

1 A bill to be entitled
 2 An act relating to carbon sequestration; creating s.
 3 403.945, F.S.; providing definitions; providing
 4 legislative findings; creating the Carbon
 5 Sequestration Task Force adjunct to the Department of
 6 Environmental Protection; providing for task force
 7 membership and duties; requiring the task force to
 8 submit specified reports to the Secretary of
 9 Environmental Protection and to the Governor and
 10 Legislature by specified dates; providing an
 11 appropriation; providing for expiration of the task
 12 force; providing an effective date.

14 Be It Enacted by the Legislature of the State of Florida:

16 Section 1. Section 403.945, Florida Statutes, is created
 17 to read:

18 403.945 Carbon Sequestration Task Force.-

19 (1) As used in this section, the term:

20 (a) "Blue carbon" means carbon sequestered by marine and
 21 coastal ecosystems.

22 (b) "Carbon sequestration" means the long-term storage of
 23 carbon in plants, soils, geologic formations, and the ocean
 24 through land and aquatic habitat management.

25 (2) The Legislature finds that:

26 (a) Maintaining coastal and freshwater wetlands, nearshore
27 and offshore aquatic ecosystems, conservation lands, healthy and
28 sustainable agriculture, shellfish aquaculture, and timber and
29 silvicultural industries is vital to the state's economy,
30 environment, and natural resources, including significant
31 environmental contributions to water quality and quantity, air
32 purification, carbon sequestration, blue carbon, coastal
33 resilience, and habitat for threatened and endangered wildlife.

34 (b) The continued expansion of urban sprawl and the
35 development of coastal areas have led to losses of the state's
36 natural and agricultural lands and decreases in water quality
37 and quantity that have harmed coastal ecosystems and industries,
38 including imperiled wetlands, coral reefs, seagrasses, and
39 shellfish aquaculture.

40 (c) To ensure healthy and sustainable agriculture,
41 shellfish aquaculture and silvicultural industries, and natural
42 and working lands and waters, a statewide program is necessary
43 to provide incentives for landowners and managers to continue
44 activities and land uses that sequester carbon.

45 (3) The Carbon Sequestration Task Force, a task force as
46 defined in s. 20.03, is created adjunct to the department to
47 provide recommendations for the development of a statewide
48 carbon sequestration program. The task force shall operate in a
49 manner consistent with the requirements of s. 20.052.

50 (4) (a) The task force shall be composed of the following

HB 1187

2024

51 members:

52 1. The Secretary of Environmental Protection, or his or
53 her designee.

54 2. The Commissioner of Agriculture, or his or her
55 designee.

56 3. The executive director of the Fish and Wildlife
57 Conservation Commission, or his or her designee.

58 4. The Chief Resilience Officer, or his or her designee.

59 5. A representative from the National Estuary Program,
60 appointed by the Secretary of Environmental Protection.

61 6. A member of an environmental not-for-profit, appointed
62 by the Secretary of Environmental Protection.

63 7. A landowner of working agricultural lands, appointed by
64 the Commissioner of Agriculture.

65 8. A representative from a state university with expertise
66 in energy or sustainability, appointed by the Secretary of
67 Environmental Protection.

68 9. A representative from the University of Florida
69 Institute of Food and Agricultural Sciences, appointed by the
70 Commissioner of Agriculture.

71 10. A representative from the Florida Sea Grant Program,
72 appointed by the Commissioner of Agriculture.

73 (b) Appointments to the task force must be made by August
74 1, 2024.

75 (c) Each appointed member serves at the pleasure of the

76 appointing official.

77 (d) A vacancy on the task force must be filled in the same
78 manner as the original appointment.

79 (e) The task force shall elect a chair from among the
80 members.

81 (f) The task force shall convene no later than September
82 1, 2024. The task force shall meet quarterly or upon the call of
83 the chair. The task force shall hold its meetings in person or
84 through teleconference or other electronic means.

85 (5) The duties of the task force shall include all of the
86 following:

87 (a) Identify and inventory terrestrial and aquatic
88 environments suitable for carbon sequestration in this state.

89 (b) Consider possible methods of increasing carbon
90 sequestration within the natural environment through state land
91 and marine resource use policies; agricultural, aquacultural,
92 and silvicultural practices; and other practices to achieve
93 restoration of natural resources and long-term conservation.

94 (c) Develop a standardized methodology, including
95 appropriate technology and existing research, to establish
96 baseline carbon levels and account for increases in carbon
97 sequestration over time.

98 (d) Evaluate additional ecosystem services and benefits of
99 terrestrial and aquatic environments that may promote
100 conservation and ecosystem restoration success, including water

101 recharge, stormwater filtration, threatened or endangered
102 wildlife habitat, nutrient reduction, flood mitigation and
103 protection, coastal resilience, air quality, soil health, and
104 food security.

105 (e) Recommend short-term and long-term benchmarks for
106 increasing carbon sequestration in terrestrial and aquatic
107 ecosystems.

108 (f) Identify existing carbon markets and other
109 considerations relevant to participation by the state in such
110 markets.

111 (g) Identify potential funding mechanisms to encourage
112 carbon sequestration practices and activities in this state.

113 (6) By October 1, 2025, the task force shall submit to the
114 Secretary of Environmental Protection a report summarizing the
115 task force activities and findings in its first year, including
116 a nonrecurring budget request for the 2025-2026 fiscal year.

117 (7) By October 1, 2026, the task force shall submit to the
118 Governor, the President of the Senate, and the Speaker of the
119 House of Representatives a report that compiles the findings and
120 recommendations of the task force. The task force shall
121 terminate on April 30, 2027.

122 Section 2. For the 2024-2025 fiscal year, the sum of
123 \$350,000 in nonrecurring funds is appropriated from the
124 Operating Trust Fund to the Department of Environmental
125 Protection for the purpose of providing administrative and
