116 pursuant to this Code section shall be subject to the same penalties as provided under Code 117 Section 48-7-61 for unlawful divulgence of confidential tax information. 118 10-1-222. 119 (a) All electric vehicle charging stations shall be capable of accurately measuring and 120 prominently displaying upon the station or on a digital network the amount of electricity 121 delivered to each electric vehicle on a per kilowatt-hour basis. Such stations shall be 122 further equipped with meters to record the total kilowatt-hours dispensed. 123 (b) All electric vehicle charging stations shall be subject to inspection as provided for in 124 this article. Prior to operation of any electric vehicle charging station and annually thereafter, an electric vehicle charging provider shall register with the Commissioner in the 125 form and manner prescribed by such Commissioner. Such registration shall include the 126 127 location of the electric vehicle charging station; the name, brand, or manufacturer of the 128 type of electric vehicle charging station, together with the name and address thereof; and 129 certification that the electric vehicle charging station is in conformity with the 130 specifications established pursuant to this article by the Commissioner. Certificates of 131 registration issued by the Commissioner pursuant to this Code section shall be posted in 132 a prominent and accessible place upon the electric vehicle charging station. 133 10-1-223. 134 Whenever the Commissioner shall find any person willfully marketing the delivery of 135 electricity for use in electric vehicles in violation of the laws of this state, of prescribed 136 specifications of this article, or rules and regulations promulgated pursuant to this article, 137 the Commissioner shall be authorized to apply to the superior court having jurisdiction over the offender for an injunction against the continuance of any such violations. (b) All electric vehicle charging stations found to be giving accurate measure of the
 amount of electricity delivered within the tolerance established by regulations of the

148 applied by an inspector duly authorized by the Commissioner.

149 (c) If any electric vehicle charging station shall be found to be giving inaccurate measure of the amount of electricity delivered in excess of the tolerance established by regulations 150 151 of the Commissioner, the inspector shall then and there notify the electric vehicle charging provider, whether owner or lessee. Should the electric vehicle charging provider fail or 152 153 refuse to then and there make such adjustments as shall be necessary to bring the measure 154 within the allowed variation, the same shall be condemned and rendered inoperable 155 immediately by the inspector examining the same; and such electric vehicle charging 156 station shall not again be operated without the written consent of the Commissioner. 157 Inspectors shall be required to report to the Commissioner immediately the name and 158 number of any electric vehicle charging station condemned and rendered inoperable. 159 (d) When any electric vehicle charging station is condemned under this article by any inspector, it shall be the duty of the inspector immediately to make affidavit before the 160 161 judge of the probate court of the county in which the electric vehicle charging station is 162 located that such station is being operated contrary to law by the electric vehicle charging provider who shall be named in the affidavit. Thereupon the judge of the probate court 163 shall issue an order to the electric vehicle charging provider named in the affidavit to show 164

165 cause before him or her on the day named in the order, not more than ten days nor fewer

166 than three days from the issuance of the order, why the electric vehicle charging station 167 should not be forfeited, confiscated to the state, and dismantled. On such day named in the 168 order, it shall be the duty of the judge of the probate court to hear the respective parties and 169 to determine whether or not the electric vehicle charging station has been operated contrary to the provisions of this article. If the judge of the probate court finds that the electric 170 vehicle charging station has been so operated, he or she shall forthwith issue an order 171 adjudging the electric vehicle charging station to be forfeited and confiscated to the state 172 173 and directing the sheriff of the county to dismantle the electric vehicle charging station and 174 take it into his or her possession, and, after ten days' notice by posting or publication, as 175 the court may direct, to sell the electric vehicle charging station to the highest bidder for cash. The proceeds of sale, or as much thereof as may be necessary, shall be used by the 176 177 sheriff, first, to pay the costs associated with sale, which shall be the same as in cases of 178 attachment, and the sheriff shall thereupon pay over and deliver the residue, if any, to the 179 person from whose possession the electric vehicle charging station has been taken. 180 (e) It shall be unlawful to install or operate any electric vehicle charging station which can be secretly manipulated in such manner as to give short measure. Such inaccurate electric 181 182 vehicle charging station shall be condemned as provided in this Code section, and 183 thereafter it shall be unlawful for any person to resell any electricity from such electric 184 vehicle charging station until such station has been made or altered to comply with this 185 article and has been inspected and approved for service by the inspector. 186 (f) It shall be unlawful for anyone to remove a seal applied by an inspector to an electric 187 vehicle charging station without first securing consent of the Commissioner, whose consent 188 may be given through one of the duly authorized inspectors. 189 (g) The department shall have the power to implement rules and regulations necessary to

| 193 | (a) Any sign or placard or other means used to advertise the price of electricity for sale at   |
| 194 | retail through an electric vehicle charging station may contain a separate listing of the price |
| 195 | and a separate listing of each tax thereon, but must contain a total of such price and taxes    |
| 196 | which shall be at least as large as the listing of the price or any tax thereon. Numbers used   |
| 197 | to advertise the total price of such electricity shall be of uniform size; and, where fractions |
| 198 | are used, the numerator and denominator thereof combined shall be of the same size as any       |

| 200 | fractions; but, if one is not used, the numerator must be at least half the size of the whole   |
| 201 | number used. When the price of electricity for sale at retail through an electric vehicle       |
| 202 | charging station is advertised on any sign, billboard, placard, or other advertising medium,    |

| 207 | (b) It shall be unlawful for any electric vehicle charging provider to advertise upon the       |
| 208 | purchase of electricity either free:  |
| 209 | (1) Gifts or other products unless such provider has sufficient number of gifts or products     |

| 211 | limitation of quantity; or  |
| 212 | (2) Car washes or other services unless such provider is prepared, in the absence of            |
| 213 | causes beyond the reasonable control of the offerer, to perform such car washes or the          |
| 214 | services advertised at the time of the purchase at such provider's place of business or at      |
| 215 | a place of business affiliated by trademark or agreement with such provider. If the free        |
| 216 | car washes or other services advertised are to be performed at a place of business              |
| 217 | affiliated by trademark or agreement but in a separate location, such fact shall be so stated   |
| 218 | on the sign, billboard, placard, or other advertising medium used.                              |
