No. 3438 7 of 9

- (2) The automated driving system is not required to obtain or possess
   an operator's license;
- 201 (3) The owner of the ADS-equipped vehicle is responsible for ensuring the compliant operation of the vehicle;
- 203 (4) The ADS-equipped vehicle shall operate within the operational 204 design domain designated by the manufacturer, unless the ADS-205 equipped vehicle is granted an exemption under federal law or 206 regulation; and
- 207 (5) The automated driving system shall achieve a minimal risk 208 condition or make a request to intervene if an operational design 209 domain exit occurs or a system failure occurs that renders the ADS-210 equipped vehicle unable to perform the entire dynamic driving task 211 relevant to the intended operational design domain.
- 212 (f) If an ADS-equipped vehicle is involved in a crash, the ADS-213 equipped vehicle shall achieve a minimal risk condition and remain at 214 the scene of the crash. The owner of the ADS-equipped vehicle, or a 215 person on behalf of such owner, shall (1) immediately report the crash to a law enforcement officer and remain at the scene of the crash until 216 217 the arrival of a law enforcement officer, and (2) provide the following 218 information upon request to the law enforcement officer: (A) Proof of 219 registration and insurance, (B) the driver's operator's license, (C) specific 220 details of the crash, including the possible cause of the crash, (D) 221 whether the automated driving system was engaged prior to and at the 222 time of the crash, and (E) any other information as requested by the law 223 enforcement officer.

This act shall take effect as follows and shall amend the following sections:

Section 1	July 1, 2021	13a-260
-----------	--------------	---------

## Statement of Purpose:

To permit the testing and operation of automated driving system equipped vehicles on state highways.
