18 provide for the issuance of operating permits for:

- 19           (1) residential onsite sewage systems that are installed in  
20 compliance with the plans and specifications promulgated  
21 under subsection (a); and  
22           (2) onsite residential sewage discharging disposal systems in

30 **sewage systems operated by a local board of health under local**  
31 **ordinances may be more stringent than the rules concerning**  
32 **residential onsite sewage systems that are applicable under**  
33 **IC 13-20.2-1-2.**

34           (b) A permit program for residential onsite sewage systems

1 must submit an application to the local health department. An  
 2 application submitted under this section must:

- 3 (1) be on a form provided by the local health department;

 30 (3) the local health department determines that the soil,  
 31 although fill soil, is suitable for the installation of a residential

5 described in subsection (b), the tank of the residential onsite  
6 sewage system must have a cap or plug.

7           (d) A person who installs a residential onsite sewage system  
8 after December 31, 2014, commits a Class B infraction if the  
9 residential onsite sewage system does not meet the requirements of

26               (3) the employee uses guidelines set forth in the soil manuals,  
27 technical bulletins, and handbooks of the Natural Resources  
28 Conservation Service of the United States Department of  
29 Agriculture; and

31 department for each onsite soil evaluation conducted by the  
32 employee.

33           Sec. 8. (a) A local health department, in accordance with the  
34 rules that are applicable under IC 13-20.2-1-2, may require that an

26 that the commercial onsite sewage system will satisfy the  
27 requirements of the applicable rules under IC 13-20.2-1-2  
28 protecting the surface waters and ground waters of Indiana from  
29 contamination.
