15 due to extended response times; and

16 WHEREAS, SFC Hogan utilized crash data analytics from SmartData to examine crash  
17 trends in Carroll and Douglas counties and collaborated with local agency leadership to  
18 develop a comprehensive solution that would increase public safety and improve interagency  
19 response; and

20 WHEREAS, Post 4's NCO staff implemented a modified schedule that strategically increased  
21 the number of working Troopers during peak crash and fatality periods, allowing for  
22 enhanced crash response and more equitable distribution of call volume among Troopers; and

23 WHEREAS, as a direct result of the modified schedule, Post 4 saw a 26 percent increase in  
24 Trooper presence during peak weekdays; a 35 percent increase in crashes investigated; a 71  
25 percent decrease in call cancellations by local agencies; significant increases in traffic stops,  
26 citations, and warnings; and a 22 percent decrease in crash fatalities; and

27 WHEREAS, through effective interagency collaboration and community support, Post 4 has  
28 additionally secured local donations to equip most of its personnel with PepperBall launchers  
29 and ensured that each Post in Troop D has at least one Trooper equipped with this non-lethal  
30 option to enhance officer safety and de-escalation efforts; and

31 WHEREAS, Post 4 is known for its strong relationships with surrounding law enforcement  
32 agencies and is frequently called upon due to the reliability, professionalism, and high
