5 Be It Enacted by the Legislature of the State of Idaho:

6 SECTION 1. That Section 42-2201, Idaho Code, be, and the same is hereby
7 amended to read as follows:

8 42-2201. MAINTENANCE CHARGES -- RIGHT TO COLLECT -- BASIS OF ASSESS-
9 MENT -- LIEN. Any corporation heretofore organized or any corporation that
10 shall hereafter be organized for the operation, control or management of an
11 irrigation project or canal system, or for the purpose of furnishing water
12 to its shareholders, and not for profit or hire, the control of which is ac-
13 tually vested in those entitled to the use of the water from such irrigation
14 works for the irrigation of the lands to which the water from such irriga-
15 tion works is appurtenant, shall have the right to levy and collect from the
16 holders or owners of all land to which the water and water rights belonging
17 to or diverted by said irrigation works are dedicated or appurtenant regard-
18 less of whether water is used by such owner or holder, or on or for his land;
19 and also from the holders or owners of all other land who have contracted with
20 such company, corporation or association of persons to furnish water on such
21 lands, regardless of whether such water is used or not from said irrigation
22 works, reasonable administrative charges, tolls, assessments and charges
23 for the purpose of maintaining and operating such irrigation works and con-
24 ducting the business of such company, corporation or association and meet-
25 ing the obligations thereof, which tolls, assessments and charges shall, af-
26 ter projecting the revenue to be derived from an administrative charge of not
27 to exceed ~~ten~~ fifty dollars (\$150.00) to be levied against each holder of a
28 stock certificate of the company:

29 (1) Be equally and ratably levied and may be based upon the number of
30 shares or water rights held or owned by the owner of such land as appurtenant
31 thereto; or

32 (2) May be based upon the amount of water used or said tolls, assess-
33 ments and charges may be based on:

34 (a) A combination of a charge of a fixed amount per share for annual op-
35 eration and maintenance and a charge for a fixed minimum amount of water
36 per share, whether used or not, plus an additional charge based on the
37 estimated amount of water to be delivered over the minimum, as requested
38 by the farmer, including the energy costs of said excess delivery; or

39 (b) A combination of a charge for energy costs, based on the amount of
40 water delivered, and a separate charge for all other operation and main-
41 tenance costs, based on the number of shares or water rights; or
