

OFFICE OF THE SECRETARY

2020 FEB -5 PM 4: 55

MURIEL BOWSER
MAYOR

FEB - 5 2020

The Honorable Phil Mendelson
Chairman
Council of the District of Columbia
1350 Pennsylvania Ave. NW, Suite 504
Washington, DC 20004

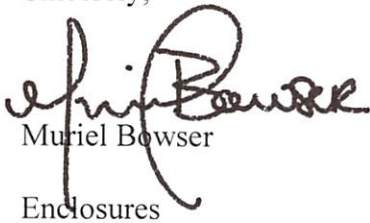

Dear Chairman Mendelson:

Enclosed for consideration and approval by the Council of the District of Columbia is a bill titled the "CleanEnergy DC Omnibus Amendment Act of 2020."

The legislation is the permanent version of emergency and temporary legislation introduced on January 16, 2020. It amends the CleanEnergy DC Omnibus Amendment Act of 2018 ("the Act") to extend the timeline for smaller buildings to comply with the building energy performance standards program established in the Act, to allow DOEE to issue building energy performance standards every 6 years instead of every 5 years, and to clarify language requiring buildings to comply with the building energy performance standards. The legislation would also extend the deadline for DGS to develop the Strategic Energy Management Plan for District buildings from January 1, 2020, to January 1, 2021, and extend the deadline for DMV to issue rules revising the vehicle excise tax from January 1, 2020 to January 1, 2021.

Passage of this legislation will allow the District Department of Energy and Environment to move forward with implementation of the building energy performance standards program in an efficient manner, and will provide DGS and DMV needed flexibility in completing their obligations under the Act.

Sincerely,

Muriel Bowser
Enclosures

Chairman Phil Mendelson
at the request of the Mayor

15

16 To amend Title III of the CleanEnergy DC Omnibus Amendment Act of 2018, and the
17 amendments that Act made to the District of Columbia Traffic Act, 1925, in order to
18 revise the timeline for DOEE to implement the Building Energy Performance Standards
19 Program, and to allow additional time for DMV to issue rules revising the vehicle excise
20 tax calculation.
21

22 BE IT ENACTED BY THE COUNCIL OF THE DISTRICT OF COLUMBIA, That this
23 act may be cited as the “CleanEnergy DC Omnibus Amendment Act of 2020”.

24 Sec. 2. Title III of The CleanEnergy DC Omnibus Amendment Act of 2018, effective
25 March 22, 2019 (D.C. Law 22-257; 66 DCR 3973), is amended as follows:

26 (a) Section 301 (D.C. Official Code § 8-1772.21) is amended as follows:

27 (1) Subsection (a) is amended as follows:

28 (A) Paragraph (2) is amended by striking the phrase “January 1, 2023” and
29 inserting the phrase “January 1, 2027” in its place.

30 (B) Paragraph (3) is amended by striking the phrase “January 1, 2026” and
31 inserting the phrase “January 1, 2033” in its place.

32 (2) Subsection (b)(1)(A) is amended by striking the phrase “every 5 years” and
33 inserting the phrase “every 6 years” in its place.

34 (3) Subsection (c) is amended to read as follows:

35 “(c) All buildings below the energy performance standard for their property type,
36 established pursuant to paragraphs (b)(1) and (2), shall have 5 years from the date the
37 performance standards are established to meet the building energy performance requirements
38 established by DOEE.”

39 (b) Section 303 (D.C. Official Code § 8-1772.22) is amended by striking the phrase
40 “January 1, 2020” and inserting the phrase “January 1, 2021” in its place.

41 Sec. 3. Section 6(j)(1A) of the District of Columbia Traffic Act, 1925, approved March ,
42 1925 (43 Stat. 1121; D.C. Official Code § 50-2201.03(j)) is amended as follows:

43 (a) Subparagraph (A) is amended by striking the phrase “January 1, 2020” and inserting
44 the phrase “January 1, 2021” in its place.

45 (b) Subparagraph (E) is revised to read as follows:

46 “(E) Changes to the vehicle excise tax made pursuant to this paragraph
47 shall be revenue neutral or revenue positive.”.

48 Sec. 4. Fiscal impact statement.

49 The Council adopts the fiscal impact statement of the Budget Director as the fiscal impact
50 statement required by section 4a of the General Legislative Procedures Act of 1975, approved
51 October 16, 2006 (120 Stat. 2038; D.C. Official Code § 1-301.47a).

52 Sec. 5. Effective date.

53 This act shall take effect following approval by the Mayor (or in the event of veto by the
54 Mayor, action by Council to override the veto), a 30-day period of congressional review as
55 provided in section 602(c)(1) of the District of Columbia Home Rule Act, approved December
56 24, 1973 (87 Stat. 813; D.C. Official Code § 1-206.02(c)(1)), and publication in the District of
57 Columbia Register.

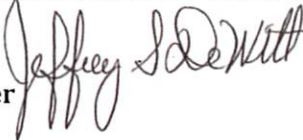

Government of the District of Columbia
Office of the Chief Financial Officer

Jeffrey S. DeWitt
Chief Financial Officer

MEMORANDUM

TO: The Honorable Phil Mendelson
Chairman, Council of the District of Columbia

FROM: Jeffrey S. DeWitt
Chief Financial Officer 

DATE: January 28, 2020

SUBJECT: Fiscal Impact Statement – CleanEnergy DC Omnibus Emergency
Amendment Act of 2020

REFERENCE: Draft Bill as shared with the Office of Revenue Analysis on January 16,
2020

Conclusion

Funds are sufficient in the fiscal year 2020 through fiscal year 2023 budget and financial plan to implement the bill.¹

Background

In 2018, the Council passed the Clean Energy DC Omnibus Amendment Act of 2018 (“Act”), a series of reforms and new requirements around renewable energy, energy efficiency, transportation emissions, building performance standards, and energy-related employment programs.² One of the specific provisions requires the Department of Energy and Environment (DOEE) to establish building energy performance standards for all buildings in the District over 10,000 square feet and provide options for buildings to meet those standards. Private buildings over 50,000 square feet and District-owned buildings over 10,000 square feet are the first buildings required to meet the standards and must do so beginning on January 1, 2021. Private buildings over 25,000 square feet and over 10,000 square feet must meet the standards beginning on January 1, 2023 and January 1, 2026, respectively. DOEE must review the standards every five years for all building types.

¹ Emergency and temporary versions of this bill were introduced on January 16, 2020 and are currently under Council review (bill 23-613 and bill 23-614, respectively). A fiscal impact statement for the emergency and temporary bills was issued on December 10, 2019.

²Effective March 22, 2019 (D.C. Law 22-257; D.C. Official Code § 8-1772.21 et seq.).

The Honorable Phil Mendelson

FIS: "CleanEnergy DC Omnibus Emergency Amendment Act of 2020," Draft Bill as shared with the Office of Revenue Analysis on January 16, 2020

The bill delays the start date for private buildings over 25,000 square feet and over 10,000 square feet to be compliant with the performance standards until January 1, 2027 and January 1, 2033, respectively. The bill also extends to six years the cycle under which DOEE must review the standards.

The Act³ also requires the Department of General Services (DGS) to develop a strategic energy management plan to reduce energy and water use across District-owned buildings by January 1, 2020. The bill delays the plan's delivery date by one year to January 1, 2021.

Another of the Act's provisions requires the Department of Motor Vehicles (DMV) to adjust motor vehicle excise tax rates higher and lower for vehicles whose fuel efficiencies are below or above a benchmark standard.⁴ The Act required that the adjustments to the excise tax be revenue neutral. The bill amends this provision to require that any changes be revenue neutral or positive. The bill also delays the requirement that DMV issue rules to implement this change from January 1, 2020 to January 1, 2021.

Financial Plan Impact

Funds are sufficient in the fiscal year 2020 through fiscal year 2023 budget and financial plan to implement the bill. The bill changes two of the dates whereby private buildings need to begin meeting DOEE's building energy performance standards. There are no costs associated with giving buildings more time to start complying with the standards. There are also no costs associated with extending DOEE's standard review and update cycle from five to six years.

DGS can spend up to \$250,000 in fiscal year 2020 from the Renewable Energy Development Fund⁵ on the strategic energy management plan, but it will not be able to complete the final plan by January 1, 2020. DGS can absorb any costs associated with completing the plan in fiscal year 2021 in order to deliver the plan by the new completion date of January 1, 2021.

Current law requires the changes to the motor vehicle excise tax to be revenue neutral, but the District has determined that it would be difficult to implement precisely. The bill authorizes the changes to also be revenue positive. The District collects approximately \$45 million annually in excise taxes. DMV did not implement this provision on January 1, 2020 and is not proposing the revised tax rates at this time.

³ D.C. Official Code § 8-442.22.

⁴ D.C. Official Code § 50-2201.03(j)(1A).

⁵ Renewable Energy Portfolio Standard Act of 2004, effective April 12, 2005 (D.C. Law 15-340; D.C. Official Code § 34-1436).
