FISCAL IMPACT STATEMENT

LS 7312

BILL NUMBER: HB 1270

NOTE PREPARED: Jan 5, 2021

BILL AMENDED:

SUBJECT: Department of Homeland Security.

FIRST AUTHOR: Rep. Frye R

FIRST SPONSOR:

BILL STATUS: As Introduced

FUNDS AFFECTED: GENERAL
 DEDICATED
 FEDERAL

IMPACT: State & Local

Summary of Legislation: This bill amends the Administrative Orders and Procedures Act to allow for an initial notice of determination to be served by electronic mail or any other method approved by the Indiana Rules of Trial Procedure. (Under current law, the initial notice of determination may be served only by United States mail or personal service.)

The bill repeals provisions concerning the Division of Planning and Assessment, Division of Preparedness and Training, Division of Emergency Response and Recovery, and Division of Fire and Building Safety. It also assigns all duties of the divisions to the executive director of the Department of Homeland Security (DHS) or the DHS generally.

The bill establishes a fire chief executive training program. It also provides that after January 1, 2022, a newly appointed fire chief of a political subdivision must successfully complete the executive training program within one year of appointment.

It makes corresponding changes and technical corrections.

Effective Date: July 1, 2021.

Explanation of State Expenditures: *Fire Chief Executive Training Program* – This bill establishes an executive training program for fire chief executives. No such program currently exists, and the development and implementation of the program constitutes an increase in workload on the part of DHS. Training will be funded through the Regional Public Safety Training Fund, which receives the majority of its funds from Firework Public Safety Fees.

Notices of Determination – This expands the allowable means of providing notices of determination to include electronic mail. This will reduce expenditures associated with providing notices, which currently must be sent via the U.S. Postal service or served in person.

Assignment of Responsibilities – This bill reassigns certain statutory responsibilities from specific divisions of DHS to the executive director. This will allow greater flexibility in the distribution of work load across DHS and may allow for increased efficiency in the future. Depending on administrative actions, these provisions may lead to a decrease in overall workload, an increase in productivity, or both.

Additional Information: The training requirements of this bill are similar to existing requirements for police chiefs and some programs of instruction from that training, which is conducted through the Indiana Law Enforcement Academy, may be suitable for use by DHS. This may reduce the costs in developing and implementing a program that meets the requirements of this bill.

Explanation of State Revenues:

Explanation of Local Expenditures: *Fire Chief Executive Training Program* – To the extent that in-person training is required to complete the program, local units may incur costs associated with travel, lodging and per diem. Because only the chiefs of full-time, professional departments are required to attend this training, volunteer fire departments will not see an increase in expenditures unless they choose to send new chiefs to this training.

Explanation of Local Revenues:

State Agencies Affected: Department of Homeland Security.

Local Agencies Affected: Fire departments.
