25 adding a new chapter to read as follows:

26 "CHAPTER 11

27 37-11-1.

28 This chapter shall be known and may be cited as the 'Psychiatric Advance Directive Act.'

29 37-11-2.

30 This chapter is enacted in recognition of the fundamental right of an individual to have
31 power over decisions relating to his or her mental health care as a matter of public policy.

32 37-11-3.

33 As used in this chapter, the term:

34 (1) 'Capable' means not incapable of making mental health care decisions.

35 (2) 'Competent adult' means a person of sound mind who is 18 years of age or older or
36 is an emancipated minor.

37 (3) 'Declarant' means a person who has executed a psychiatric advance directive
38 authorized by this chapter.

39 (4) 'Facility' means a hospital, skilled nursing facility, hospice, institution, home,
40 residential or nursing facility, treatment facility, and any other facility or service which
41 has a valid permit or provisional permit issued under Chapter 7 of Title 31 or which is
42 licensed, accredited, or approved under the laws of any state, and includes hospitals
43 operated by the United States government or by any state or subdivision thereof.

44 (5) 'Incapable of making mental health care decisions' means that, in the opinion of a
45 physician or licensed psychologist who has personally examined a declarant, or in the
46 opinion of a court, a declarant lacks the capacity to understand the risks and benefits of,
47 and the alternatives to, a mental health care decision under consideration and is unable
48 to give or communicate rational reasons for mental health care decisions because of
49 impaired thinking, impaired ability to receive and evaluate information, or other cognitive
50 disability.

51 (6) 'Mental health care' means any care, treatment, service, or procedure to maintain,
52 diagnose, treat, or provide for a declarant's mental or emotional illness, developmental
53 disability, or addictive disease.

54 (7) 'Mental health care agent' or 'agent' means a person appointed by a declarant to act
55 for and on behalf of such declarant to make decisions related to consent, refusal, or
56 withdrawal of any type of mental health care when such declarant is incapable of making
57 mental health care decisions for himself or herself. Such term shall include any back-up
58 mental health care agent appointed by a declarant.

59 (8) 'Physician' means a person lawfully licensed in this state to practice medicine
60 pursuant to Article 2 of Chapter 34 of Title 43 and, if the declarant is receiving mental
61 health care in another state, a person lawfully licensed in such state.

62 (9) 'Provider' means any person administering mental health care who is licensed,
63 certified, or otherwise authorized or permitted by law to administer mental health care in
64 the ordinary course of business or the practice of a profession, including, but not limited
65 to, professional counselors, psychologists, clinical social workers, and clinical nurse

66 specialists in psychiatric and mental health; a physician; or any person acting for any such
67 authorized person.

68 (10) 'Psychiatric advance directive' or 'directive' means a written document voluntarily
69 executed by a person in accordance with the requirements of Code Section 37-11-9.

70 37-11-4.

71 (a) A competent adult may execute a psychiatric advance directive containing mental
72 health care preferences, information, or instructions regarding his or her mental health care
73 that authorizes and consents to a provider or facility acting in accordance with such
74 directive. A directive may include consent to or refusal of specified mental health care.

75 (b) A psychiatric advance directive may include, but shall not be limited to:

76 (1) The names and telephone numbers of individuals to contact in the event a declarant
77 has a mental health crisis;

78 (2) Situations that have been known to cause a declarant to experience a mental health
79 crisis;

80 (3) Responses that have been known to de-escalate a declarant's mental health crisis;

81 (4) Responses that may assist a declarant to remain in such declarant's home during a
82 mental health crisis;

83 (5) The types of assistance that may help stabilize a declarant if it becomes necessary to
84 enter a facility; and

85 (6) Medications a declarant is taking or has taken in the past and the effects of such
86 medications.

87 (c) A psychiatric advance directive may include a mental health care agent.

88 (d) If a declarant chooses not to appoint an agent, the instructions and desires of a
89 declarant as set forth in the directive shall be followed to the fullest extent possible by
90 every provider or facility to whom the directive is communicated, subject to the right of the

91 provider or facility to refuse to comply with the directive as set forth in Code Section
92 37-11-12.

93 (e) A person shall not be required to execute or refrain from executing a directive as a
94 criterion for insurance, as a condition for receiving mental health care or physical health
95 care services, or as a condition of discharge from a facility.

96 (f) Unless a declarant indicates otherwise, a psychiatric advance directive shall take
97 precedence over any advance directive for health care executed pursuant to Chapter 32 of
98 Title 31, durable power of attorney for health care creating a health care agency under the
99 former Chapter 36 of Title 31, as such chapter existed on and before June 30, 2007, health
100 care proxy, or living will that a declarant executed prior to executing a psychiatric advance
101 directive to the extent that such other documents relate to mental health care and are
102 inconsistent with the psychiatric advance directive.

103 (g) No provision of this chapter shall be construed to bar use by a declarant of an advance
104 directive for health care under Chapter 32 of Title 31.

105 37-11-5.

106 (a) A declarant may designate a competent adult to act as his or her agent to make
107 decisions about his or her mental health care. An alternative agent may also be designated.

108 (b) An agent shall have no authority to make mental health care decisions when a declarant
109 is capable.

110 (c) The authority of an agent shall continue in effect so long as the directive appointing
111 such agent is in effect or until such agent has withdrawn.

112 (d) An agent appointed by a declarant:

113 (1) Shall be authorized to make any and all mental health care decisions on behalf of
114 such declarant which such declarant could make if such declarant were capable;

115 (2) Shall exercise granted powers in a manner consistent with the intent and desires of
116 such declarant. If such declarant's intentions and desires are not expressed or are unclear,

117 the agent shall act in such declarant's best interests, considering the benefits, burdens, and
118 risks of such declarant's circumstances and mental health care options;
119 (3) Shall not be under any duty to exercise granted powers or to assume control of or
120 responsibility for such declarant's mental health care; but, when granted powers are
121 exercised, the agent shall be required to use due care to act for the benefit of such
122 declarant in accordance with the terms of the psychiatric advance directive;
123 (4) Shall not make a mental health care decision different from or contrary to such
124 declarant's instruction if such declarant is capable at the time of the request for consent
125 or refusal of mental health care;
126 (5)(A) May make a mental health care decision different from or contrary to such
127 declarant's instruction in such declarant's psychiatric advance directive if:
128 (i) Such declarant's provider or facility determines in good faith at the time of consent
129 or refusal of mental health care that the mental health care requested or refused in the
130 directive's instructions is:
131 (I) Unavailable;
132 (II) Medically contraindicated in a manner that would result in substantial harm to
133 such declarant if administered; or
134 (III) In the opinion of the provider or facility, inconsistent with reasonable medical
135 standards to benefit such declarant or has proven ineffective in treating such
136 declarant's mental health condition; and
137 (ii) The mental health care requested or refused in the directive's instructions is
138 unlikely to be delivered by another provider or facility in the community under the
139 circumstances.
140 (B) In the event the agent exercises authority under one of the circumstances set forth
141 in subparagraph (A) of this paragraph, the agent shall exercise the authority in a manner
142 consistent with the intent and desires of such declarant. If such declarant's intentions
143 and desires are not expressed or are unclear, the agent shall act in such declarant's best

144 interests, considering the benefits, burdens, and risks of such declarant's circumstances
145 and mental health care options;

146 (6) Shall not delegate authority to make mental health care decisions; and

147 (7) Has the following general powers, unless expressly limited in the psychiatric advance
148 directive:

149 (A) To sign and deliver all instruments, negotiate and enter into all agreements, and do
150 all other acts reasonably necessary to exercise the powers granted to the agent;

151 (B) To consent to, authorize, refuse, or withdraw consent to any providers and any type
152 of mental health care of such declarant, including any medication program;

153 (C) To request and consent to admission or discharge from any facility; and

154 (D) To contract for mental health care and facilities in the name of and on behalf of
155 such declarant, and the agent shall not be personally financially liable for any services
156 or mental health care contracted for on behalf of such declarant.

157 (e) A court may remove a mental health care agent if it finds that an agent is not acting in
158 accordance with the declarant's treatment instructions as expressed in his or her directive.

159 37-11-6.

160 (a) Except to the extent that a right is limited by a directive or by any state or federal law
161 or regulation, an agent shall have the same right as a declarant to receive information
162 regarding the proposed mental health care and to receive, review, and consent to disclosure
163 of medical records, including records relating to the treatment of a substance use disorder,
164 relating to that mental health care. All of a declarant's mental health information and
165 medical records shall remain otherwise protected under state and federal privilege, and this
166 right of access shall not waive any evidentiary privilege.

167 (b) At the declarant's expense and subject to reasonable rules of a provider or facility to
168 prevent disruption of the declarant's mental health care, an agent shall have the same right
169 the declarant has to examine, copy, and consent to disclosure of all the declarant's medical

170 records that the agent deems relevant to the exercise of the agent's powers, whether the
171 records relate to mental health or any other medical condition and whether they are in the
172 possession of or maintained by any physician, psychiatrist, psychologist, therapist, facility,
173 or other health care provider, despite contrary provisions of any other statute or rule of law.
174 (c) The authority given an agent by this Code section shall include all rights that a
175 declarant has under the federal Health Insurance Portability and Accountability Act of
176 1996, P.L. 104-191, and its implementing regulations regarding the use and disclosure of
177 individually identifiable health information and other medical records.

178 37-11-7.

179 The following persons shall not serve as a declarant's agent:

180 (1) Such declarant's provider or an employee of that provider unless such employee is
181 a family member, friend, or associate of such declarant and is not directly involved in
182 such declarant's mental health care; or

183 (2) An employee of the Department of Behavioral Health and Developmental Disabilities
184 or of a local public mental health agency or of any organization that contracts with a local
185 public mental health authority unless such employee is a family member, friend, or
186 associate of such declarant and is not directly involved in such declarant's mental health
187 care.

188 37-11-8.

189 An agent may withdraw by giving written notice to a declarant. If such declarant is
190 incapable of making mental health care decisions, such agent may withdraw by giving
191 written notice to the provider or facility that is providing mental health care to the declarant
192 at the time of the agent's withdrawal. Any provider or facility that receives an agent's
193 withdrawal shall document the withdrawal as part of such declarant's medical record.

194 37-11-9.

195 (a) A psychiatric advance directive shall be effective only if it is signed by the declarant
196 and witnessed by two competent adults, but such witnesses shall not be required to be
197 together or present when such declarant signs the directive. The witnesses shall attest that
198 the declarant is known to them, appears to be of sound mind, is not under duress, fraud, or
199 undue influence, and signed his or her directive in the witness's presence or acknowledges
200 signing his or her directive. For purposes of this subsection, the term 'of sound mind'
201 means having a decided and rational desire to create a psychiatric advance directive.

202 (b) A validly executed psychiatric advance directive shall become effective upon its proper
203 execution and shall remain in effect until revoked by the declarant.

204 (c) The following persons shall not serve as witnesses to the signing of a directive:

205 (1) A provider who is providing mental health care to the declarant at the time such
206 directive is being executed or an employee of such provider unless such employee is a
207 family member, friend, or associate of such declarant and is not directly involved in the
208 declarant's mental health care;

209 (2) An employee of the Department of Behavioral Health and Developmental Disabilities
210 or of a local public mental health agency or of any organization that contracts with a local
211 public mental health authority unless such person is a family member, friend, or associate
212 of such declarant and is not directly involved in the declarant's mental health care; or

213 (3) A person selected to serve as the declarant's mental health care agent.

214 (d) A person who witnesses a psychiatric advance directive in good faith and in
215 accordance with this chapter shall not be civilly liable or criminally prosecuted for actions
216 taken by an agent.

217 (e) A copy of a directive executed in accordance with this Code section shall be valid and
218 have the same meaning and effect as the original document.

219 37-11-10.

220 A directive may be revoked in whole or in part by a declarant at any time so long as such
221 declarant is capable. Any revocation of the directive communicated to a provider or
222 facility by a capable declarant shall also be documented in such declarant's medical record.

223 37-11-11.

224 (a) Upon being presented with a psychiatric advance directive, a provider or facility shall
225 make the directive a part of a declarant's medical record.

226 (b) In the absence of specific knowledge of the revocation or invalidity of a directive, a
227 provider or facility providing mental health care to a declarant may presume that a person
228 who executed a psychiatric advance directive in accordance with this chapter was of sound
229 mind and acted voluntarily when executing such directive and may rely upon a psychiatric
230 advance directive or a copy of that directive.

231 (c) A provider or facility shall be authorized to act in accordance with a directive when a
232 declarant is incapable of making mental health care decisions.

233 (d) A provider or facility shall continue to obtain a declarant's consent to all mental health
234 care decisions if he or she is capable of providing consent or refusal.

235 37-11-12.

236 (a)(1) When acting under the authority of a directive, a provider or facility shall comply
237 with it to the fullest extent possible unless the requested mental health care is:

238 (A) Unavailable;

239 (B) Medically contraindicated in a manner that would result in substantial harm to the
240 declarant if administered; or

241 (C) In the opinion of the provider or facility, inconsistent with reasonable medical
242 standards to benefit the declarant or has proven ineffective in treating such declarant's
243 mental health condition.

244 (2) In the event that a part of a directive is unable to be followed due to any of the
245 circumstances set forth in paragraph (1) of this subsection, all other parts of such
246 directive shall be followed.

247 (b) If a provider or facility is unwilling at any time for one or more of the reasons set forth
248 in paragraph (1) of subsection (a) of this Code section to comply with a declarant's wishes
249 as set forth in the directive or with the decision of such declarant's agent, such provider or
250 facility shall:

251 (1) Document the reason for not following the directive in such declarant's medical
252 record; and

253 (2) Promptly notify such declarant and his or her agent, if one is appointed in the
254 directive, or otherwise such declarant's legal guardian, of the refusal to follow the
255 directive or instructions of the agent and document the notification in such declarant's
256 medical record.

257 (c) In the event a provider or facility is unwilling at any time for one or more of the
258 reasons set forth in paragraph (1) of subsection (a) of this Code section to comply with a
259 declarant's wishes as set forth in the directive or with the decision of such declarant's agent,
260 if an agent has been appointed, then the declarant's agent, or otherwise such declarant's
261 legal guardian, shall arrange for such declarant's transfer to another provider or facility if
262 the requested care would be delivered by that other provider or facility.

263 (d) A provider or facility unwilling at any time for one or more of the reasons set forth in
264 paragraph (1) of subsection (a) of this Code section to comply with a declarant's wishes as
265 set forth in the directive or with the decision of a declarant's mental health care agent shall
266 continue to provide reasonably necessary consultation and care in connection with the
267 pending transfer.

268 (e) A psychiatric advance directive shall not limit the involuntary examination, treatment,
269 or hospitalization of patients pursuant to Chapter 3 or Chapter 7 of this title or evaluations

270 or treatment services rendered pursuant to a court order under Code Section 17-7-130,
271 17-7-130.1, or 17-7-131.

272 (f) Nothing in this chapter shall be construed to require a provider or facility to provide
273 mental health care for which a declarant or a third-party payor is unable or refuses to
274 ensure payment.

275 37-11-13.

276 (a) Each provider, facility, or any other person who acts in good faith reliance on any
277 instructions contained in a directive or on any direction or decision by a mental health care
278 agent shall be protected and released to the same extent as though such person had
279 interacted directly with a capable declarant.

280 (b) Without limiting the generality of the provisions of subsection (a) of this Code section,
281 the following specific provisions shall also govern, protect, and validate the acts of a
282 mental health care agent and each such provider, facility, and any other person acting in
283 good faith reliance on such instruction, direction, or decision:

284 (1) No provider, facility, or person shall be subject to civil liability, criminal prosecution,
285 or discipline for unprofessional conduct solely for complying with any instructions
286 contained in a directive or with any direction or decision by a mental health care agent,
287 even if death or injury to the declarant ensues;

288 (2) No provider, facility, or person shall be subject to civil liability, criminal prosecution,
289 or discipline for unprofessional conduct solely for failure to comply with any instructions
290 contained in a directive or with any direction or decision by a mental health care agent,
291 so long as such provider, facility, or person informs such agent of its refusal or failure to
292 comply with the directive and continues to provide reasonably necessary consultation and
293 care in connection with a pending transfer;

294 (3) If the actions of a provider, facility, or person who fails to comply with any
295 instruction contained in a directive or with any direction or decision by a mental health

296 care agent are substantially in accord with reasonable medical standards at the time of
297 consent or refusal of mental health care and such provider, facility, or person cooperates
298 in the transfer of the declarant pursuant to subsection (d) of Code Section 37-11-12, such
299 provider, facility, or person shall not be subject to civil liability, criminal prosecution, or
300 discipline for unprofessional conduct for failure to comply with the psychiatric advance
301 directive;

302 (4) No mental health care agent who, in good faith, acts with due care for the benefit of
303 the declarant and in accordance with the terms of a directive, or who fails to act, shall be
304 subject to civil liability or criminal prosecution for such action or inaction;

305 (5) If the authority granted by a psychiatric advance directive is revoked under
306 Code Section 37-11-10, a provider, facility, or agent shall not be subject to criminal
307 prosecution or civil liability for acting in good faith reliance upon such psychiatric
308 advance directive unless such provider, facility, or agent had actual knowledge of the
309 revocation; and

310 (6) In the event a declarant has appointed a health care agent in accordance with Chapter
311 32 of Title 31, no provider, facility, or person who relies in good faith on the direction of
312 such health care agent shall be subject to civil liability, criminal prosecution, or discipline
313 for unprofessional conduct for complying with any direction or decision of such health
314 care agent in the event the declarant's condition is subsequently determined to be a mental
315 health care condition.

316 37-11-14.

317 A law enforcement officer who uses a declarant's valid psychiatric advance directive and
318 acts in good faith reliance on the instructions contained in such directive shall not be
319 subject to criminal prosecution or civil liability for any harm to such declarant that results
320 from a good faith effort to follow such directive's instructions.

321 37-11-15.

322 (a) The provisions of this chapter shall not apply to or invalidate a valid psychiatric
 323 advance directive executed prior to July 1, 2021.

324 (b) The use of the form set forth in Code Section 37-11-16 or a similar form after July 1,
 325 2021, in the creation of a psychiatric advance directive shall be deemed lawful and, when
 326 such form is used and it meets the requirements of this chapter, it shall be construed in
 327 accordance with the provisions of this chapter.

328 (c) Any person may use another form for a psychiatric advance directive so long as the
 329 form is substantially similar to, otherwise complies with the provisions of this chapter, and
 330 provides notice to a declarant substantially similar to that contained in the form set forth
 331 in Code Section 37-11-16. As used in this subsection, the term 'substantially similar' may
 332 include forms from other states.

333 37-11-16.

334 **'GEORGIA PSYCHIATRIC ADVANCE DIRECTIVE**

335 By: _____ Date of Birth: _____
 336 (Print Name) (Month/Day/Year)

337 *As used in this psychiatric advance directive, the term:*

338 (1) "Facility" means a hospital, skilled nursing facility, hospice, institution, home,
 339 residential or nursing facility, treatment facility, and any other facility or service which
 340 has a valid permit or provisional permit issued under Chapter 7 of Title 31 of the Official
 341 Code of Georgia Annotated or which is licensed, accredited, or approved under the laws
 342 of any state, and includes hospitals operated by the United States government or by any
 343 state or subdivision thereof.

344 (2) "Provider" means any person administering mental health care who is licensed,
 345 certified, or otherwise authorized or permitted by law to administer mental health care

346 in the ordinary course of business or the practice of a profession, including, but not
347 limited to, professional counselors, psychologists, clinical social workers, and clinical
348 nurse specialists in psychiatric and mental health; a physician; or any person acting for
349 any such authorized person.

350 This psychiatric advance directive has four parts:

351 PART ONE STATEMENT OF INTENT AND TREATMENT PREFERENCES.

352 This part allows you to state your intention for this document and state
353 your mental health treatment preferences and consent if you have been
354 determined to be incapable of making informed decisions about your
355 mental health care. PART ONE will become effective only if you have
356 been determined in the opinion of a physician or licensed psychologist
357 who has personally examined you, or in the opinion of a court, to lack
358 the capacity to understand the risks and benefits of, and the
359 alternatives to, a mental health care decision under consideration and
360 you are unable to give or communicate rational reasons for mental
361 health care decisions because of impaired thinking, impaired ability
362 to receive and evaluate information, or other cognitive disability.
363 Reasonable and appropriate efforts will be made to communicate with
364 you about your mental health treatment preferences before PART ONE
365 becomes effective. You should talk to your family and others close to
366 you about your intentions and mental health treatment preferences.

367 PART TWO MENTAL HEALTH CARE AGENT. This part allows you to choose
368 someone to make mental health care decisions for you when you
369 cannot make mental health care decisions for yourself. The person you
370 choose is called a mental health care agent. You should talk to your

371 mental health care agent about this important role.

372 PART THREE OTHER RELATED ISSUES. This part allows you to give important
373 information to people who may be involved with you during a mental
374 health care crisis.

375 PART FOUR EFFECTIVENESS AND SIGNATURES. This part requires your
376 signature and the signatures of two witnesses. You must complete
377 PART FOUR if you have filled out any other part of this form.

378 You may fill out any or all of the first three parts listed above. You must fill out PART
379 FOUR of this form in order for this form to be effective.

380 You should give a copy of this completed form to people who might need it, such as your
381 mental health care agent, your family, and your physician. Keep a copy of this completed
382 form at home in a place where it can easily be found if it is needed. Review this completed
383 form periodically to make sure it still reflects your preferences. If your preferences
384 change, complete a new psychiatric advance directive.

385 Using this form of psychiatric advance directive is completely optional. Other forms of
386 psychiatric advance directives may be used in Georgia.

387 You may revoke this completed form at any time that you are capable of making informed
388 decisions about your mental health care. If you choose to revoke this form, you should
389 communicate your revocation to your providers, your agents, and any other person to
390 whom you have given a copy of this form. This completed form will supersede any advance
391 directive for health care, durable power of attorney for health care, health care proxy, or

392 living will that you have completed before completing this form to the extent that such other

395 **PART ONE: STATEMENT OF INTENT**
 396 **AND TREATMENT PREFERENCES**

397 [PART ONE will become effective only if you have been determined in the opinion of a
 398 physician or licensed psychologist who has personally examined you, or in the opinion of

412 **(1) STATEMENT OF INTENT**

413 I, (your name) _____, being of sound mind, willfully and

 415 my informed choices and consent regarding my mental health care in the event I become

416 incapable of making informed decisions on my own behalf. I understand this document
417 becomes effective if it is determined by a physician or licensed psychologist who has

426 that is medically indicated and consistent with the preferences I have expressed in this
427 document.

439 decisions for me, I intend this document to take precedence over all other means of
440 determining my intent while I was competent.

441 It is my intent that a person or facility involved in my care shall not be civilly liable or

642 **(8) GENERAL POWERS OF MENTAL HEALTH CARE AGENT**

643 My mental health care agent will make mental health care decisions for me when I have
 644 been determined in the opinion of a physician or licensed psychologist who has
 645 personally examined me, or in the opinion of a court, to lack the capacity to understand
 646 the risks and benefits of, and the alternatives to, a mental health care treatment decision
 647 under consideration and I am unable to give or communicate rational reasons for my
 648 mental health care decisions because of impaired thinking, impaired ability to receive and
 649 evaluate information, or other cognitive disability.

650 My mental health care agent will have the same authority to make any mental health care
 651 decision that I could make. My mental health care agent's authority includes, for
 652 example, the power to:

- 653 •Request and consent to admission or discharge from any facility;
- 654 •Request, consent to, authorize, or withdraw consent to any type of provider or mental
 655 health care that is consistent with my instructions in PART ONE of this form and
 656 subject to the limitations set forth in Section (4) of PART ONE; and
- 657 •Contract for any health care facility or service for me, and to obligate me to pay for
 658 these services (and my mental health care agent will not be financially liable for any

661 or state law related to privacy of medical records (including the Health Insurance
662 Portability and Accountability Act of 1996) and will have the same access to my medical
663 records that I have and can disclose the contents of my medical records to others for my
664 ongoing mental health care.

667 health care agent may visit or consult with me in person while I am in a facility if its
668 protocol permits visitation.

669 My mental health care agent may present a copy of this psychiatric advance directive in
670 lieu of the original, and the copy will have the same meaning and effect as the original.

671 I understand that under Georgia law:

- 672 •My mental health care agent may refuse to act as my mental health care agent; and
- 673 •A court can take away the powers of my mental health care agent if it finds that my
- 674 mental health care agent is not acting in accordance with this directive.

675 **(9) GUIDANCE FOR MENTAL HEALTH CARE AGENT**

676 In the event my directive is being used, my agent should first look at my instructions as
677 expressed in PART ONE. If a situation occurs for which I have not expressed a
678 preference, or in the event my preference is not available, my mental health care agent
679 should think about what action would be consistent with past conversations we have had,
680 my treatment preferences as expressed in PART ONE, my religious and other beliefs and
681 values, and how I have handled medical and other important issues in the past. If what
682 I would decide is still unclear, then my mental health care agent should make decisions

683 for me that my mental health care agent believes are in my best interests, considering the
684 benefits, burdens, and risks of my current circumstances and treatment options.

685 I impose the following limitations on my agent's authority to act on my behalf:

686 _____
687 _____
688 _____
