

COMMITTEE OF CONFERENCE SUBSTITUTE TO HB 557

A BILL TO BE ENTITLED
AN ACT

1 To amend Chapter 34 of Title 43 of the Official Code of Georgia Annotated, relating to
2 physicians, assistants, and others, so as to authorize physicians to delegate the authority to
3 advanced practice registered nurses and physician assistants to prescribe certain Schedule II
4 controlled substances; to provide for requirements; to provide for automatic approval of
5 nurse protocol agreements and job descriptions under certain conditions; to amend Article 3
6 of Chapter 2 of Title 40 of the Official Code of Georgia Annotated, relating to prestige
7 license plates and special plates for certain persons and vehicles, so as to authorize advanced
8 practice registered nurses and physician assistants to execute affidavits certifying an
9 individual is disabled for purposes of obtaining special vehicle decals for persons with
10 disabilities; to provide for legislative findings; to provide for related matters; to repeal
11 conflicting laws; and for other purposes.

12 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

13 **SECTION 1.**

14 The General Assembly finds:

15 (1) Governor Kemp created the Georgia Healthcare Workforce Commission in 2022;

16 (2) The commission recognized that Georgia is now in the minority of states with
17 restrictions on certain healthcare occupations, such as nurse practitioners and physician
18 assistants, and that research also suggests that in appropriate circumstances, revising
19 practice restrictions on certain healthcare occupations and granting increased practice
20 authority have the potential to improve access to care without compromising quality or
21 increasing costs;

22 (3) The commission believes that exploring updating scope of practice limitations could
23 potentially ease pressure on the healthcare workforce by allowing certain healthcare
24 occupations to perform more advanced work in healthcare settings which could decrease
25 work burden on other clinical providers;

26 (4) Georgia is one of only three states that forbids physician assistants and nurse
27 practitioners from prescribing any Schedule II medications; and

28 (5) A more streamlined process at the Georgia Composite Medical Board will allow
29 already licensed and certified practitioners to more quickly begin work.

30 SECTION 2.

31 Chapter 34 of Title 43 of the Official Code of Georgia Annotated, relating to physicians,
32 assistants, and others, is amended by revising paragraph (3) of subsection (a), paragraph (10)
33 of subsection (g), and subsections (k) and (m) of Code Section 43-34-25, relating to
34 delegation of certain medical acts to advanced practice registered nurse, construction and
35 limitations of such delegation, definitions, conditions of nurse protocol, and issuance of
36 prescription drug orders, and by adding a new subsection to read as follows:

37 "(3) 'Controlled substance' means any controlled substance as defined in Code Section
38 16-13-21 but shall not include any Schedule I controlled substance included in Code
39 Section 16-13-25 or any Schedule II controlled substance included in Code Section
40 16-13-26, except as authorized pursuant to subsection (d.1) of this Code section."

41 "(d.1) An advanced practice registered nurse who has at least one year of post-licensure
42 clinical experience and is in good standing with the board may be authorized under a nurse
43 protocol agreement to issue prescription drug orders for hydrocodone, oxycodone, or
44 compounds thereof in emergency situations pursuant to the following requirements:

45 (1) The authorization is specifically included in the nurse protocol agreement;

46 (2) The advanced practice registered nurse has directly evaluated the patient;

47 (3) The prescription drug order is limited to an initial prescription, not to exceed a
48 five-day supply;

49 (4) The prescription drug order is for an individual 18 years of age or older; and

50 (5) The advanced practice registered nurse completes one hour of continuing education
51 biennially in the appropriate ordering and use of hydrocodone, oxycodone, and
52 compounds thereof."

53 "(10) Notwithstanding the provisions of subsection (d.1) of this Code section, in In any
54 emergency medical services system operated by, or on behalf of, any county,
55 municipality, or hospital authority with a full-time physician medical director and who
56 does not order drugs, except that he or she may order up to a 14 day supply of drugs as
57 necessary in an emergency situation, excluding ~~Schedule II controlled substances and~~
58 benzodiazepines and all Schedule II controlled substances except hydrocodone,
59 oxycodone, or compounds thereof; provided, however, that an advanced practice
60 registered nurse shall not order radiographic imaging, diagnostic studies, or medical
61 devices pursuant to this paragraph; and provided, further, that a patient shall be referred
62 to a physician, a dentist, or a federally qualified health center."

63 "(k) Nothing in this Code section shall be construed to authorize an advanced practice
64 registered nurse to issue a prescription drug order for a Schedule I or II controlled
65 substance, except as otherwise authorized pursuant to subsection (d.1) of this Code section,
66 or authorize refills of any drug for more than 12 months from the date of the original order

67 except in the case of oral contraceptives, hormone replacement therapy, or prenatal
68 vitamins which may be refilled for a period of 24 months."

69 "(m)(1) The board shall have the authority to promulgate rules and regulations governing
70 a delegating physician in order to carry out the intents and purposes of this Code section.

71 (2)(A) Further, the board shall be authorized to:

72 ~~(1)~~(i) Require that a nurse protocol agreement shall be filed by the delegating
73 physician with the board within a reasonable time from the date of execution;

74 ~~(2)~~(ii) Determine, after review of a filed nurse protocol agreement, if such nurse
75 protocol agreement fails to meet accepted standards of medical practice as established
76 by the board; and

77 ~~(3)~~(iii) Require the delegating physician to amend any such noncompliant nurse
78 protocol agreement in order to meet such accepted standards.

79 (B) If a medical practice has an existing approved nurse protocol agreement and an
80 alternate delegating physician or a change in the delegating physician within the same
81 or similar specialty, such new nurse protocol agreement for the new alternate delegating
82 physician or a change in the delegating physician, upon submission, shall be
83 automatically deemed approved by the board.

84 (C) If a delegating physician submits a nurse protocol agreement for a new advanced
85 practice registered nurse and such nurse protocol agreement that has substantially the
86 same terms and provisions as a nurse protocol agreement previously submitted by such
87 delegating physician for another advanced practice registered nurse and approved by
88 the board, the nurse protocol agreement for the new advanced practice registered nurse,
89 upon submission, shall be automatically deemed approved by the board."

90 SECTION 3.

91 Said chapter is further amended by revising subsections (c) and (e.1) of Code Section
92 43-34-103, relating to delegation of authority to physician assistants, as follows:

93 "(c)(1) At all times while providing patient services, a physician assistant shall have a
94 signed job description submitted by his or her primary supervising physician and
95 approved by the board.

96 (2) Nothing in this article shall prevent a primary supervising physician from submitting
97 to the board a new or amended physician assistant job description.

98 (3) If a medical practice has an existing approved job description and an alternate
99 supervising physician or a change in the supervising physician within the same or similar
100 specialty, such new job description for the new alternate supervising physician or a
101 change in the supervising physician, upon submission, shall be automatically deemed
102 approved by the board.

103 (4) If a primary supervising physician submits a job description for a new physician
104 assistant and such job description that has substantially the same terms and provisions as
105 a job description previously submitted by such primary supervising physician for another
106 physician assistant and approved by the board, the job description for the new physician
107 assistant, upon submission, shall be automatically deemed approved by the board."

108 "(e.1)(1)(A) In addition to and without limiting the authority granted by Code Section
109 43-34-23, a physician may delegate to a physician assistant, in accordance with a job
110 description, the authority to issue a prescription drug order or orders for any device as
111 defined in Code Section 26-4-5 or to issue any dangerous drug as defined in Code
112 Section 16-13-71, hydrocodone, oxycodone, or compounds thereof in accordance with
113 subparagraph (B) of this paragraph, or any Schedule III, IV, or V controlled substance
114 as defined in Code Section 16-13-21 on a prescription drug order or prescription device
115 order form as specified in paragraph (3) of this subsection. Delegation of such
116 authority shall be contained in the job description required by this Code section. The
117 delegating physician shall remain responsible for the medical acts of the physician
118 assistant performing such delegated acts and shall adequately supervise the physician
119 assistant. If an existing job description for a physician assistant does not contain such

120 authority to order a prescription drug or device order as provided by this subsection,
121 that physician assistant may not issue any such prescription drug or device order until
122 a new job description delegating such authority is submitted to and approved by the
123 board. Nothing in this Code section shall be construed to authorize the written
124 prescription drug order of a Schedule I or II controlled substance, except as authorized
125 pursuant to subparagraph (B) of this paragraph.

126 (B) A physician may delegate to a physician assistant who has at least one year of
127 post-licensure clinical experience and is in good standing with the board the authority
128 to issue prescription drug orders for hydrocodone, oxycodone, or compounds thereof
129 in emergency situations pursuant to the following requirements:

130 (i) The authorization is specifically included in the job description;

131 (ii) The physician assistant has directly evaluated the patient;

132 (iii) The drug order is limited to an initial prescription not to exceed a five-day
133 supply; and

134 (iv) The prescription drug order is for an individual 18 years of age or older.

135 (2) Nothing in this subsection shall be construed to create a presumption of liability,
136 either civil or criminal, on the part of a pharmacist who is duly licensed under Title 26
137 and who in good faith fills a prescription drug or device order presented by a patient
138 pursuant to this subsection. The pharmacist shall presume that the prescription drug or
139 device order was issued by a physician assistant duly licensed under this article who has
140 qualified under this Code section to prescribe pharmaceutical agents. The pharmacist
141 shall also presume that the pharmaceutical agent prescribed by the physician assistant is
142 an approved pharmaceutical agent, unless the pharmacist has actual or constructive
143 knowledge to the contrary.

144 (3) The physician assistant shall only be authorized to exercise the rights granted under
145 this subsection using a prescription drug or device order form which includes the name,
146 address, and telephone number of the prescribing supervising or alternate supervising

147 physician, the patient's name and address, the drug or device prescribed, the number of
148 refills, and directions to the patient with regard to the taking and dosage of the drug. A
149 prescription drug order which is transmitted either electronically or via facsimile shall
150 conform to the requirements set out in paragraphs (1) and (2) of subsection (c) of Code
151 Section 26-4-80, respectively. Any form containing less information than that described
152 in this paragraph shall not be offered to or accepted by any pharmacist who is duly
153 licensed under Title 26.

154 (4) Nothing in this Code section shall be construed to authorize a physician assistant to
155 authorize refills of any drug for more than 12 months from the date of the original
156 prescription drug or device order.

157 (5) A supervising physician or alternate supervising physician shall evaluate or examine,
158 at least every three months, any patient receiving controlled substances.

159 (6) In addition to the copy of the prescription drug or device order delivered to the
160 patient, a record of such prescription shall be maintained in the patient's medical record
161 in the following manner:

162 (A) The physician assistant carrying out a prescription drug or device order shall
163 document such order either in writing or by electronic means; and

164 (B) The supervising physician shall periodically review patient records. Such review
165 may be achieved with a sampling of such records as determined by the supervising
166 physician.

167 (7) A physician assistant is not permitted to prescribe drugs or devices except as
168 authorized in the physician assistant's job description and in accordance with this article.

169 (8) The board shall adopt rules establishing procedures to evaluate an application for a
170 job description containing the authority to order a prescription drug or device and any
171 other rules the board deems necessary or appropriate to regulate the practice of physician
172 assistants, to carry out the intent and purpose of this article, or to protect the public
173 welfare.

174 (9) A physician assistant authorized by a primary supervising physician to order
175 controlled substances pursuant to this Code section is authorized to register with the
176 federal United States Drug Enforcement Administration.

177 (10)(A) A physician assistant delegated the authority by the primary supervising
178 physician to issue a prescription drug or device order shall be required to complete a
179 minimum of three hours of continuing education biennially in practice specific
180 pharmaceuticals in which the physician assistant has prescriptive order privileges.

181 (B) A physician assistant delegated the authority by the primary supervising physician
182 to issue a prescription drug or device order for hydrocodone, oxycodone, or compounds
183 thereof shall be required to complete one additional hour of continuing education
184 biennially in the appropriate ordering and use of hydrocodone, oxycodone, or
185 compounds thereof.

186 (11) A managed care system, health plan, hospital, insurance company, or other similar
187 entity shall not require a physician to be a party to a job description as a condition for
188 participation in or reimbursement from such entity."
