Second Regular Session - 2016

IN THE HOUSE OF REPRESENTATIVES

HOUSE CONCURRENT RESOLUTION NO. 34

BY HEALTH AND WELFARE COMMITTEE

7\	CONCURRE	иш рьс	\cap T TITT T \cap NI

STATING FINDINGS OF THE LEGISLATURE AND RECOGNIZING COMMUNITY WATER FLUORI-DATION AS A GREAT PUBLIC HEALTH ACHIEVEMENT.

Be It Resolved by the Legislature of the State of Idaho:

WHEREAS, fluoridation of community water supplies is the single most effective public health measure to prevent tooth decay; and

WHEREAS, the Centers for Disease Control and Prevention has proclaimed community water fluoridation as one of the ten great public health achievements of the twentieth century; and

WHEREAS, studies prove water fluoridation continues to be effective in reducing dental decay by at least twenty-five percent in children and adults, even in the era of widespread availability of fluoride from other sources, such as fluoride toothpaste; and

WHEREAS, water fluoridation has been improving the health of American communities for over seventy years.

NOW, THEREFORE, BE IT RESOLVED by the members of the Second Regular Session of the Sixty-third Idaho Legislature, the House of Representatives and the Senate concurring therein, that the Idaho Legislature recognizes community water fluoridation as a vitally important public health initiative.
