TESTIMONY OF SHARON HURD
CHAIRPERSON, BOARD OF AGRICULTURE

BEFORE THE SENATE COMMITTEE ON WAYS AND MEANS

WEDNESDAY, FEBRUARY 12, 2025
10:01 AM
CONFERENCE ROOM 211

SENATE BILL NO. 693, SD1
RELATING TO THE FOOD HUB PILOT PROGRAM

Chair Dela Cruz, Vice Chair Moriwaki and Members of the Committee:

Thank you for the opportunity to testify on Senate Bill 693, SD1. This bill seeks to appropriate funds for the continued implementation of the Food Hub Pilot Program. The Department of Agriculture (Department) fully supports this initiative.

The Department recognizes that food hubs are a vital link in the supply chain, facilitating the distribution of locally grown food to consumers and institutions of the State. Food hubs allow farmers to scale up and consider new crops that the hubs find are in demand and in short supply. Food hubs also serve as "back-up" infrastructure for the food system with middle-of-the-supply chain equipment at their facilities. Equipment for washing, refrigeration, packaging, and delivery are services the food hubs provide that is basic to the farm to consumer supply chain. This bill provides funding that will address the challenges the food hubs have to implement plans to expand their operations. The bill is a vehicle for food hubs to be able to connect with larger buyers of safe, minimally processed, and locally grown fresh fruits and vegetables.

Under Act 313, the Department received 27 submissions and following a competitive Request for Proposal process that concluded in May 2023, awarded funding for six projects, totaling \$1.35 million, of which \$672,000 has been invoiced and paid. The food hubs supported by Act 313 funding:

- Adaptations, Inc., Hawai'i Island - \$242,515.20;
- Alternative Structures International, Oahu - \$201,104.00;
- Elepaio Social Services, Oahu - \$250,000.00;
- Hawaii Institute of Pacific Agriculture, Hawai'i Island (Kohala Food Hub) - \$203,213.46;
- Papa'aloa Country Store and Café Food Hub, Hawai'i Island - \$203,213.46; and
- Sustainable Molokai, Molokai - \$249,953.88.

A project to purchase two delivery vehicles and add a delivery driver for cold-storage transportation realized net results of adding 15 new farmers to the hub, increasing sales to a local hospital by over 50%, and reports total annual sales from the food hub operations as \$2.5 million.

Another takeaway from Act 313 is that there are 21 proposals from food hubs across the state that are seeking resources for their operations to support farmers across the state. This bill would provide the needed resources.

Thank you for the opportunity to testify on this measure.

HEARING BEFORE THE
SENATE COMMITTEE ON WAYS AND MEANS

WEDNESDAY, February 12, 2025
10:01 AM
CONFERENCE ROOM 211

TESTIMONY ON SB 693 SD1
Relating to the Food Hub Pilot Program

Aloha Chair Dela Cruz, Vice Chair Moriwaki and Members of the Committee,

I am Benson Medina, Director of the Department of Research and Development, County of Hawai'i. One of the agricultural objectives of this department is to "support collaboration, innovation, resource development, and programmatic sustainability throughout the food system to reduce food waste, improve producer viability and resilience, develop workforce development pathways, or increase access to locally produced food among low-income residents."

The County of Hawai'i provides written testimony in **SUPPORT of SB693 SD1**, to appropriate funds for the continued implementation of the Food Hub Pilot Program.

The State of Hawai'i aims to at least double local food production, with a goal of 20-30% of food consumed is grown locally ([Aloha+ Challenge](#)). However, gaps in production, aggregation, and processing of agricultural products limit the productivity and growth of Hawai'i agriculture ([Office of Planning](#), 2012; [Hāmākua Institute](#), 2021).

Data from the previous Food Hub Pilot Program shows the ability of community organizations to utilize funding to meet middle of the supply chain agricultural needs. 27 proposals were received in 2023, requesting a total of \$6,218,019. Six proposals were accepted and funded with a total of \$1,350,000 dispersed, leaving a remaining need of approximately \$4.9M ([HDOA 2023 Annual Report](#)).

A survey of 14 food hubs across Hawai'i in 2024 found that fundraising was the top challenge ([Hawai'i Food Hub Hui](#), 2024). The highest construction priorities for food hubs across Hawai'i are expanded cold chain abilities, updated facilities, new commercial kitchen capacity and renewable energy systems ([Hawai'i Food Hub Hui](#), 2024). The continued implementation of the Food Hub Pilot Program provides strategic capital access throughout the agricultural value chain, enabling agricultural businesses

February 10, 2025

Page 2

to leverage private and federal funding avenues to amplify impact and address agriculture and food systems bottlenecks.

Thank you for championing agriculture in Hawai'i and for the opportunity to provide testimony in **SUPPORT of SB693 SD1**.

Respectfully,

Benson Medina
Director, Research and Development
County of Hawai'i

STATE OF HAWAII
SENATE COMMITTEE ON WAYS AND MEANS

**TESTIMONY ON SENATE BILL NO. 693
RELATING TO THE FOOD HUB HUI PROGRAM
BY
AMY ASSELBAYE
EXECUTIVE DIRECTOR
OFFICE OF ECONOMIC REVITALIZATION**

Chair Dela Cruz, Vice Chair Moriwaki, and Members of the Committee,

The City and County of Honolulu's Office of Economic Revitalization (OER) supports SB 693, Relating to the Food Hub Hui Program, which appropriates funds for the continued implementation of the Food Hub Pilot Program.

OER recognizes the vital role food hubs play in the local food system, by facilitating the distribution of locally grown food, supporting local farmers and producers, and helping to move the County and State towards reaching our goals for more local food production and purchasing. Food hubs provide employment and job training opportunities and can be a life line during a disaster because of their middle-of-the-supply-chain equipment and infrastructure. There are many challenges food hubs face such as expensive infrastructure needs, competitive pricing because of the plethora of imported foods, and the ability to access certain markets. This bill provides funding that will address the challenges the food hubs have to implement plans to expand their operations and is a vehicle to be able to connect with larger buyers of safe, minimally processed, and locally grown fresh fruits and vegetables.

OER's Sustainable Agriculture and Food Systems Program mission shares the goals of SB 693 of increasing access to local foods, reducing financial barriers for food hubs, and building a stronger and more resilient local food system. Thank you for the opportunity to provide testimony on SB 693.

**Testimony to the Senate Committee on Ways and Means
Wednesday, February 12, 2025; 10:01 a.m.
State Capital, Conference Room 211
Via Videoconference**

RE: SENATE BILL NO. 0693, SENATE DRAFT 1, RELATING TO THE FOOD HUB PILOT PROGRAM.

Chair Dela Cruz, Vice Chair Moriwaki, and Members of the Committee:

The Hawaii Primary Care Association (HPCA) is a 501(c)(3) organization established to advocate for, expand access to, and sustain high quality care through the statewide network of Community Health Centers throughout the State of Hawaii. The HPCA **SUPPORTS** Senate Bill No. 693, Senate Draft 1, RELATING TO THE FOOD HUB PILOT PROGRAM.

By way of background, the HPCA represents Hawaii's Federally Qualified Health Centers (FQHCs). FQHCs provide desperately needed medical services at the frontlines to over 150,000 patients each year who live in rural and underserved communities. Long considered champions for creating a more sustainable, integrated, and wellness-oriented system of health, FQHCs provide a more efficient, more effective and more comprehensive system of healthcare.

The measure, as received by your Committee, would appropriate an unspecified amount of general funds for fiscal year 2025-2026, and the same amount for fiscal year 2026-2027, for the continued implementation of the Food Hub Pilot Program established pursuant to Act 313, Session Laws of Hawaii 2022. In addition, this measure would allow the awarding of grant moneys to qualifying food hubs.

The bill would take effect on July 1, 2050.

During the Regular Session of 2021, the HPCA appeared before this Committee to urge favorable consideration of the Food Hub Pilot Program. [See, Testimony from the Hawaii Primary Care Association to the Senate Committee on Agriculture and Environment on Senate Bill No. 0338, dated February 5, 2021.]. In our remarks, we stated:

". . . The COVID-19 pandemic has severely threatened the health and welfare of our citizens, especially Hawaii's underprivileged and rural

communities. With so many people unemployed, entire families are struggling to put food on the table on a consistent basis. All one needs to do is visit one of our member FQHCs food distribution events and see the line of cars stretch for miles and people wait for hours to receive some surplus food. It is shocking yet uplifting to see that people do care for their fellow citizens. . ."

While COVID-19 no longer is the threat it was back then, the need continues to exist because of the rising cost of food, inflation, and stagnant wages. Citizens continue to wait in line for surplus food and look for ways of stretching limited resources to put food on the table.

This bill would provide the Food Hub Pilot Program with the necessary resources to continue to feed our citizens. It would also provide the Program with the necessary flexibility to utilize resources in the most efficient and effective ways possible.

For these reasons, the HPCA respectfully requests your favorable consideration of this measure.

Thank you for the opportunity to testify. Should you have any questions, please do not hesitate to contact Public Affairs and Policy Director Erik K. Abe at 536-8442, or eabe@hawaiiipca.net.

Wednesday, February 12, 2025; 10:01 AM
Conference Room 211 & Video Conference

Senate Committee on Ways and Means

To: Senator Donovan Dela Cruz, Chair
Senator Sharon Moriwaki, Vice Chair

From: Michael Robinson
Vice President, Government Relations & Community Affairs

**Re: SB 693, SD1 – Testimony In Support
Relating to the Food Hub Program**

My name is Michael Robinson, and I am the Vice President of Government Relations & Community Affairs at Hawai'i Pacific Health. Hawai'i Pacific Health is a not-for-profit health care system comprised of its four medical centers – Kapi'olani, Pali Momi, Straub and Wilcox and over 70 locations statewide with a mission of creating a healthier Hawai'i.

I am writing in SUPPORT of SB 693, SD1 which appropriates funds for the continued implementation of the Food Hub pilot program, including grant moneys to qualifying food hubs.

The State's food security may be strengthened by growing more food locally and increasing access to local food. Establishing food hubs, which are centrally located facilities having a business management structure that facilitates aggregation, storage, processing, distribution, and marketing of locally produced food products may be a means by which to foster interest in locally grown foods and make them more available to consumers. The majority of the farms in Hawai'i are small operations that struggle to bring their products to market. Food hubs provide wider access to institutional and retail markets for small to mid-sized producers, and increase consumers' access to fresh healthy food, including those consumers in underserved areas.

HPH has a goal of sourcing 50% of its food purchases of protein and agriculture at each of its facilities from local suppliers in an effort to support local food systems. Food Hubs are a vital component of the success of an initiative of this scale. Food hubs have the potential provide an alternative method to assure quality and assist purchasing with local agricultural producers. Providing greater access to local foods improves food security and strengthens our agricultural industry.

Thank you for the opportunity to testify.

February 12, 2025

HEARING BEFORE THE
SENATE COMMITTEE ON WAYS AND MEANS

TESTIMONY ON SB 693, SD1
RELATING TO THE FOOD HUB PILOT PROGRAM

Conference Room 211 & Videoconference
10:01 AM

Aloha Chair Dela Cruz, Vice-Chair Moriwaki, and Members of the Committees:

I am Brian Miyamoto, Executive Director of the Hawai'i Farm Bureau (HFB). Organized since 1948, the HFB is comprised of 1,800 farm family members statewide and serves as Hawai'i's voice of agriculture to protect, advocate, and advance the social, economic, and educational interests of our diverse agricultural community.

The Hawai'i Farm Bureau supports SB 693, SD1, which appropriates funds for the continued implementation of the Food Hub Pilot Program.

Small farmers typically lack access to facilities and infrastructure to aggregate, process, and distribute products to local consumers. The challenge for small growers is also complicated by stringent regulations of the Food Safety Modernization Act (FSMA), which jeopardize the ongoing viability of many small growers due to the costs of compliance.

In Hawai'i, additional challenges to small farmers include high land, labor, and energy costs and limited water supply for irrigation. Food hubs are an essential subset of food value chains. Many farmers and ranchers, especially small-sized operations, often lack the capacity to access retail, institutional, and commercial food service markets on their own and consequently miss out on the fastest-growing segment of the local food market. By offering a combination of aggregation, distribution, food safety, and marketing services at an affordable price, food hubs make it possible for many producers to gain entry into new larger-volume markets that boost their income and provide them with opportunities for scaling up production.

Thank you for this opportunity to testify on this measure.

Aloha Chair Dela Cruz, Vice Chair Moriwaki, and Members of the Senate Ways and Means Committee,

The Hawai'i Farmers Union is a 501(c)(5) agricultural advocacy nonprofit representing a network of over 2,500 family farmers and their supporters across the Hawaiian Islands. **HFU supports SB693.**

The Food Hub Pilot Program strengthens Hawaii's food security by helping local farmers connect their produce to markets through food hubs. Food Hubs provide essential services for small and medium-sized farms, including storage, processing, and distribution of local produce.

Hawaii's hubs have been particularly effective in expanding food access for low-income families. Their SNAP and Double Up Food Bucks sales reached \$1.6 million in 2023, ensuring fresh local foods reach families who need them most. Food hubs also respond quickly to community needs, as demonstrated by their vital role in providing emergency food aid during the Maui fires.

Food hubs often face financial challenges when expanding their operations, making continued funding through SB693 essential. The program does more than just improve market access - it builds a stronger local food system. Supporting food hubs helps reduce Hawaii's dependence on imported food while promoting environmental sustainability and growing the agricultural economy.

Mahalo for the opportunity to testify.

Hunter Heavilin

Aloha Chair Dela Cruz, Vice Chair Moriwaki and Members of the Committee,

My name is Susan RobertsEmery, I am Co-chair of the Green Party of Hawai'i. The Green Party of Hawai'i offers our support, and we ask for your support of SB693. Support for the initial pilot food hubs program has been instrumental in helping emerging food hubs establish business operations in Hawai'i. I work for a small farm that offers locally grown food to our community and our Island. Support for food hubs promotes the production of culturally appropriate, nutritious foods while also growing our local food economy. Further, more food hubs can provide greater food system equity, providing access to healthy food in local "food deserts". Please support SB693.

Aloha Chair Dela Cruz, Vice Chair Moriwaki and Members of the Committee,

Please support SB693. Support for the initial pilot food hubs program has been instrumental in helping emerging food hubs establish business operations in Hawai‘i. Food hubs provide necessary aggregation of produce for small farmers to help bring produce to market. Support for food hubs promotes the production of culturally appropriate, nutritious foods while also growing our local food economy. Further, more food hubs can provide greater food system equity, providing access to healthy food in local “food deserts”. Please support SB693.

Mahalo for your consideration!

Kencho, Hilo
