

The House Committee on Health offers the following substitute to HB 546:

A BILL TO BE ENTITLED  
AN ACT

1 To amend Code Section 26-4-5 of the Official Code of Georgia Annotated, relating to  
2 definitions relative to the "Georgia Pharmacy Practice Act," so as to revise the definition of  
3 "pharmacy care"; to provide for related matters; to repeal conflicting laws; and for other  
4 purposes.

5 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

6 **SECTION 1.**

7 Code Section 26-4-5 of the Official Code of Georgia Annotated, relating to definitions  
8 relative to the "Georgia Pharmacy Practice Act," is amended by revising paragraph (31) as  
9 follows:

10 "(31) 'Pharmacy care' means:

11 (A) Those services related to the interpretation, evaluation, or dispensing of  
12 prescription drug orders, the participation in drug and device selection, drug  
13 administration, and drug regimen reviews, and the provision of patient counseling  
14 related thereto; ~~and~~

15 (B) Ordering and administering:

16 (i) Tests that have been cleared or approved for home use by the federal Food and  
17 Drug Administration and interpreting the results as a means to screen for or monitor  
18 disease, disease risk factors, or drug use and to facilitate patient education; and

19 (ii) Viral and serology COVID-19 tests, provided that such authority shall expire 12  
20 months after the end of the public health emergency declared by the United States  
21 secretary of health and human services on January 31, 2020; provided, however, that  
22 such expiration shall not apply to viral and serology COVID-19 tests cleared or  
23 approved pursuant to division (i) of this subparagraph.

24 A pharmacist conducting such a test shall do so at a pharmacy or other facility that has  
25 obtained any necessary certification from or that is operating under a certificate of  
26 waiver from the federal Centers for Medicare and Medicaid Services pursuant to the  
27 federal Clinical Laboratory Improvement Amendments of 1998; and

28 (C) Adaptation of a prescription drug order to:

29 (i) Change the quantity of medication prescribed if:

30 (I) The prescribed quantity or package size is not commercially available;

31 (II) The change in quantity is related to a change in dosage form, strength, or  
32 therapeutic interchange;

33 (III) The change is intended to dispense up to a 90 day supply of maintenance  
34 medication in accordance with subsection (q) of Code Section 26-4-80; or

35 (IV) The change extends a maintenance medication for the limited quantity  
36 necessary to coordinate a patient's refills in a medication synchronization program  
37 in accordance with Code Section 33-24-59.22;

38 (ii) Change the dosage form of the prescription if it is in the best interest of patient  
39 care, so long as the prescriber's directions are also modified to equate to an equivalent  
40 amount of drug dispensed as prescribed; or

41 (iii) Complete missing information on a prescription drug order if there is evidence  
42 to support the change.

43 A pharmacist who adapts a prescription drug order in accordance with this  
44 subparagraph shall: (1) make such adaptation in the exercise of his or her professional  
45 judgment; (2) document such adaptation in the patient's record; and (3) obtain the  
46 patient's consent prior to making such adaptation. Notwithstanding anything in this  
47 chapter to the contrary, a pharmacist shall not make any changes to a prescription drug  
48 order pursuant to this subparagraph if the prescriber indicates on such order that  
49 adaptation is not permitted."

50

**SECTION 2.**

51 All laws and parts of laws in conflict with this Act are repealed.
