The person who combines the separately signed counterparts into a
single composite document must do so not later than ten (10) business

- (e) If physical impairment, physical isolation, or other factors make it impossible or impractical for a declarant to use audiovisual technology to interact with witnesses or to otherwise comply with the requirements concerning presence as defined in section 7.7 of this chapter, the declarant and the witnesses may use telephonic interaction to witness and sign an out of hospital DNR declaration. A potential witness may not, however, be compelled to only use telephonic interaction when participating in the signing or witnessing of an out of hospital DNR declaration under this subsection. If an out of hospital DNR declaration is signed using telephonic interaction under this subsection:
