By: Senators Parent of the 42nd, Martin of the 9th, Ligon, Jr. of the 3rd, Sims of the 12th and Wilkinson of the 50th

**ADOPTED SENATE**

## A RESOLUTION

1 Creating the Senate Study Committee on Digital Education and Screen Time in Georgia  
2 Public Schools; and for other purposes.

3 WHEREAS, creators of education-technology products are increasingly marketing  
4 digital-education platforms, including video-gaming platforms, for use in K-12 education;  
5 and

6 WHEREAS, Georgia law currently "strongly encourages" local boards of education, on or  
7 after July 1, 2020, to purchase all instructional materials and content in digital or electronic  
8 format and to provide a laptop, tablet, or other wireless electronic device to every student in  
9 grades three or higher for those students to use "as the principal source of reading or  
10 accessing instructional materials and content" (Code Section 20-2-1015 of the Official Code  
11 of Georgia Annotated); and

12 WHEREAS, because "digital education" is a relatively new phenomenon, there has been a  
13 lack of peer-reviewed research about its academic effectiveness and its effects on student  
14 users; and

15 WHEREAS, such research is now being published; and

16 WHEREAS, educators are now gaining more classroom experience with digital education  
17 and its effects and effectiveness; and

18 WHEREAS, increased use of technology in the classroom raises questions regarding the  
19 physical, psychological, and educational effects on the student users; and

20 WHEREAS, use of digital software in the classroom creates questions concerning data  
21 collection, data-privacy policies, and parental access to curricula; and

22 WHEREAS, providing laptops, tablets, or other wireless electronic devices to students raises  
23 issues of cost, maintenance, and possible unauthorized use of these devices; and

24 WHEREAS, to evaluate the best policy regarding digital education in Georgia public  
25 schools, it would be beneficial to: (1) review the research relevant to digital education; (2)  
26 hear testimony from experts in the field on the effects of increased digital education and  
27 screen time on children; (3) analyze issues of data privacy related to digital education; (4)  
28 hear testimony from classroom teachers about the advantages and disadvantages of digital  
29 education; (5) hear testimony from parents about their experience with digital education; and  
30 (6) make recommendations to the President Pro Tempore of the Senate, the State Board of  
31 Education, the State School Superintendent, the Governor, and local boards of education  
32 based on such investigation to ensure that all Georgia education policy operates to the benefit  
33 of students and their families.
