The average expenditure to house an adult offender in a DOC facility was \$21,551 annually, or \$59 daily, during FY 2020. (This does not include the cost of new construction.) If offenders can be housed in existing facilities with no additional staff, the marginal cost for medical care, food, and clothing is estimated at \$3,524 annually, or \$9.66 daily, per prisoner. These marginal cost estimates are based on contractual agreements with food and medical vendors and projections based on prior years for clothing and hygiene. The estimated average cost of housing a juvenile in a state juvenile facility was \$89,998 annually, or \$246.40 per day, in FY 2020. The marginal cost for juvenile facilities was \$3,969 annually or \$10.87 daily.
