17 from the date of appointment, successfully completed the minimum
18 basic training requirements established under this chapter by the board.
19 If a person fails to successfully complete the basic training
20 requirements within one (1) year from the date of employment, the
21 officer may not perform any of the duties of a law enforcement officer
22 involving control or direction of members of the public or exercising
23 the power of arrest until the officer has successfully completed the

- 35 (1) make an arrest;
36 (2) conduct a search or a seizure of a person or property; or

- 38 unless the law enforcement officer successfully completes, at a board

40 center under section 10.5 or 15.2 of this chapter, the basic training
41 requirements established by the board under this chapter.
- 42 (e) This subsection does not apply to:

3 (2) an:

4 (A) attorney; or

6 designated by the securities commissioner as a police officer of
7 the state under IC 23-19-6-1(k).

8 Before a law enforcement officer appointed after June 30, 1993,
9 completes the basic training requirements, the law enforcement officer
10 may exercise the police powers described in subsection (d) if the
11 officer successfully completes the pre-basic course established in
12 subsection (f). Successful completion of the pre-basic course authorizes
13 a law enforcement officer to exercise the police powers described in
14 subsection (d) for one (1) year after the date the law enforcement
15 officer is appointed.

16 (f) The board shall adopt rules under IC 4-22-2 to establish a
17 pre-basic course for the purpose of training:

18 (1) law enforcement officers;

19 (2) police reserve officers (as described in IC 36-8-3-20); and

20 (3) conservation reserve officers (as described in IC 14-9-8-27);

21 regarding the subjects of arrest, search and seizure, the lawful use of
22 force, de-escalation training, interacting with individuals with autism,
23 and the operation of an emergency vehicle. The pre-basic course must
24 be offered on a periodic basis throughout the year at regional sites
25 statewide. The pre-basic course must consist of at least forty (40) hours
26 of course work. The board may prepare the classroom part of the
27 pre-basic course using available technology in conjunction with live
28 instruction. The board shall provide the course material, the instructors,
29 and the facilities at the regional sites throughout the state that are used
30 for the pre-basic course. In addition, the board may certify pre-basic
31 courses that may be conducted by other public or private training
32 entities, including postsecondary educational institutions.

33 (g) Subject to subsection (h), the board shall adopt rules under
34 IC 4-22-2 to establish a mandatory inservice training program for
35 police officers and police reserve officers (as described in
36 IC 36-8-3-20). After June 30, 1993, a law enforcement officer who has
37 satisfactorily completed basic training and has been appointed to a law
38 enforcement department or agency on either a full-time or part-time
39 basis is not eligible for continued employment unless the officer
40 satisfactorily completes the mandatory inservice training requirements
41 established by rules adopted by the board. Inservice training must
42 include de-escalation training. Inservice training must also include

1 training in interacting with persons with mental illness, addictive
 2 disorders, intellectual disabilities, autism, developmental disabilities,
 3 and Alzheimer's disease or related senile dementia, to be provided by
 4 persons approved by the secretary of family and social services and the
 5 board, and training concerning human and sexual trafficking and high
 6 risk missing persons (as defined in IC 5-2-17-1). The board may
 7 approve courses offered by other public or private training entities,
 8 including postsecondary educational institutions, as necessary in order
 9 to ensure the availability of an adequate number of inservice training
 10 programs. The board may waive an officer's inservice training
 11 requirements if the board determines that the officer's reason for
 12 lacking the required amount of inservice training hours is due to either
 13 an emergency situation or the unavailability of courses.

14 (h) This subsection applies only to a mandatory inservice training
 15 program under subsection (g). Notwithstanding subsection (g), the
 16 board may, without adopting rules under IC 4-22-2, modify the course
 17 work of a training subject matter, modify the number of hours of
 18 training required within a particular subject matter, or add a new
 19 subject matter, if the board satisfies the following requirements:

- 20 (1) The board must conduct at least two (2) public meetings on
 21 the proposed modification or addition.
 22 (2) After approving the modification or addition at a public
 23 meeting, the board must post notice of the modification or
 24 addition on the Indiana law enforcement academy's Internet web
 25 site at least thirty (30) days before the modification or addition
 26 takes effect.

27 If the board does not satisfy the requirements of this subsection, the
 28 modification or addition is void. This subsection does not authorize the
 29 board to eliminate any inservice training subject matter required under
 30 subsection (g).

31 (i) The board shall also adopt rules establishing a town marshal
 32 basic training program, subject to the following:

- 33 (1) The program must require fewer hours of instruction and class
 34 attendance and fewer courses of study than are required for the
 35 mandated basic training program.
 36 (2) Certain parts of the course materials may be studied by a
 37 candidate at the candidate's home in order to fulfill requirements
 38 of the program.
 39 (3) Law enforcement officers successfully completing the
 40 requirements of the program are eligible for appointment only in
 41 towns employing the town marshal system (IC 36-5-7) and having
 42 not more than one (1) marshal and two (2) deputies.

- 1 (4) The limitation imposed by subdivision (3) does not apply to an
 2 officer who has successfully completed the mandated basic
 3 training program.
- 4 (5) The time limitations imposed by subsections (b) and (c) for
 5 completing the training are also applicable to the town marshal
 6 basic training program.
- 7 (6) The program must require training in interacting with
 8 individuals with autism.
- 9 (j) The board shall adopt rules under IC 4-22-2 to establish an
 10 executive training program. The executive training program must
 11 include training in the following areas:
- 12 (1) Liability.
 13 (2) Media relations.
 14 (3) Accounting and administration.
 15 (4) Discipline.
 16 (5) Department policy making.
 17 (6) Lawful use of force and de-escalation training.
 18 (7) Department programs.
 19 (8) Emergency vehicle operation.
 20 (9) Cultural diversity.
- 21 (k) A police chief shall apply for admission to the executive training
 22 program within two (2) months of the date the police chief initially
 23 takes office. A police chief must successfully complete the executive
 24 training program within six (6) months of the date the police chief
 25 initially takes office. However, if space in the executive training
 26 program is not available at a time that will allow completion of the
 27 executive training program within six (6) months of the date the police
 28 chief initially takes office, the police chief must successfully complete
 29 the next available executive training program that is offered after the
 30 police chief initially takes office.
- 31 (l) A police chief who fails to comply with subsection (k) may not
 32 continue to serve as the police chief until completion of the executive
 33 training program. For the purposes of this subsection and subsection
 34 (k), "police chief" refers to:
- 35 (1) the police chief of any city;
 36 (2) the police chief of any town having a metropolitan police
 37 department; and
 38 (3) the chief of a consolidated law enforcement department
 39 established under IC 36-3-1-5.1.
- 40 A town marshal is not considered to be a police chief for these
 41 purposes, but a town marshal may enroll in the executive training
 42 program.

1 (m) A fire investigator in the ~~division of fire and building safety~~
 2 **department of homeland security** appointed after December 31,
 3 1993, is required to comply with the basic training standards
 4 established under this chapter.

5 (n) The board shall adopt rules under IC 4-22-2 to establish a
 6 program to certify handgun safety courses, including courses offered
 7 in the private sector, that meet standards approved by the board for
 8 training probation officers in handgun safety as required by
 9 IC 11-13-1-3.5(3).

10 (o) The board shall adopt rules under IC 4-22-2 to establish a
 11 refresher course for an officer who:

12 (1) is hired by an Indiana law enforcement department or agency
 13 as a law enforcement officer;

14 (2) has not been employed as a law enforcement officer for:

15 (A) at least two (2) years; and

16 (B) less than six (6) years before the officer is hired under
 17 subdivision (1); and

18 (3) completed at any time a basic training course certified or
 19 recognized by the board before the officer is hired under
 20 subdivision (1).

21 (p) An officer to whom subsection (o) applies must successfully
 22 complete the refresher course described in subsection (o) not later than
 23 six (6) months after the officer's date of hire, or the officer loses the
 24 officer's powers of:

25 (1) arrest;

26 (2) search; and

27 (3) seizure.

28 (q) The board shall adopt rules under IC 4-22-2 to establish a
 29 refresher course for an officer who:

30 (1) is appointed by an Indiana law enforcement department or
 31 agency as a reserve police officer; and

32 (2) has not worked as a reserve police officer for at least two (2)
 33 years after:

34 (A) completing the pre-basic course; or

35 (B) leaving the individual's last appointment as a reserve
 36 police officer.

37 An officer to whom this subsection applies must successfully complete
 38 the refresher course established by the board in order to work as a
 39 reserve police officer.

40 (r) This subsection applies to an individual who, at the time the
 41 individual completes a board certified or recognized basic training
 42 course, has not been appointed as a law enforcement officer by an

1 Indiana law enforcement department or agency. If the individual is not
 2 employed as a law enforcement officer for at least two (2) years after
 3 completing the basic training course, the individual must successfully
 4 retake and complete the basic training course as set forth in subsection
 5 (d).

6 (s) The board shall adopt rules under IC 4-22-2 to establish a
 7 refresher course for an individual who:

8 (1) is appointed as a board certified instructor of law enforcement
 9 training; and

10 (2) has not provided law enforcement training instruction for
 11 more than one (1) year after the date the individual's instructor
 12 certification expired.

13 An individual to whom this subsection applies must successfully
 14 complete the refresher course established by the board in order to
 15 renew the individual's instructor certification.

16 (t) This subsection applies only to a gaming agent employed as a
 17 law enforcement officer by the Indiana gaming commission. A gaming
 18 agent appointed after June 30, 2005, may exercise the police powers

If a person fails to successfully complete the basic training requirements within one (1) year from the date of employment, the officer may not perform any of the duties of a law enforcement officer involving control or direction of members of the public or exercising the power of arrest until the officer has successfully completed the training requirements. This subsection does not apply to any law enforcement officer appointed before July 6, 1972, or after June 30, 1993.

(c) Military leave or other authorized leave of absence from law enforcement duty during the first year of employment after July 6, 1972, shall toll the running of the first year, which shall be calculated by the aggregate of the time before and after the leave, for the purposes of this chapter.

(d) Except as provided in subsections (e), (m), (t), and (u), a law enforcement officer appointed to a law enforcement department or

agency after June 30, 1993, may not:

- (1) make an arrest;
- (2) conduct a search or a seizure of a person or property; or
- (3) carry a firearm;

unless the law enforcement officer successfully completes, at a board certified law enforcement academy or at a law enforcement training center under section 10.5 or 15.2 of this chapter, the basic training requirements established by the board under this chapter.

(e) This subsection does not apply to:

- (1) a gaming agent employed as a law enforcement officer by the Indiana gaming commission; or
- (2) an:
 - (A) attorney; or
 - (B) investigator;

designated by the securities commissioner as a police officer of the state under IC 23-19-6-1(k).

Before a law enforcement officer appointed after June 30, 1993, completes the basic training requirements, the law enforcement officer may exercise the police powers described in subsection (d) if the officer successfully completes the pre-basic course established in subsection (f). Successful completion of the pre-basic course authorizes a law enforcement officer to exercise the police powers described in subsection (d) for one (1) year after the date the law enforcement officer is appointed.

(f) The board shall adopt rules under IC 4-22-2 to establish a pre-basic course for the purpose of training:

- (1) law enforcement officers;
- (2) police reserve officers (as described in IC 36-8-3-20); and
- (3) conservation reserve officers (as described in IC 14-9-8-27);

regarding the subjects of arrest, search and seizure, the lawful use of force, de-escalation training, interacting with individuals with autism, and the operation of an emergency vehicle. The pre-basic course must be offered on a periodic basis throughout the year at regional sites statewide. The pre-basic course must consist of at least forty (40) hours of course work. The board may prepare the classroom part of the pre-basic course using available technology in conjunction with live instruction. The board shall provide the course material, the instructors, and the facilities at the regional sites throughout the state that are used for the pre-basic course. In addition, the board may certify pre-basic courses that may be conducted by other public or private training entities, including postsecondary educational institutions.

(g) Subject to subsection (h), the board shall adopt rules under

IC 4-22-2 to establish a mandatory inservice training program for police officers and police reserve officers (as described in IC 36-8-3-20). After June 30, 1993, a law enforcement officer who has satisfactorily completed basic training and has been appointed to a law enforcement department or agency on either a full-time or part-time basis is not eligible for continued employment unless the officer satisfactorily completes the mandatory inservice training requirements established by rules adopted by the board. Inservice training must include de-escalation training. Inservice training must also include training in interacting with persons with mental illness, addictive disorders, intellectual disabilities, autism, developmental disabilities, and Alzheimer's disease or related senile dementia, to be provided by persons approved by the secretary of family and social services and the board, and training concerning human and sexual trafficking and high risk missing persons (as defined in IC 5-2-17-1). The board may approve courses offered by other public or private training entities, including postsecondary educational institutions, as necessary in order to ensure the availability of an adequate number of inservice training programs. The board may waive an officer's inservice training requirements if the board determines that the officer's reason for lacking the required amount of inservice training hours is due to either an emergency situation or the unavailability of courses.

(h) This subsection applies only to a mandatory inservice training program under subsection (g). Notwithstanding subsection (g), the board may, without adopting rules under IC 4-22-2, modify the course work of a training subject matter, modify the number of hours of training required within a particular subject matter, or add a new subject matter, if the board satisfies the following requirements:

- (1) The board must conduct at least two (2) public meetings on the proposed modification or addition.
- (2) After approving the modification or addition at a public meeting, the board must post notice of the modification or addition on the Indiana law enforcement academy's Internet web site at least thirty (30) days before the modification or addition takes effect.

If the board does not satisfy the requirements of this subsection, the modification or addition is void. This subsection does not authorize the board to eliminate any inservice training subject matter required under subsection (g).

(i) The board shall also adopt rules establishing a town marshal basic training program, subject to the following:

- (1) The program must require fewer hours of instruction and class

attendance and fewer courses of study than are required for the mandated basic training program.

(2) Certain parts of the course materials may be studied by a candidate at the candidate's home in order to fulfill requirements of the program.

(3) Law enforcement officers successfully completing the requirements of the program are eligible for appointment only in towns employing the town marshal system (IC 36-5-7) and having not more than one (1) marshal and two (2) deputies.

(4) The limitation imposed by subdivision (3) does not apply to an officer who has successfully completed the mandated basic training program.

(5) The time limitations imposed by subsections (b) and (c) for completing the training are also applicable to the town marshal basic training program.

(6) The program must require training in interacting with individuals with autism.

(j) The board shall adopt rules under IC 4-22-2 to establish an executive training program. The executive training program must include training in the following areas:

- (1) Liability.
- (2) Media relations.
- (3) Accounting and administration.
- (4) Discipline.
- (5) Department policy making.
- (6) Lawful use of force and de-escalation training.
- (7) Department programs.
- (8) Emergency vehicle operation.
- (9) Cultural diversity.

(k) A police chief shall apply for admission to the executive training program within two (2) months of the date the police chief initially takes office. A police chief must successfully complete the executive training program within six (6) months of the date the police chief initially takes office. However, if space in the executive training program is not available at a time that will allow completion of the executive training program within six (6) months of the date the police chief initially takes office, the police chief must successfully complete the next available executive training program that is offered after the police chief initially takes office.

(l) A police chief who fails to comply with subsection (k) may not continue to serve as the police chief until completion of the executive training program. For the purposes of this subsection and subsection

(k), "police chief" refers to:

- (1) the police chief of any city;
- (2) the police chief of any town having a metropolitan police department; and
- (3) the chief of a consolidated law enforcement department established under IC 36-3-1-5.1.

A town marshal is not considered to be a police chief for these purposes, but a town marshal may enroll in the executive training program.

(m) A fire investigator in the **division of fire and building safety department of homeland security** appointed after December 31, 1993, is required to comply with the basic training standards established under this chapter.

(n) The board shall adopt rules under IC 4-22-2 to establish a program to certify handgun safety courses, including courses offered in the private sector, that meet standards approved by the board for training probation officers in handgun safety as required by IC 11-13-1-3.5(3).

(o) The board shall adopt rules under IC 4-22-2 to establish a refresher course for an officer who:

- (1) is hired by an Indiana law enforcement department or agency as a law enforcement officer;

 - (A) at least two (2) years; and
 - (B) less than six (6) years before the officer is hired under subdivision (1); and
- (3) completed at any time a basic training course certified or recognized by the board before the officer is hired under subdivision (1).

(p) An officer to whom subsection (o) applies must successfully complete the refresher course described in subsection (o) not later than six (6) months after the officer's date of hire, or the officer loses the officer's powers of:

(q) The board shall adopt rules under IC 4-22-2 to establish a refresher course for an officer who:

- (1) is appointed by an Indiana law enforcement department or agency as a reserve police officer; and
- (2) has not worked as a reserve police officer for at least two (2) years after:

- (A) completing the pre-basic course; or
- (B) leaving the individual's last appointment as a reserve police officer.

An officer to whom this subsection applies must successfully complete the refresher course established by the board in order to work as a reserve police officer.

(r) This subsection applies to an individual who, at the time the individual completes a board certified or recognized basic training course, has not been appointed as a law enforcement officer by an Indiana law enforcement department or agency. If the individual is not employed as a law enforcement officer for at least two (2) years after completing the basic training course, the individual must successfully retake and complete the basic training course as set forth in subsection (d).

(s) The board shall adopt rules under IC 4-22-2 to establish a refresher course for an individual who:

- (1) is appointed as a board certified instructor of law enforcement training; and
- (2) has not provided law enforcement training instruction for more than one (1) year after the date the individual's instructor certification expired.

An individual to whom this subsection applies must successfully complete the refresher course established by the board in order to renew the individual's instructor certification.

(t) This subsection applies only to a gaming agent employed as a law enforcement officer by the Indiana gaming commission. A gaming agent appointed after June 30, 2005, may exercise the police powers described in subsection (d) if:

- (2) the agent successfully completes any other training courses established by the Indiana gaming commission in conjunction with the board.

(u) This subsection applies only to a securities enforcement officer designated as a law enforcement officer by the securities commissioner. A securities enforcement officer may exercise the police powers described in subsection (d) if:

- (1) the securities enforcement officer successfully completes the pre-basic course established in subsection (f); and
- (2) the securities enforcement officer successfully completes any other training courses established by the securities commissioner in conjunction with the board.

(v) As used in this section, "upper level policymaking position" refers to the following:

(1) If the authorized size of the department or town marshal system is not more than ten (10) members, the term refers to the position held by the police chief or town marshal.

(2) If the authorized size of the department or town marshal system is more than ten (10) members but less than fifty-one (51) members, the term refers to:

(A) the position held by the police chief or town marshal; and

(B) each position held by the members of the police department or town marshal system in the next rank and pay grade immediately below the police chief or town marshal.

(3) If the authorized size of the department or town marshal system is more than fifty (50) members, the term refers to:

(A) the position held by the police chief or town marshal; and

(B) each position held by the members of the police department or town marshal system in the next two (2) ranks and pay grades immediately below the police chief or town marshal.

(w) This subsection applies only to a correctional police officer employed by the department of correction. A correctional police officer may exercise the police powers described in subsection (d) if:

(1) the officer successfully completes the pre-basic course described in subsection (f); and

(2) the officer successfully completes any other training courses established by the department of correction in conjunction with the board.
