OFFICE OF THE
SECRETARY

MURIEL BOWSER
MAYOR

DEC 13

The Honorable Phil Mendelson
Chairman
Council of the District of Columbia
1350 Pennsylvania Avenue, NW
Washington, DC 20004

Dear Chairman Mendelson:

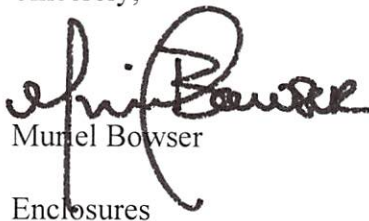

Enclosed for consideration by the Council are the “Power Line Undergrounding Program Certified Business Enterprise Utilization Emergency Act of 2018”, the “Power Line Undergrounding Program Certified Business Enterprise Utilization Temporary Act of 2018”, and the “Power Line Undergrounding Program Certified Business Enterprise Utilization Emergency Declaration Resolution Act of 2018”. The legislation will clarify and update certain provisions of the Electric Company Infrastructure Improvement Financing Act of 2014 in order to expand contracting opportunities for certified business enterprises.

The District’s power line undergrounding program (DC PLUG) is a multiyear effort to place certain overhead electrical lines underground, in order to reduce the number of power outages during weather events and to increase the resiliency of the power distribution system. The Electric Company Infrastructure Improvement Financing Act of 2014, which authorized certain aspects of the program, included a goal that 100% of the DC PLUG construction contracts be awarded to District businesses.

The enclosed legislation will amend the language of this goal, to make clear that the goal applies to certified business enterprises and certified joint ventures. In addition, the legislation will allow architectural and engineering services contracts for DC PLUG to be set aside for certified business enterprises and certified joint ventures.

I urge the Council to take prompt and favorable action on the enclosed legislation.

Sincerely,

Muriel Bowser
