The department may establish an account to be known as the "local government revolving account". The account is to be used to administer the federal-local highway construction program. All contracts issued and all funds received for federal-local projects under this program shall be entered into this account.

If the federal apportionments for the fiscal years covered by this act exceed the above estimated appropriations for the department or for local governments, the excess federal apportionment is hereby appropriated for use by the department with the approval of the governor and the budget agency.

The department shall bill, in a timely manner, the federal government for all department payments that are eligible for total or partial reimbursement.

The department may let contracts and enter into agreements for construction and preliminary engineering during each year of the 2015-2017 biennium that obligate not more than one-third (1/3) of the amount of state funds estimated by the department to be available for appropriation in the following year for formal contracts and consulting engineers for the capital improvements program.

Under IC 8-23-5-7(a), the department, with the approval of the governor, may construct and maintain roadside parks and highways where highways will connect any state highway now existing, or hereafter constructed, with any state park, state forest preserve, state game preserve, or the grounds of any state institution. There is appropriated to the department of transportation an amount sufficient to carry out the provisions of this paragraph. Under IC 8-23-5-7(d), such appropriations shall be made from the motor vehicle highway account before distribution to local units of government.

After review by the budget committee and approval by the budget agency, money appropriated to the department of transportation under this SECTION for any purpose may instead be expended by the department to carry out an agreement with the National Railroad Passenger Corporation (AMTRAK) to provide service in Indiana and to provide for the purchase of equipment.

#### LOCAL TECHNICAL ASSISTANCE AND RESEARCH

Under IC 8-14-1-3(6), there is appropriated to the department of transportation an amount sufficient for:

- 40 (1) the program of technical assistance under IC 8-23-2-5(6); and
- 41 (2) the research and highway extension program conducted for local government under IC 8-17-7-4.

The department shall develop an annual program of work for research and extension in cooperation with those units being served, listing the types of research and educational programs to be undertaken. The commissioner of the department of transportation may make a grant under this appropriation to the institution or agency selected to conduct the annual work program. Under IC 8-14-1-3(6), appropriations for the program of technical assistance and for the program of research and extension shall be taken

Total Operating Expense 2,403,792 2,403,792

1 2

The foregoing appropriations shall be distributed by the department of education on a monthly basis and in approximately equal payments to special education cooperatives, area career and technical education schools, and other governmental entities that received state teachers' Social Security distributions for certified education personnel (excluding the certified education personnel funded through federal grants) during the fiscal year beginning July 1, 1992, and ending June 30, 1993, and for the units under the Indiana state teacher's retirement fund, the amount they received during the 2002-2003 state fiscal year for teachers' retirement. If the total amount to be distributed is greater than the total appropriation, the department of education shall reduce each entity's distribution proportionately.

## DISTRIBUTION FOR TUITION SUPPORT

Total Operating Expense 6,825,432,000 6,892,348,000

The foregoing appropriations for distribution for tuition support are to be distributed for tuition support, complexity grants, full-day kindergarten, special education programs, career and technical education programs, charter school grant, honor grants, Mitch Daniels early graduation scholarships, and choice scholarships in accordance with a statute enacted for this purpose during the 2015 session of the general assembly.

If the above appropriations for distribution for tuition support are more than are required under this SECTION, any excess shall revert to the general fund.

The above appropriations for tuition support shall be made each fiscal year under a schedule set by the budget agency and approved by the governor. However, the schedule shall provide for at least twelve (12) payments, that one (1) payment shall be made at least every forty (40) days, and the aggregate of the payments in each fiscal year shall equal the amount required under the statute enacted for the purpose referred to above.

The above appropriation for tuition support includes an amount for the department of education to make a special distribution to each school corporation and charter school (other than a virtual charter school).

- 1 The department shall determine the amount of the distribution for each year as follows:
- 2 STEP ONE: Determine the total amount distributed in the year to all individuals
- for a scholarship under the choice scholarship program described in IC 20-51-4.
- 4 STEP TWO: Determine the total amount of state tuition support that all school
- 5 corporations and charter schools (other than virtual charter schools) would have
- 6 received in the year if those individuals who received a scholarship and who were
- 7 enrolled in a public school during the preceding two (2) semesters before first
- 8 receiving the scholarship had instead remained enrolled in public schools and had
- 9 not enrolled in private schools.
- 10 STEP THREE: Determine the result of:
- 11 (A) the STEP TWO result; minus
- 12 (B) the STEP ONE amount.
- 13 STEP FOUR: Determine each school corporation's percentage and each charter school's
- 14 (other than a virtual charter school) percentage of the total state tuition support
- that will be distributed to school corporations and charter schools (other than
- 16 virtual charter schools).
- 17 STEP FIVE: Multiply the result determined in STEP THREE by the school corporation's
- percentage or the charter school's (other than a virtual charter school) percentage
- 19 determined under STEP FOUR.

20 21

22

23

24

If the above appropriations are insufficient to make the full distribution under this provision, the amount each school corporation and charter school (other than a virtual charter school) receives shall be proportionately reduced. The special distributions may be made only after review by the state budget committee and approval by the budget agency.

If it is determined that the loss shall not be replaced, any funds received from the settlement of a claim shall be deposited into the state general fund.

This act does not authorize any rehabilitation and repairs to any state buildings, nor does it allow that any obligations be incurred for lands and structures, without the prior approval of the budget director or the director's designee. This SECTION does not apply to contracts for the state universities supported in whole or in part by state funds.

# **SECTION 23. [EFFECTIVE JULY 1, 2015]**

The director of the division of procurement of the Indiana department of administration, or any other person or agency authorized to make purchases of equipment, shall not honor any requisition for the purchase of an automobile that is to be paid for from any appropriation made by this act or any other act, unless the following facts are shown to the satisfaction of the commissioner of the Indiana department of administration or the commissioner's designee:

- (1) In the case of an elected state officer, it shall be shown that the duties of the office require driving about the state of Indiana in the performance of official duty. (2) In the case of department or commission heads, it shall be shown that the statutory duties imposed in the discharge of the office require traveling a greater distance than one thousand (1,000) miles each month or that they are subject to official duty call at all times.
- (3) In the case of employees, it shall be shown that the major portion of the duties assigned to the employee require travel on state business in excess of one thousand (1,000) miles each month, or that the vehicle is identified by the agency as an integral part of the job assignment.

In computing the number of miles required to be driven by a department head or an employee, the distance between the individual's home and office or designated official station is not to be considered as a part of the total. Department heads shall annually submit justification for the continued assignment of each vehicle in their department, which shall be reviewed by the commissioner of the Indiana department of administration, or the commissioner's designee. There shall be an insignia permanently affixed on each side of all state owned cars, designating the cars as being state owned. However, this requirement does not apply to state owned cars driven by elected state officials or to cases where the commissioner of the Indiana department of administration or the commissioner's designee determines that affixing insignia on state owned cars would hinder or handicap the persons driving the cars in the performance of their official duties.

- (b) A pupil meets the requirements of graduation for purposes of this section if the pupil successfully completed:
  - (1) a sufficient number of academic credits, or the equivalent of academic credits; and
- (2) the graduation examination required under IC 20-32-3 through IC 20-32-5; that resulted in the awarding of a nonwaiver high school diploma to the pupil for the school year ending in the immediately preceding state fiscal year.
- Sec. 2. (a) The sum of the grant amounts determined for a school corporation under this section constitutes a teacher performance grant that is in addition to and distinct from state tuition support. The teacher performance grant for a state fiscal year shall be distributed to the school corporation before December 5 of that state fiscal year.
- (b) If the total amount of grants under this chapter for a particular state fiscal year exceeds the amount appropriated for grants under this chapter, the total amount to be distributed under this chapter to each school corporation during the remaining months of the state fiscal year shall be proportionately reduced so that the total reductions equal the amount of the excess. The amount of the reduction for a particular school corporation is equal to the total amount of the excess multiplied by a fraction. The numerator of the fraction is the amount of the grant distribution that the school corporation would have received, and the denominator of the fraction is the total amount that would be distributed in grants to all school corporations under this chapter, both determined as if a reduction were not made under this section.
- Sec. 3. (a) A school corporation's teacher performance grant for a state fiscal year is the amount determined under STEP TEN of the following formula:

**STEP ONE: Determine the product of:** 

- (A) the count of the school's pupils who receive a 3, 4, or 5 on an advanced placement exam during the school year ending in the immediately preceding state fiscal year; multiplied by (B) fifty dollars (\$50).
- **STEP TWO: Determine the product of:** 
  - (A) the count of the school's pupils who receive a 3, 4, or 5 on an international baccalaureate exam during the school year ending in the immediately preceding state fiscal year; multiplied by
  - (B) fifty dollars (\$50).
- **STEP THREE: Determine the product of:** 
  - (A) the count of the school's pupils who complete a dual credit course approved by the career council with a passing grade during the school year ending in the immediately preceding state fiscal year; multiplied by
- (B) fifty dollars (\$50).

- STEP FOUR: If the school had a graduation rate of at least ninety percent (90%) during the school year ending in the immediately preceding state fiscal year, not including those students qualifying for graduation under IC 20-32-4-4, determine the result of:
  - (A) ninety percent (90%) multiplied by the total number of students who remained in the school during the school year ending in the immediately preceding state fiscal year as determined in STEP THREE of IC 20-26-13-10; multiplied by
  - (B) fifty dollars (\$50).

**5** 

- **STEP FIVE: Determine the product of:** 
  - (A) the count of the school's pupils who achieved a score of pass plus on ISTEP+; multiplied by
  - (B) fifty dollars (\$50).
- STEP SIX: If at least ninety-five percent (95%) of the pupils who were administered the IREAD-3 assessment by the school during the school year ending in the immediately preceding state fiscal year achieved a passing score on the IREAD-3 assessment, including summer retests, determine the product of:
  - (A) the percent of the pupils who achieved a passing score on the IREAD-3 assessment, including summer retests, out of the total number of administered IREAD-3 assessments within the school during the school year ending in the immediately preceding state fiscal year; minus nine hundred forty-nine thousandths (0.949); multiplied by the number of pupils who were administered IREAD-3 assessments within the school during the school year ending in the immediately preceding state fiscal year; multiplied by
  - (B) fifty dollars (\$50).
- STEP SEVEN: If at least ninety percent (90%) of the students of the school who were administered the Algebra I, Biology, or English 10 end of course assessments during the school year ending in the immediately preceding state fiscal year passed the Algebra I, Biology, or English 10 end of course assessments, determine the product of:
  - (A) the percent of the school's pupils achieving a passing score on the Algebra I, Biology, or English 10 end of course assessments out of the number of students within the school who were administered the Algebra I, Biology, or English 10 end of course assessments during the school year ending in the immediately preceding state fiscal year; minus eight hundred ninety-nine thousandths (0.899); multiplied by the number of pupils administered the Algebra I, Biology, or English 10 end of course assessments within the school during the school year ending in the immediately preceding state fiscal year; multiplied by
  - (B) fifty dollars (\$50).
- **STEP EIGHT: Determine the product of:** 
  - (A) the count of the school's pupils who achieved high growth as defined in 511 IAC 6.2-6-0.5 for the school year ending in the immediately preceding state fiscal year; multiplied by
  - (B) one hundred fifty dollars (\$150).
- **STEP NINE: Determine the result of:** 
  - (A) the count of the school's pupils who successfully completed an academic honors diploma program in the school year ending in the previous state fiscal year; plus
  - (B) the number of the school's eligible pupils who successfully completed a Core 40 diploma with technical honors program in the school year ending in the previous state fiscal year excluding students who are included in the school's count under clause (A); multiplied by (C) five hundred dollars (\$500).
- STEP TEN: Determine the sum of STEPS ONE through NINE.
- (b) To ensure timely distribution of the teacher performance grant, if any annual count

necessary for calculating an individual STEP in subsection (a) is unavailable or incomplete, the most immediately available count for the applicable STEP shall be substituted for that count.

- Sec. 4. An amount received by a school corporation under this chapter must be distributed to the school in which the teacher performance grant was earned and may be used by the school only for bonuses for teachers, as defined in IC 20-18-2-22, including principals.
- Sec. 5. A governing body that does not comply with this chapter for a school year is not eligible to receive a teacher performance grant for the following school year.
- Sec. 6. Grants distributed under this chapter are not subject to collective bargaining under IC 20-29.
  - Sec. 7. This chapter expires June 30, 2017.
